## Directors' report (continued)

### Directors' responsibilities

Company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

We read the other information contained in the annual report and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. The other information comprises only the directors' report.

### **Basis of audit opinion**

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

The financial statements on pages 6 to 20 were approved by the board of directors on 4 September 2003 and signed on its behalf by:

R J Clarke  
Director

The accompanying notes are an integral part of these financial statements.

## Statement of accounting policies

31 March 2003

A summary of the principal accounting policies, all of which have been applied consistently throughout the year and the preceding year, is set out below.

### **Basis of accounting**

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain land and buildings, and in accordance with applicable accounting standards.

The Company has taken advantage of the exemption from the requirement of Financial Reporting Standard ("FRS") 1 "Cash flow statements" to present a cash flow statement because it is a wholly owned subsidiary of NPIL Holdco Limited which prepares consolidated financial statements which are publicly available.

### **Turnover**

Turnover comprises the value of sales (excluding VAT and similar taxes and trade discounts) of goods and services provided in the normal course of business.

### **Tangible fixed assets**

Tangible fixed assets are stated at cost or valuation, net of depreciation and any provision for impairment. Depreciation is provided on all tangible fixed assets other than freehold land, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset on a straight-line basis over its expected useful life, as follows:

|                                 |                                |
|---------------------------------|--------------------------------|
| Freehold buildings              | 25 to 50 years                 |
| Leasehold land and buildings    | <i>The period of the lease</i> |
| Plant and machinery             | 2 to 20 years                  |
| Fixtures, fittings and vehicles | 3 to 5 years                   |

Residual value is calculated on prices prevailing at the date of acquisition or revaluation.

## Statement of accounting policies (continued)

### **Stocks**

Stocks are stated at the lower of cost and net realisable value. Cost includes direct materials and labour costs and also those overheads that have been incurred in bringing the stock to its present location and condition. Net realisable value is based on an estimated selling price, less further costs expected to be incurred to completion and disposal. Provision is made for obsolete, slow moving or defective items where appropriate.

### **Taxation**

UK corporation tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

### **Deferred taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the gain or loss expected to arise on sale has been recognised in the financial statements. Neither is deferred tax recognised when fixed assets are sold and it is more likely than not that the taxable gain will be rolled over, being charged to tax only if and when the replacement assets are sold.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

## Statement of accounting policies (continued)

### **Operating leases**

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis.

### **Pension schemes**

The Company provides pensions to the majority of employees through a contributory final salary defined benefit scheme, the PD Pension Plan, ("the PD Scheme") which covers employees from a number of group companies. The assets of the PD Scheme are fully funded, held independently of the Company by a trustee company and are invested by professional fund managers.

Contributions to the PD Scheme are based on pensionable salaries across the participant companies as a whole. The amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the estimated regular cost of providing the benefits accrued in the year, calculated so that it represents a substantially level percentage of current and future payroll. Variations from regular cost are not identified in respect of the individual participant companies, and hence no adjustment to the regular cost is charged or credited to the Company's profit and loss account. Contributions by the Company to the PD Scheme are therefore charged to the profit and loss account in the period in which they fall due.

Contributions to defined contribution pension schemes are charged to the profit and loss account as they fall due.

### **Related party transactions**

The Company is a wholly owned subsidiary of NPIL Holdco Limited and has taken advantage of the exemptions in FRS 8 "Related party disclosures" which allow non-disclosure of all transactions with other members of the group which eliminate on consolidation.

### 5 Taxation (continued)

#### Factors affecting the tax charge in the period

The tax assessed for the year is different from the standard rate of UK Corporation tax (30%). The differences are explained below:

|   | 2003<br>£'000 | 2002<br>£'000 |
|---|---------------|---------------|
| Loss on ordinary activities before tax  | (956)         | (1,008)       |

| Other timing differences  | 45            | 16            |
| Group relief surrendered for no consideration   | (311)         | (131)         |
| Current tax charge for the period   | -             | -             |

#### Factors that may affect future tax charges

No provision has been made for deferred tax on gains recognised on revaluing property or on the sale of property where potentially taxable gains have been rolled into replacement assets. Such tax could become payable only if the property were sold without it being possible to claim rollover relief. The total amount unprovided is £1,512,000 (2002: 1,512,000). At present, it is not envisaged that any tax will become payable in the foreseeable future.

On the recommendation of the actuary, employers' contributions were made during the year at a rate of 0% (2002: 0.6%) of pensionable earnings. Further details of this valuation can be found in the consolidated financial statements of NPIL Holdco Limited.
