### **NOTES TO THE ABBREVIATED ACCOUNTS**

## FOR THE YEAR ENDED 31 MARCH 2006

#### 1 ACCOUNTING POLICIES

#### **BASIS OF PREPARING FINANCIAL STATEMENTS**

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005), and include the results of the company's operations which are described in the Directors Report and all of which are continuing.

#### **TURNOVER**

Turnover represents the invoiced value of goods provided, net of value added tax, and the value of any service and installation work as contractual activity progresses and the business becomes entitled to consideration under those contracts.

Amounts due under contracts, but not yet invoiced, are included in turnover to reflect the fair value of work carried out by the balance sheet date.

Strictly, this represents a change in accounting policy following the implementation of Urgent Issues Task Force Abstract 40 (UITF 40), but there is no adjustment required to the accounts in this respect.

#### **DEPRECIATION OF TANGIBLE FIXED ASSETS**

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided at the following annual rates in order to write off the cost of each asset over its estimated useful life:

- Plant & machinery

25% - 40% reducing balance

- Motor vehicles

25% reducing balance

### **OPERATING LEASES**

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to profit and loss account as incurred.

### STOCK AND WORK IN PROGRESS

Stock and work in progress are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stocks.

#### **FOREIGN CURRENCIES**

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currency are translated into sterling at the rate ruling on the date of the transaction. Exchange differences are taken into account in arriving at the operating profit or loss.

#### **DEFERRED TAXATION**

Provision is made for deferred taxation as a result of material timing differences between the incidence of income and expenditure for taxation and accounts purposes, using the liability method.
