**ABBEEY PRODUCE LTD**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2014**

**1. Accounting policies**

These financial statements have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Turnover**

Turnover represents income receivable for goods and services provided in the period, exclusive of Value Added Tax and trade discounts.

Turnover is recognised when the contract to supply goods has been fulfilled.

**Depreciation of fixed assets**

A full year's depreciation is charged in the year of acquisition of an asset but none in the year of disposal.

Depreciation has been computed to write off the cost of fixed assets over their expected useful lives at the following rates:-

Plant and machinery	20% reducing balance
Motor vehicles	20% reducing balance

**Stocks**

Stocks and work in progress are valued consistently at the lower of cost (on a first in, first out basis) or net realisable value. Cost, where appropriate, includes a proportion of directly attributable overheads.

**Debtors**

Debtors are shown after providing for any amounts which in the opinion of the directors may not be collected in full.

**Deferred taxation**

Deferred tax assets and liabilities have arisen from timing differences between the recognition of gains and losses in the financial statements and their recognition in a tax computation. Full provision is made for all liabilities, and provision is made for assets to the extent that they are considered more likely than not to be recoverable in the foreseeable future. Provision is made using tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based upon rates enacted at the balance sheet date.

**Leasing**

Leasing rentals payable on agreements which transfer substantially all the risk and rewards associated with ownership of the lessee ("finance leases") are capitalised within fixed assets, and the obligation to pay future rentals included in creditors as a liability. The interest charges implicit in such a lease are written off to the profit and loss account in proportion to the balance outstanding during the year.

All other leasing rentals ("operating leases") are written off to the profit and loss account over the life of the lease.

**Pension costs**

The company operates a defined contribution pension scheme and pension contributions are charged to profit and loss account as they fall due.
