Notes to the Financial Statements
for the Year Ended 31 December 2018

1. **STATUTORY INFORMATION**

Niagara Healthcare Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. **ACCOUNTING POLICIES**

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Monetary amounts in these financial statements are rounded to the nearest whole £1, except where otherwise indicated.

Preparation of consolidated financial statements

The financial statements contain information about Niagara Healthcare Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under Section 400 of the Companies Act 2006 from the requirements to prepare consolidated financial statements as it and its subsidiary undertakings are included by full consolidation in the consolidated financial statements of its parent, NHC Holdings Limited, Unit 1 Colomendy Industrial Estate, Rhyl Road, Denbigh, Denbighshire, LL16 5TS.

Turnover

Turnover represents the value of goods sold to customers during the year net of discounts and value added tax. Turnover is recognised upon delivery of goods.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	- at varying rates on cost
Motor vehicles	- 25% on cost

Investments in subsidiaries

Investments in subsidiary undertakings are recognised at cost less any provision for impairment.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Notes to the Financial Statements - continued
for the Year Ended 31 December 2018

2. **ACCOUNTING POLICIES - continued**

Research and development

Expenditure on research and development is written off in the year in which it is incurred.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Pension costs and other post-retirement benefits

The company operates several defined contribution pension schemes. The assets of these schemes are held separately from those of the company in independently administered funds.

Contributions to the schemes are charged to the profit and loss account as they become payable.

Going concern

The company's business activities, together with the factors likely to affect its future development and position, are set out in the Business Review section of the directors report in the consolidated financial statements.

The company is expected to continue to generate positive cash flows on its own accounts for the foreseeable future. The company participates in the group's centralised treasury arrangements and so shares banking arrangements with its parent and fellow subsidiaries.

The directors, having assessed the responses of the directors of the company's parent NHC Holdings Limited to their enquiries have no reason to believe that a material uncertainty exists that may cast significant doubt about the ability of the NHC Holdings Limited group to continue as a going concern or its ability to continue with the current banking arrangements.

On the basis of their assessment of the company's financial position and of the enquiries made of the directors of NHC Holdings Limited, the company directors have a reasonable expectation that the company will be able to continue in the operational existence for the foreseeable future. Thus the going concern basis of accounting in preparing the annual financial statements has been used.

Warranty provisions

Provision is made for liabilities arising in respect of expected warranty claims.

3. **EMPLOYEES AND DIRECTORS**

The average number of employees during the year was 3 (2017 - 3).
