THETFORD COMPACTORS FINANCE LTD

Notes to Abbreviated Accounts For the year ended 31st December 2001

1. Accounting Policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention, in accordance with the Companies Act 1985 and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 2000).

1.2. Turnover

Turnover is the total amount derived by the company from ordinary activities after value added tax and trade discounts.

Amounts receivable under operating leases are credited to the profit and loss account as invoiced on a monthly basis.

No adjustment has been made to invoices raised where part of the invoice relates to the following year as the directors consider the overall effect on the accounts to be immaterial.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset by equal annual instalments over its expected useful life, as follows:

Assets held under finance

leases for re-hire	-	over the primary lease term
Plant and machinery	-	25-50%
Fixtures and fittings	-	25-50%
Motor vehicles	-	50%

1.4. Leased assets and assets acquired under hire purchase contracts

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.
