Introduction

Purpose of this Report

This Report provides creditors and clients with an update of progress in the Special Administration for the six month period from 31 October 2022 to 30 April 2023 in accordance with Rule 122 of the Investment Bank Special Administration (England and Wales) Rules 2011. The JSAs' previous progress report was issued on 28 November 2022 covering the period 1 May 2022 to 30 October 2022.

All statutory and supporting information is set out in the attached appendices.

Website

The MFGUK website <https://www.ia-insolv.com/case+INTERPATH+PBB01F5305.html> is regularly updated with the latest information about the Special Administration.

Background

Richard Heis, Richard Fleming and Michael Pink of Interpath were appointed JSAs of MFGUK on 31 October 2011, by order of the Court following an application by the Directors of the Company. Richard Fleming subsequently resigned as a JSA on 30 June 2016. On 10 May 2017 Edward Boyle was appointed as a JSA.

The functions of the JSAs are being exercised jointly and severally by the JSAs.

This appointment followed the filing for Chapter 11 bankruptcy protection in the US by MFG Holdings and Finance USA on 31 October 2011. Also, on 31 October 2011 the SIPC instigated the SIPA liquidation of MFG Inc by a petition to the US District Court for the appointment of a SIPA trustee.

The Company traded as a broker-dealer in commodities, fixed income, equities, foreign exchange, futures and options and also provided client financing and securities lending services.

Executive summary

Assets

- Based on legal advice, the JSAs continue to pursue the appeal against the GTA's rejection of the Estate's asset claim in respect of the pre-administration 2011 WHT reclaims. The JSAs filed their most recent legal brief in their claim on 16 November 2022. An oral hearing is expected to take place before the Fiscal Court of Cologne in due course, although no date for this has yet been set by the court. The JSAs have enquired with the court about the possibility of a hearing now being scheduled.
- During the period, an amount of \$6.9 million was received with regard to claims filed in the US foreign exchange anti trust settlement

Creditor claims

- Pursuant to the Order dated 25 July 2019, Weil Germany submitted the JSA's grounds of objection on 25 October 2019 and since this time there have been several rounds of written submissions from each party. The latest legal brief was submitted by the JSAs on 16 November 2022, in which the JSAs have enquired with the court about the possibility of a hearing being scheduled. As a next step, it is expected that an oral hearing will take place before the Fiscal Court of Cologne, although no date for this has yet been set by the court. Please refer to our previous report dated 27 May 2021 for further information regarding these proceedings.

Future dividends and illustrative financial outcome statement

- On 30 July 2018 the JSAs published a revised illustrative financial outcome as at 31 May 2018. The revised illustrative financial outcome is available from the MFGUK website and provides further information regarding the range of returns available to unsecured creditors.
- The timing and quantum of any future distributions, beyond the sixth unsecured creditor dividend of 2.8p in the £ declared by the JSAs in August 2016 (bringing the cumulative total to 90.0p in the £) remains unclear, pending the resolution of complex issues in the special administration noted below.

Asset summary

Note: (a) For illustrative purposes only, This may not represent further recoveries or all amounts outstanding as reflects high case and does not represent the JSAs view as to future realisations.

(b) Outstanding amounts relate to DTT reclaims and exclude €129 million in respect of EU Reclaims.

Source: JSAs' records

Foreign Exchange Anti Trust claim

- As reported previously JSAs have now received a payment of \$6.9 million (£5.5 million) with regard to claims filed in the US foreign exchange anti trust settlement.
- As the claims administrators in this settlement continue to adjudicate on their remaining claims a holdback has been applied to our claim and so we are likely to received a further small distribution from this settlement in the future. Any amounts realised will regard to these claims will be paid in either USD or Euros and so is subject to FX risk.
- As reported previously, the JSAs continue to monitor the potential UK class action in order to protect any position in this this action. Again, at present the JSAs do not know what the likely amount or timing of any settlement will be from this action.

German tax reclaims

- The Company has submitted several claims against the GTA (the so-called Pending DTT Reclaims and the EU Reclaims) requesting relief from German withholding tax ("WHT") in connection with German share trades conducted prior to the Administration Date (in 2009, 2010 and 2011).
- Based on legal advice, the JSAs continue to pursue the appeal against the GTA's rejection of the Estate's asset claim in respect of the pre-administration 2011 WHT reclaims. The JSAs filed their most recent legal brief in their claim on 12 November 2022. An oral hearing is expected to take place before the Fiscal Court of Cologne in due course, although no date for this has yet been set by the court. The JSAs have enquired with the court about the possibility of a hearing now being scheduled. The JSAs will provide a further update to creditors once a hearing date has been set.
- These reclaims are denominated in Euros and are therefore exposed to FX changes.

Proposals not agreed or not yet issued

- Included in this category are creditors with claims totalling £4.5 million who have already received a large portion of their claim value as deemed distributions as a result of transferring their positions to new brokers shortly after MFGUK entered into Special Administration.
- The remaining balance of £1.1 million includes a number of creditors who have never returned their settlement proposal.

Reserves

- The JSAs continue to reserve for potential claims of former customers who have never submitted a claim form. Approximately £1.3 million is reserved in respect of Dormant Accounts, and £1.0 million is reserved in respect of a CMP Clients who lost their CMP entitlement

Creditor claims – German Tax, Affiliate, German Introducing Broker and FSCS claims

German Tax

- In August and September 2018, the GTA and DB, respectively, submitted applications for a stay of their appeals against the rejection of their proofs of debt pending the resolution of the GTA's claim in Germany (the "Stay Applications"). A two-day substantive hearing in respect of questions as to the appropriate jurisdiction for the resolution of certain matters relevant to the GTA and DB Appeals took place on 28 and 29 January 2019.
- As reported previously, the Stay Application filed by the GTA has been allowed so that, in effect, the dispute is to be referred to the German Courts. Pursuant to the Order dated 25 July 2019, Weil Germany submitted the JSA's grounds of objection on 25 October 2019, and since this time there have been several rounds of written submissions from each party. These submissions are continuing and the JSAs filed their most recent legal brief on 16 November 2022. In that brief, the JSAs enquired with the court about the possibility of a hearing being scheduled. Further, on 26 August 2021, the JSAs filed an appeal against the GTA's claim for interest in connection with its claim in Germany. For further information regarding these proceedings please refer to our previous report dated 26 May 2021.

Affiliates

- The JSAs continue to adjudicate the final portion of the MFG Services claim and a further two claims received from affiliates.

German Introducing Broker Claimants

- A connected claim in respect of professional fees totalling €0.2 million received from the lawyer who, prior to our appointment, previously acted for MFGUK in the German Courts on these matters remains to be agreed. MFGUK has obtained legal advice on the extent to which these fees are payable.

Claims assigned to the Financial Services Compensation Scheme

- The JSAs continue to work with the FSCS to reconcile records of all claims assigned to the FSCS.
- To date 2,498 customers have assigned claims to the FSCS to date. The JSAs have been in dialogue with the FSCS since the early stages of the Special Administration. A protocol has been established whereby the JSAs provide information to the FSCS to assist it in its assessment of eligibility. The determination of whether a claim is protected and therefore entitled to compensation is the decision of the FSCS.
- The FSCS will compensate up to £50,000 for losses to eligible claimants. As a result, the majority of customers who have assigned their claim to the FSCS have now recovered their claim in full.
- To date, payments totalling £43.8 million (combined client and creditor distributions) have been made to the FSCS with regard to claims assigned to them.

Operational matters, unpaid CMP Distributions and third party funds

IT

- The stability of IT systems remains a priority and continues to be maintained whilst steps continue to be taken in parallel to implement cost savings through the decommissioning of non-essential applications/services and consolidation of the IT estate. Some key systems are still likely to be retained for a significant period as there will be remaining dependencies on them to provide support for claims analysis and resolution and to meet regulatory/legal requirements. At the appropriate time, plans will be prepared and implemented for the relocation of the remaining MFGUK equipment within Interxion (the third party Data Centre).
- As reported previously we suffered an IT 'outage' caused by a voltage spike at the hosting site for the Company's servers. During the period the JSAs worked with their IT support provider to successfully return the MFG IT infrastructure to full operation. Whilst we have not identified any data loss due to the power outage we are continuing to review the IT infrastructure in an effort to identify any areas which may need to be upgraded.
- The MF Global IT department has been reduced from 132 staff at appointment in 2011 to a single contractor now. This contractor has been retained to provide ongoing support for the systems, communications and infrastructure previously used by MFGUK and still required under the Special Administration. Costs with regard to this contractor are incurred as category 1 disbursements.

Human Resources

- There are no employees. Only one specialist contractor remains, whilst ad hoc contractors are also utilised as required for specific tasks, such as providing assistance with the Foreign Exchange Anti Trust claims. Ongoing requirements are periodically considered to ensure a cost effective wind down of the MFGUK estate as a whole.

Unpaid CMP distributions

- Any client wishing to claim their unpaid CMP distributions is still entitled to do so from the ISA. A request for payment needs to be made to the Insolvency Service directly, however in the first instance please make contact with the MF Global Claims Team on +44 (0)20 7785 0308 or mfglobalclaims@interpathadvisory.com who will look to assist with this process.

Third party funds

- During the period amounts with a GBP equivalent of 4.1 million were received with regard to funds held on account on behalf of a third party. These funds were subsequently return to the third party.

Statement of Affairs

There are no 'estimated to realise' figures as the Directors detailed realisations of all asset categories as 'uncertain' in their Statement of Affairs.

Currency exchange

The JSAs operated bank accounts in 18 different foreign exchanges to allow for the recovery of assets held in foreign currency, although following recovery the majority of the foreign exchange bank accounts are now closed. The sterling equivalent totals in the receipts and payments accounts are prepared using the 30 April 2023 foreign exchange spot rates. The JSAs have periodically converted foreign currency balances received into GBP (for the unsecured estate) and USD equivalent (for the CMP) in order to minimise exposure to movements in foreign exchange rates.

Interest

All bank accounts held attract a market rate of interest. Where possible, significant cash balances have been placed on deposit in order to attract more favourable interest rates.

Recharge of non-segregated costs

All costs incurred with regard to the Special Administration were initially funded out of the House Estate. A proportion of these costs were re-allocated to the CMP which reimbursed the House Estate during the period. As agreed with the Creditors' Committee, the allocation of costs was based on a pro-rata of the gross assets of each estate.

Additional information

Creditors are advised that any additional information regarding other expenses charged for the period is available from the Special Administrators upon request by any Secured Creditor or any unsecured creditor(s) with at least 5% in value of the unsecured debt in accordance with Rule 201. This request must be made within 21 days of receipt of the attached Report. In addition creditors are reminded that the quantum can be challenged by any Secured Creditor or any unsecured creditor(s) with at least 10% in value (including that creditor's claim) of the unsecured debt or a client with the concurrence of clients representing at least 10% of the total claims in respect of Client Assets held by making an application to Court in accordance with Rule 202 within eight weeks of receipt of the attached Report. The full text of these rules can be provided upon request.

Cash at Bank

The realisation of MFGUK's assets and recovery of house and non-segregated monies means that the Special Administrators hold significant cash balances at any point in time.

Currency risk has largely been addressed by the conversion of foreign currencies to Sterling in the case of the House Estate, with only minimal balances held in US Dollars to meet operational needs.

The Special Administrators have continued to invest MFGUK's cash with the objective of protecting capital rather than searching for maximum investment returns. The Special Administrators' clearing bank services are provided by four high street banks, and cash for the House Estates has been deposited (in the form of current accounts, short term deposits or money market deposits) in varying amounts with these banks for diversification purposes. The banks were selected on the basis of their credit ratings and lack of conflicts and this continues to be monitored.

Interpath Restructuring policy for the recovery of disbursements

Where funds permit the officeholders will seek to recover both Category 1 and Category 2 expenses from the estate. For the avoidance of doubt, such expenses are defined within SIP 9 as follows:

Expenses: These are any payments which are neither an office holder's remuneration nor a distribution to a creditor or a member. Expenses also includes disbursements which are payments first met by the office holder, and then reimbursed to the office holder from the estate.

Category 1 expenses: These are payments to persons providing the service to which the expense relates who are not an associate of the office. These may include, for example, advertising, room hire, storage, postage, telephone charges, travel expenses, and equivalent costs reimbursed to the officeholder or his or her staff.

Category 2 expenses: These are payments to associates or which have an element of shared costs. They may include shared or allocated costs that can be allocated to the appointment on a proper and reasonable basis, for example, business mileage. Any disbursements paid from the estate are disclosed within the attached summary of disbursements.

Associates: are defined in the insolvency legislation but also extends to parties where a reasonable and informed third party might consider there would be an association between the third party and the office holder or their firm.

Category 2 expenses charged by Interpath Restructuring include mileage. This is calculated as follows:

Mileage claims fall into three categories:

- Use of privately-owned vehicle or car cash alternative – 45p per mile.
- Use of company car – 60p per mile.
- Use of partner's car – 60p per mile.

For all of the above car types, when carrying Interpath passengers an additional 5p per mile per passenger will also be charged where appropriate.
