NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 MARCH 2009

1 ACCOUNTING POLICIES

a. Accounting Convention

The financial statements are prepared under the historical cost convention modified to include the revaluation of freehold land and buildings and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

b. Turnover

Turnover represents total invoice value of services rendered during the year.

c. Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Fixtures, fittings & equipment - 15% on Reducing balance method

d Investments

Investment properties are included in the Balance Sheet at their open market value. Depreciation is provided only on those investment properties which are leasehold and where the unexpired lease term is less than 20 years.

Although this accounting policy is in accordance with the Financial Reporting Standard for Smaller Entities (effective January, 2007), it is a departure from the general requirement of the Companies Act 1985 for all tangible assets to be depreciated. In the opinion of the directors compliance with the standard is necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified.

e Group Accounts

The financial statements present information about the company as an individual undertaking and not about its group. The company and its subsidiary undertakings comprise a small sized group. The company has therefore taken advantage of the exemptions provided by section 248 of the Companies Act 1985 not to prepare group accounts
