Notes to the Abbreviated Accounts
for the year ended 31 March 2014

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the value, net of value added tax and discounts, of goods and services provided to customers.

Depreciation

Investment properties are included in the Balance Sheet at their open market value. Depreciation is provided only on those investment properties which are leasehold and where the unexpired lease term is less than 20 years.

Although this accounting policy is in accordance with FRSSE (effective April 2008), it is a departure from the general requirement of the Companies Act 2006 for all tangible assets to be depreciated. In the opinion of the Director compliance with the standard is necessary for the financial statements to give a true and fair view.

The accounting policy for the depreciation of Fixtures, fitting and equipment is 15% on a reducing balance basis. Low value items (ie items with a purchase price of less than £1,500) are depreciated in full in the year of purchase.

Group Accounts

The financial statements present information about the company as an individual undertaking and not about its group. The company and its subsidiary undertaking are a small group and so are not required by the Companies Act 2006 to prepare group accounts.
