Kindplace Ltd
Notes to the Abbreviated Accounts
for the year ended 31 March 2014

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the invoiced value of goods supplied by the company, net of value added tax and trade discounts. Turnover is recognised when the goods have been shipped to customers.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Fixtures & Fittings	15% Reducing Balance
Office & Computer Equipments	33% Reducing Balance

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.

Investment properties

Investment properties, which comprise properties held for rental, are shown at open market value. Any aggregate surplus or deficit is transferred to the investment revaluation reserve, except where a deficit is deemed permanent when it is taken to the profit & loss account. No provision is made for depreciation of investment properties. This departure from the requirements of the Companies Act 2006 which require all properties to be depreciated is, in the opinion of the directors, necessary for the financial statements to show a true and fair view in accordance with applicable accounting standards.
