non-trading. However, on 01.02.12 there was a reconstruction of the company, the effect of which means that it became a wholly owned subsidiary of Holme Steel (Investments) Limited.

### Bank overdraft

The company has a bank overdraft facility which it utilises from time to time. Any such borrowings are secured by a right of set-off incorporated in a mortgage debenture dated 19 August, 1991 and an unscheduled mortgage debenture dated 19 August, 1991 incorporating a fixed and floating charge over all current and future assets of the company. The company meets its day to day working capital requirements through positive cash flow and its overdraft facility, which is not generally repayable on demand. The nature of the company's business is such that there can be unpredictable variation in the timing of cash inflows. The Director has considered projected cash flow information for the year from the date of his approval of these financial statements. On the basis of this cash flow information, the Director considers that the company will be able to operate within the agreed facility when its utilisation is required. However, there can be no certainty in relation to these matters.
