Directors' Report For the year ended 30 June 2007

The directors have pleasure in presenting their report and financial statements for the year ended 30 June 2007

Principal activities

The principal activities of the company and group throughout the year were those of shipping and forwarding agents

The results for the year and financial position at the balance sheet date were considered satisfactory by the directors with the group experiencing strong sales growth and maintaining a reasonable margin in what is a very tough market place

The directors look forward to continuing growth in the future by sales growth of at least 10% and maintaining margins at current levels

The company limits its risk exposure by operating in a diverse range of manufacturing and retail sectors and reliance is not placed on any one specific customer. It also buys a range of services through over 1,500 suppliers each month, both in the UK and Worldwide.

The group amalgamated its media subsidiary Bookshippers Worldwide Inc. with SBS Worldwide Inc. on the 1 July 2006 to enable the group to reduce unnecessary overhead and duplication of a number of processes

Notes to the Consolidated Financial Statements For the year ended 30 June 2007

1 Principal Accounting Policies

Accounting basis and standards

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards. There were no changes from the previous year

Turnover

Turnover represents the amounts receivable for services provided net of value added tax and trade discounts

Basis of consolidation

The consolidated profit and loss account and balance sheet consist of the financial statements of the parent company and its subsidiary undertakings. Inter-group sales and profits are eliminated fully on consolidation

Investments

Fixed asset investments are stated at cost less provision for impairment

Depreciation

Depreciation on fixed assets is provided at rates estimated to write off the cost, less estimated residual value of each asset, over its expected useful life, as follows -

Leasehold improvements

Straight line over the life of the lease, between 3 and 20 years

Fixtures and fittings

20% reducing balance

Computer equipment

25% straight line

Finance leases

Assets obtained under finance leases are capitalised as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the group

Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Operating leases

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to the profit and loss account on a straight line basis, over the lease term

Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions denominated in foreign currencies are translated into sterling at the rate ruling on the date of transaction. Gains and losses arising from trading transactions are disclosed as part of 'administration expenses' and are taken into account in arriving at the operating profit. Those gains and losses arising from arrangements which are considered as financing are disclosed separately as part of interest payable and similar charges.

The financial statements of foreign subsidiaries are translated into sterling at the closing rates of exchange and the differences arising from the translation of the opening net investment in subsidiaries at the closing rate are taken directly to reserves

Notes to the Consolidated Financial Statements (continued) For the year ended 30 June 2007

Deferred taxation

In accordance with FRS19, deferred tax is recognised as a liability or asset if transactions or events that give the company the obligation to pay more tax in future or a right to pay less tax in future have occurred by the balance sheet date. The deferred tax balance has not been discounted

Pensions

The group operates a money purchase pension scheme for the directors and certain staff. Contributions are charged to the profit and loss account as they are paid

2 Turnover

The turnover and pre-tax result are mainly attributable to the group's principal activity

The directors are of the opinion that it would be prejudicial to the interests of the group to disclose the values of turnover attributable to each separate geographical market
