NOTES

You should read these notes carefully before completing the forms. The notes do not form part of the return to be sent to the registrar of companies

Form and Contents of Statement

(1) Every statement must contain a detailed account of all the liquidator's realisations and disbursements in respect of the company. The statement of realisations should contain a record of all receipts derived from assets existing at the date of the winding up resolution and subsequently realised, including balance at bank, book debts and calls collected, property sold etc., and the account of disbursements should contain all payments of costs, charges and expenses, or to creditors or contributories. Receipts derived from deposit accounts and money market deposits are to be included in the 'balance at bank'. Only actual investments are to be included in the 'amounts invested' section in the analysis of balance on page 5 of the form. Where property has been realised, the gross proceeds of sale must be entered under realisations and the necessary payments incidental to sales must be entered as disbursements. A payment into the Insolvency Services Account is not a disbursement and should not be shown as such, nor are payments into a bank, building society or any other financial institution. However, the interest received on any investment should be shown in the realisations. Each receipt and payment must be entered in the account in such a manner as sufficiently to explain its nature. The receipts and payments must severally be added up at the foot of each sheet and the totals carried forward from one account to another without any intermediate balance, so that the gross totals represent the total amounts received and paid by the liquidator respectively.

Trading Account

(2) When the liquidator carries on a business, a trading account must be forwarded as a distinct account, and the total of receipts and payments on the trading account must alone be set out in this statement

Dividends

- (3) When dividends, instalments of compositions, etc are paid to creditors or a return of surplus assets is made to contributories, the total amount of each dividend, etc actually paid, must be entered in the statement of disbursements as one sum, and the liquidator must forward separate accounts showing in lists the amount of the claim of each creditor, and the amount of dividend, etc payable to each creditor or contributory
- (4) When unclaimed dividends, etc. are paid into the Insolvency Services Account, the total amount so paid in should be entered in the statement of disbursements as one sum. The items to be paid in relation to unclaimed dividends should first be included in the realisations side of the account.
- (5) Credit should not be taken in the statement of disbursements for any amount in respect of liquidator's remuneration unless it has been duly allowed by resolutions of the liquidation committee or of the creditors or of the company in general meeting, or by order of the court as the case may require, or is otherwise allowable under the provisions of the Insolvency Rules

Remuneration

In accordance with a resolution passed by creditors at the first meeting of creditors held on 23 September 2011, I have drawn £5,000 plus VAT and disbursements in respect of costs related to the preparation of the Statement of Affairs and convening meetings of the members and creditors

I have since drawn remuneration on a time cost basis, and disbursements, in accordance with the resolutions passed at the creditors' meeting held on 23 September 2011. A schedule of current time cost rates is attached. Our time charge rates increase from time to time over the period of the administration of each insolvency case. Full details, including any increases relating to this case, are available on application. Statement of Insolvency Practice 9 ("SIP9") provides guidance on what information creditors can expect to receive to support the liquidator's remuneration. A copy of SIP9 was sent to creditors at the start of the liquidation. A further copy of SIP9 can be viewed via our website at www jaservices column.

Attached is a summary of the hours spent by grade of staff on areas of work involved in this case. A total of 87.5 hours have been spent at an average rate of £246.61 per hour over the life of this case to date.

In common with other sole practitioner firms, this firm only utilises the staff grades listed. It is not unusual for a significant quantity of work to be carried out by the office holder herself, particularly in cases of greater than normal complexity. Wherever possible, work is delegated to other available and suitable staff levels. All staff who have worked on this case have been charged at their appropriate rates.

Disbursements

This company may incur disbursements on behalf of a case and will then recharge those disbursements back to the case after obtaining the appropriate authority from shareholders and/or creditors. Reports to creditors will provide a breakdown of the disbursements that have been incurred and which have been or will be recharged.

Statement of Insolvency Practice 9 states that disbursements should be divided into two categories

Category 1

Category 1 disbursements are recoverable from a case without prior approval from shareholders or creditors. These disbursements will generally comprise external supplies of incidental services specifically identifiable to the case, e.g. identifiable telephone calls, postage and case advertising, together with travel and properly reimbursed expenses incurred by personnel in connection with the case. Also included will be services specific to the case where these cannot practically be provided internally such as printing, room hire and document storage.

This company classes the following as Category 1 disbursements

- Postage costs directly attributable to a case,
- Statutory and other insurance costs,
- · Statutory and other advertising costs,
- External room hire.
- The fees and expenses of specialist advisors including asset agents and legal advisors,
- Staff expenses directly attributable to a case.
- Company search costs,
- · Other external expenses directly attributable to a case

This company does not add any profit element to these types of disbursements when recharging them to a case

Category 2

Where it is proposed to recover costs which, whilst being in the nature of expenses or disbursements, include a profit element or elements of shared or allocated costs, they should be identified and subject to approval by shareholders and/or creditors. If the office holder wishes to make a separate charge for expenses in this second category, they may do so provided that

- such expenses are of an incidental nature and are directly incurred on the case, and there is a reasonable method of calculation and allocation, and
- the basis of the proposed charge is disclosed and is authorised by those responsible for approving the office holder's remuneration

Category 2 disbursements will comprise cost allocations which may arise on some of the Category 1 expenses where supplied internally typically, items such as room hire and document storage. Also typically included will be routine or more specialist copying and printing, and allocated communication costs provided by the practitioner or his company.

This company classes the following as Category 2 expenses

- Reports and similar general notices to creditors are charged at 15 pence per A4/A5 sheet and 30 pence per A3 sheet in respect of copying and stationery costs,
- Envelopes in respect of the above are charged at 10 pence per A5 envelope and 15 pence per A4 envelope,
- Room hire for the purpose of holding members' or creditors' meetings is charged at £100 if the meeting is held at this company's offices,
- Storage of books and records will be charged at a rate of £2 50 per banker's box per month until the release of the office holder.
- Destruction of books and records will be charged at £5 00 per box,
- A one-off charge is made of £50 per case for archiving case files together with a £10 charge for files at the start of each case,
- Travelling expenses at 40 pence per mile when directly attributable to a case,
- Costs incurred in employing a company of accountants in respect of accountancy, tax and other related matters on cases is recharged at cost

This company does not make any charge for telephone costs or for the cost of normal day to day correspondence and letters produced in the administration of a case

All Category 1 and 2 disbursements are subject to VAT where applicable
