AGRA CEAS CONSULTING LIMITED

DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2012

The Directors present their annual report and the audited financial statements for the year ended 31 December 2012. The Directors' report has been prepared in accordance with the provisions applicable to companies entitled to the small companies' exemption.

PRINCIPAL ACTIVITIES

The principal activities of the Company are as consultants and advisors in the field of economic research for the food and agriculture industries.

BUSINESS REVIEW

The Company delivers high quality policy and economic research and consultancy to the agri-food chain through analysis and evaluation. Turnover decreased from £780,901 in 2012 (2011: £811,540) but the gross profit percentage has marginally improved to 50% (2011: 46%). Despite the fall in turnover for the year, the Directors see no reason to alter their expectations that the business will deliver a satisfactory performance in 2013.

PRINCIPAL RISKS AND UNCERTAINTIES

A number of factors affect the Company's operating results and financial condition. In common with other consulting businesses, the profitability of the Company depends in part on the prevailing economic environment and the strength of the customers to which it sells. In addition, it is dependent on maintaining a strong and highly motivated management team and maintaining brand reputation.

The valuation of investments could be affected by deterioration in economic conditions. A reduction in the valuation of investments could cause a material reduction in profit.

The failure to attract and retain key employees could seriously impede the objectives of the Company. The success of the Company depends to a substantial extent not only on the ability and experience of its senior management but also on the individuals and teams that service its customers and maintain its client relationships. The Directors believe that the Company's future success will depend, to a large degree, on its ability to attract and retain additional highly skilled and qualified personnel and to expand, train, manage and motivate its employees.

GOING CONCERN

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements as set out in note 1.

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's activities expose it to a number of financial risks including credit risk and cash flow risk. The Company does not use derivative financial instruments.

Credit risk

The Company's principal financial assets are trade and intercompany receivables. The Company's credit risk is primarily attributable to these receivables. The amounts presented in the balance sheet are net of allowances for doubtful receivables. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the assets.

Cash flow risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates primarily in relation to the US dollar and Euro. A strong sterling compared to other currencies will reduce the sterling reported revenue for services not billed in sterling and also will decrease demand from overseas for services billed in sterling.

CHARITABLE AND POLITICAL CONTRIBUTIONS

During the year the Company made charitable donations of £nil (2011 £nil) No political contributions were made during the current or prior year

EMPLOYEE CONSULTATION

The Company places considerable value on the involvement of its employees and continues to keep them informed on matters affecting them as employees and on various factors affecting the performance of the Informa group. This is achieved principally through formal and informal meetings, email updates and via the Informa group global intranet site, which is regularly updated and includes a facility enabling employees anonymously to ask questions of executive management to which answers are also published. Employees are consulted regularly on a wide range of matters affecting their current and future interests.

All UK employees are eligible to participate in the Informa plc Share Incentive Plan, an Inland Revenue Approved All Employee Share Incentive Plan offering UK employees the opportunity to purchase annually up to £1,500 of shares in Informa plc out of pre-tax salary.

DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 31 DECEMBER 2012

The Directors are responsible for preparing the Annual report and the financial statements in accordance with applicable law and regulations

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2012

1. ACCOUNTING POLICIES

The principal accounting policies are summarised below. They have all been applied consistently throughout the current and preceding year.

Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom generally accepted accounting practices).

As permitted by section 401 of the Companies Act 2006, the Company has not prepared consolidated financial statements as it is a subsidiary undertaking of Informa plc, a company registered in Jersey which prepares consolidated financial statements including the results of Agra CEAS Consulting Limited and its subsidiary undertakings. These financial statements present information about the Company as an individual undertaking and not about its group.

Under FRS 1 the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements.

As the Company is a wholly-owned subsidiary and the Company's voting rights are controlled within the Group headed by Informa plc, the Company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the Group. The consolidated financial statements of Informa plc, within which this Company is included, can be obtained from the address given in note 18.

Going concern

The Company is a 81.18% subsidiary of Informa plc. In reaching their decision to prepare the accounts on a going concern basis, the Directors have considered the impact of the current economic climate on both the Company and also the Group of which it is a member.

Having given due consideration to the above factors and the anticipated future performance of the Company, taking into account reasonably possible changes in trading performance in light of uncertainty related to current unfavourable economic conditions, the Directors have been able to form a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the accounts.

Tangible fixed assets

Tangible fixed assets are stated at cost, net of depreciation and any other provisions for impairment. Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset on a straight-line basis over its expected useful life, as follows:

Fixtures, fittings and equipment - three - five years

Residual value is calculated on prices prevailing at the date of acquisition.

AGRA CEAS CONSULTING LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2012

1. ACCOUNTING POLICIES (continued)

Investments

Investments held as fixed assets are shown at cost less provision for impairment

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements

A net deferred tax asset is regarded as recoverable and therefore recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the gain or loss expected to arise on sale has been recognised in the financial statements. Neither is the deferred tax recognised when fixed assets are sold and it is more likely than not that the taxable gain will be rolled over, being charged to tax only if and when the replacement assets are sold

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis

Turnover

Turnover is stated net of VAT and trade discounts. Turnover from the sale of goods is recognised when the goods are physically delivered to the customer. Revenue on subscription-based products is deferred and recognised in turnover over the period of the subscription. Revenue from conferences, course and exhibitions is deferred and recognised once it has taken place

Pension costs

For defined contribution schemes the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the contribution payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet

Foreign currency

Transactions in foreign currencies are recorded using the rate of exchange at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date. The translation differences are reported in the profit and loss account

1. ACCOUNTING POLICIES (continued)

Leases

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term, except where the period to the review date on which the rent is first expected to be adjusted to the prevailing market rate is shorter than the full lease term, in which case the shorter period is used.

Factors affecting tax credit for the year

The current tax credit for the year is higher than (2011 lower than) the standard rate of corporation tax in the UK of 24.5% (2011 26.5%). The differences are explained below

| | 2012 £ | 2011 £ |
|-------------------------------------------------------|---------------------|-----------------------|
| Profit/(loss) on ordinary activities before tax | <u>10,984</u> | <u>(20,678)</u> |

| Effects of: | | |
| Expenses not deductible for tax purposes | 613 | 70 |
| Capital allowances for year in excess of depreciation | (298) | (324) |
| Other short term timing differences | - | (2,033) |
| Total current tax charge/(credit) | <u><u>3,006</u></u> | <u><u>(7,767)</u></u> |

The current tax charge/(credit) for the year includes the effect of payments made or received for group loss transfers, calculated at the prevailing rate of tax

In March 2012 UK government announced its intention to reduce the main rate of corporation tax from 26% to 22% by April 2014. The rate was reduced to 24% with effect from 1 April 2012 and was due to be followed by further reductions of 1% per annum until the target was met. In December 2012 an additional reduction of 1% was announced to reduce the rate to 21% with effect from 1 April 2014. The legislation to reduce the corporation tax rate for the year commencing 1 April 2013 to 23% was substantively enacted on 3 July 2012. Further reductions in the rate were not enacted or substantively enacted at the balance sheet date. Deferred tax has therefore been calculated at the reduced rate of 23%.
