NOTES TO THE ABBREVIATED ACCOUNTS

1 ACCOUNTING POLICIES

Basis of accounting

The accounts have been prepared under the historical cost convention in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Investment properties

Investment properties are revalued annually and the aggregate surplus or deficit transferred to the revaluation reserve except where any deficit is deemed permanent when it is taken to the Profit and Loss Account. No provision is made for depreciation of investment properties. This departure from the requirements of the Companies Act 2006, which requires all properties to be depreciated is, in the opinion of the director, necessary for the accounts to show a true and fair view. The depreciation charge is only one of the factors reflected in the annual valuation and therefore the effect of the departure cannot be readily quantified
