Accounting policies 1

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of current asset investments, and are in accordance with applicable United Kingdom accounting standards. The following principal accounting policies have been applied:

Going concern

The company has adequate financial resources As a consequence, the directors believe that the company is well placed to manage its business risks successfully despite the current uncertain economic outlook. The directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements

Turnover

Turnover represents amounts receivable for travel services, net of trade discounts and VAT Where the company acts as principal, turnover includes the value of all travel services together with any commissions receivable Where the company acts as agent, turnover includes only the commission element of the travel arrangements

Revenue recognition and associated costs

Revenue relating to package themes and tours, and direct costs are recognised when the holiday is taken Where the company acts as agent only, revenue is recognised when earned, which is on confirmation of booking Other revenue and associated expenses are taken to the profit and loss account as earned or incurred. Certain expenses, such as the cost of brochures and promotional activities, are charged to the profit and loss account over the season to which they relate where recovery of the expenditure is reasonably assured.

Travel debtors and creditors

Travel debtors include the amounts receivable from customers for the gross value of the related travel service Travel creditors include the gross amounts payable to tour operators

Depreciation

Depreciation is provided to write off the cost, less estimated residual values, of all fixed assets evenly over their expected useful lives. It is calculated at the following rates:

Office equipment

10 years

Computer equipment

4 years

Notes forming part of the financial statements for the year ended 31 December 2011

1 Accounting policies (continued)

Deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxation profits and its results as stated in the financial statements

The recognition of deferred tax assets is limited to the extent the company anticipates to make sufficient profits in the future to absorb the reversal of the underlying timing differences

Deferred tax is measured at the average tax rates that are expected to apply in the period in which timing differences are expected to reverse, based on the tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis

Operating leases

Annual rentals under operating leases are charged to the profit and loss account on a straight-line basis over the term of the lease

Pension costs

Contributions are made into the individual pension plans of certain employees. The contributions are charged to the profit and loss account in the year in which they become payable.

Cash flow statement

The company has taken advantage of the exemption conferred by Financial Reporting Standard 1 not to prepare a cash flow statement on the grounds that the company is a wholly owned subsidiary of HPB Travel Club Holdings Plc and is included in the group's consolidated financial statements

2 Turnover

Turnover is wholly attributable to the one principal activity of the company and arises solely within the United Kingdom

As stated previously, where the company acts as agent, turnover includes only the commission element of the travel arrangements. The gross turnover and cost of sales for the year were as follows.

	2011 £	2010 £
