DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2010

The directors present their report and the audited financial statements of the company for the year ended 31 December 2010

BUSINESS REVIEW, PRINCIPAL ACTIVITIES AND KEY PERFORMANCE INDICATORS

McCann Manchester Limited provides full service advertising and marketing services in the United Kingdom

The trading results for the year ended 31 December 2010 are shown in the attached profit and loss account and show a pre-tax profit of £2 5m (2009 £3 2m) and turnover of £76 5m (2009 £76 8m). The company has cash reserves at the year end of £9 4m (2009 £26 9m) and net assets of £33 9m (2009 £31 1m). During the year the company issued a loan to IPG Holdings (UK) Limited of £17 5m.

The company was impacted in the year by the loss of a McCann WorldGroup global client. Despite this, the company continued to perform strongly on both existing business and new client wins particularly in the digital space and was therefore able to mitigate this loss, despite the difficult economic conditions. However due to the partially fixed nature of our cost base, the operating margin has been impacted by this loss, together with the effect of increased employer pension contributions.

We have continued to work closely with our clients to ensure that we are driving their brands forward and delivering effective results through our integrated offering, also recognising increased pressures on cost. We are pleased to report further growth and development in our integrated digital offering, winning a number of new clients and projects as well as receiving industry recognition for our work in this area. This includes a Highly Commended award for changing perceptions of the digital arena and leading clients into the digital space.

In 2010, the company saw a return to national and international awards for the more conventional media of press, with Silvers at the Creative Circle, Campaign Big Awards and EPICA. The dynamic Cross Country trains commercial hit the screens in 2010, with a large part of the computer animation being created in-house Locally, McCann achieved seven awards at the Roses, perhaps the most notable examples being an extraordinary typography-inspired campaign for Leeds Counselling and some audacious recruitment activity for Aldi supermarkets. Healthcare, too, was not neglected with no less than seven certificates at the Best of Health Awards, plus a Gold Medal for Shire at the Pharmaceutical Marketing Society's gathering in London.

Equally 2010 saw a significant focus on talent management. Our bespoke 'Talent Tree' people strategy is at the core of our objective to attract, retain and develop the best possible talent. Within this we have had a number of successful initiatives run this year including our Graduate Recruitment Scheme, Learning Lunches and Post Graduate Certificate in Integrated Marketing in partnership with Manchester Metropolitan University

Our initiatives have positioned us as a pioneer within the industry and we are delighted to have received awards recognition, once again retaining the IPA Gold standard for Continuing Professional Development. Alongside this we received formal accreditation as one of Britain's Top Employers from the CRF institute recognising the investment the company gives to its Talent.

FUTURE OUTLOOK AND STRATEGY

The current year has started well with continued growth in digital business both organically and from new business relationships. We have also secured a number of exciting new projects around our Healthcare offering which will pull on all areas of our integrated offering.

The full year will remain challenging due to continuing market an economic continues, but the company is in a strong position to continue to outperform in the markets in which we operate

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2010

1 ACCOUNTING POLICIES

Basis of accounting

These financial statements have been prepared on the going concern basis, under the historical cost convention, in accordance with applicable accounting standards in the UK and the Companies Act 2006. The principal accounting policies which have been applied on a consistent basis, are set out below.

The company has taken advantage of the exemption from preparing consolidated financial statements afforded by Section 400 of the Companies Act 2006 because it is a wholly owned subsidiary of Interpublic Limited which prepares consolidated financial statements which are publicly available. The company is also, on this basis, exempt from the requirements of FRS1 (revised 1996) to prepare a cash flow statement.

The directors have taken advantage of the exemption in FRS8 from disclosing transactions with related parties that are part of the Interpublic Group of Companies Inc. There are no other related party transactions

Turnover

Turnover represents amounts receivable from clients exclusive of value added tax, in respect of billings for media advertising, production work and fees for services provided during the year. This includes the billings for 'pass through' expenses which are incurred where we act as agents on behalf of clients, and which are then deducted under the heading 'cost of sales' to arrive at revenue

Revenue

The company recognises revenue based on the contractual relationship with its clients and the proportion of work done, or when the contractual obligation is fully discharged

Operating leases

Operating lease rentals are charged to the profit and loss account in the year in which they fall

Pension scheme arrangements

The company is an adhered member of the Interpublic Pension Plan, a defined benefit scheme Pension costs are accounted for in accordance with FRS17 on the basis of contributions paid to the Interpublic Pension Plan Details of the scheme are given in the Financial Statements of Interpublic Limited and is referred to in note 15

Tangible assets and depreciation

Tangible assets are stated at cost less accumulated depreciation

Depreciation is provided at such rates as will write off the cost of tangible fixed assets over their expected useful lives. The annual depreciation rates used are

Buildings Fixtures, fittings and office equipment 2% 10 - 25%

Work in progress

Work in progress comprises external charges for services incurred on behalf of clients which have still to be recharged to clients. Work in progress is stated net of amounts billed to clients. It is stated at the lower of cost and net realisable value.

Deferred taxation

Provision is made for deferred tax liabilities and assets, using full provision accounting, otherwise known as the incremental liability method, when an event has taken place by the balance sheet date which gives rise to an increased or reduced tax liability in the future in accordance with FRS 19. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis. A deferred tax asset is recognized if the directors believe it is more likely than not that the asset will be utilized.

Further reductions in the UK corporation tax rate were announced in the June 2010 Budget. Equity Settled Restricted Stock Units

Awards to be settled in shares are granted to certain key employees and are subject to certain restrictions and vesting requirements as determined by The Interpublic Group of Companies, Inc 's Compensation Committee. The vesting period is generally three years. The fair value of the restricted stock awards is based on The Interpublic Group of Companies, Inc share price on the date the award is granted.
