NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 August 2012

1. ACCOUNTING POLICIES

The financial statements have been prepared in accordance with applicable United Kingdom accounting standards. The particular accounting policies adopted, which have been applied consistently throughout the current and prior year, are described below.

Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company is a non-trading holding company which is able to meet its liabilities as they fall due. Accordingly, the directors continue to adopt the going concern basis in preparing the financial statements.

Group accounts

The company has not prepared group accounts as it is exempt from the requirement to do so by section 398 of the Companies Act 2006 as the group qualifies as a small-sized group. Accordingly, the financial statements present information about the company, not the group.

Investments

Investments held as fixed assets are stated at cost less provision for permanent diminution in value.

Goodwill

Goodwill, all of which arose on the acquisition of businesses prior to the implementation of Financial Reporting Standard 10, was written off to the profit and loss account as a matter of accounting policy. It remains eliminated in that reserve and will be charged to the profit and loss account as appropriate on the subsequent disposal of the business to which it relates.

Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date.

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Cash flow statement

The company has taken advantage of the exemptions available to small companies in Financial Reporting Standard 1 and has therefore not prepared a cash flow statement.
