Under that law the director has elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2018

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Turnover

Turnover represents profits and losses on proprietary trading.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Computer equipment	33% per annum
Fixtures, fittings & equipment	33% per annum

1.4 Investments

Listed Investments held as current assets are stated at market value at the balance sheet date. The resulting profit or losses have been accounted for in the profit and loss account. This treatment is not in accordance with UK accounting rules and Schedule 4 of the Companies Act 1985, which requires that these investments are stated at the lower of cost and net realisable value.

The director consider that these requirements would fail to give a true and fair view of the Company's profit during the year because the marketability of the shares in question allows the economic measure of profit to be made by reference to the market value.

The effect of this departure is a decrease in profits of £225,639 (2017 decrease £93,896) and a decrease in the value of current asset investments of £225,639 (2017 decrease £93,986).

Unlisted investments are stated at the lower of cost and net realisable value.

1.5 Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to profit and loss account.
