Company information

RTS Enterprises Limited is a private company limited by shares incorporated in England and Wales. The registered office is 3 Dorset Rise, London, EC4Y 8EN.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") taking advantage of Section 1A, and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

1.2 Going concern

At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

1.3 Turnover

Turnover is recognised at the fair value of the consideration received or receivable and represents amounts receivable for award ceremonies and a conference, net of discounts, VAT and other sales related taxes.

Turnover is recognised when an awards ceremony or conference takes place. Sales invoiced in advance are deferred and recognised in the period to which they relate.

1.4 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank.

1.5 Financial instruments

The company has chosen to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Financial assets are classified into specified categories. The classification depends on the nature and purpose of the financial assets and is determined at the time of recognition.

Basic financial assets

Basic financial assets, which include trade and other debtors, intercompany balances and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost.

Trade debtors, loans and other debtors that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and debtors'. Loans and debtors are measured at amortised cost, less any impairment.

Interest is recognised by applying the agreed interest rate, which has been determined using a market rate for a similar loan.

(Continued)

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including trade and other creditors and loans from fellow group companies, are initially recognised at transaction price. Debt instruments are subsequently carried at amortised cost.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade creditors are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost.
