Deferred tax assets are recognised where their recovery is considered more likely than not in that there will be suitable taxable profits from which the reversal of underlying timing differences or unutilised tax losses can be deducted. Deferred tax is calculated on a non-discounted basis at the tax rates that are expected to apply in the periods in which timing differences or unutilised losses reserve, based on tax rates and laws enacted or substantially enacted at the balance sheet date.

1.7 Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to profit and loss account.
