**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 DECEMBER 2014**

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

For presentation purposes, various overhead expenditure categories have been included in cost of sales in the current year.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax and is recognised at the point the goods are provided to customers.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Short leasehold	- 20% on cost
Plant and machinery	- 15% on reducing balance
Fixtures and fittings	- 15% on reducing balance
Computer equipment	- 33% straight line

Stocks

Stock is valued at the lower of cost and net realisable value. Cost is determined on a first in first out basis. Net realisable value represents estimated selling price less costs to complete and sell. Provision is made for slow moving, obsolete or damaged stock where the net realisable value is less than cost.

Deferred tax

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. Deferred taxation is measured on a non-discounted basis at the rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

Invoice discounting

The company has an invoice discounting agreement that enables it to receive advances against its sales invoices. The company discloses both the debtors and creditors relating to this agreement separately within its balance sheet.
