Directors' report

The directors present their report and audited financial statements for the year ended 31 December 2012

Principal activity

Kleinwort Benson Bank Limited ("the Company"), which operates under the trading name of Kleinwort Benson, has a banking heritage dating back to 1786. It has established a sound reputation for wealth management and merchant banking services in the UK. The Company is authorised and regulated by the Financial Services Authority for banking and investment business under the Financial Services and Markets Act 2000 and is a member of the London Stock Exchange.

The principal activity of the Company is the provision of wealth management and merchant banking services.

Business strategy and objectives of the organisation

The purchase of the Company by Kleinwort Benson Group Limited ("Kleinwort Benson Group"), a wholly owned subsidiary of RHJ International S.A. ("RHJI"), was completed on 1 July 2010. RHJI is a dynamic financial services group, which is supported by a strong financial position. RHJI sees significant medium-term opportunities in the financial services market for a merchant banking strategy that is focused on a client service approach to banking.

Kleinwort Benson Group intends to exploit these growth areas through the development of its independent merchant banking model, which is based on three pillars: Wealth Management, Asset Management and Merchant Banking. Kleinwort Benson Bank Limited is the driving force in delivering these ambitions for Wealth Management and Merchant Banking with its well-known and trusted brand, acting as the cornerstone of this strategy.

Results and dividends

	2012 GBP'm	2011 GBP'm
Operating income	34.8	26.8
Administrative and restructuring expenses	(41.7)	(43.5)
Depreciation & amortisation	(1.8)	(0.8)
Impairment charges	(0.2)	(-)
Loss before tax	(8.9)	(17.5)
Items included above		
Fair value movement on the treasury book	(3.5)	4.5
Restructuring and integration costs	1.8	2.7
Investment in fixed income initiative	3.5	5.7
Loss before tax excluding items above	(7.1)	(4.6)
Assets under management (GBP'm)	2,491	2,386

Results and dividends (continued)

For the year ended 31 December 2012, the Company reported a loss of GBP 8.9 million (2011 loss GBP 17.5 million)

The results for the year include the following items

- Reversal of 2011 fair value losses on the treasury book of GBP 3.5 million,
- restructuring and integration costs of GBP 1.8 million (2011 GBP 2.7 million), and
- investment in fixed income initiative of GBP 3.5 million (2011 GBP 5.7 million)

The Company's accounting policy is to report fair value movements on the majority of its treasury book through the profit and loss account. Due to the volatility in the financial markets over the second half of 2011, where even the highest quality financial instruments experienced significant market movements, the Company recorded an accounting fair value loss of GBP 4.5m for the year. In 2012, the majority of these losses have reversed with a gain of GBP 3.5m recorded in the year.

Restructuring and integration costs of GBP 1.8 million (2011 GBP 2.7 million) incurred in the year mainly related to a restructuring charge associated with the Fixed Income business. Market conditions for this business line remain tough, with low deal volumes across the industry. To compete in this new environment, the Company has refocused our Fixed Income offering on the growth areas of advisory and origination where it sees increasing demand.

Our operations are underpinned by a robust investment framework, which aims to achieve sustainable long-term returns across a range of cautious, balanced and growth investment strategies. In recent months, the strength of our investment performance has received industry recognition, with Kleinwort Benson winning both the award for investment performance in the cautious portfolio category at the 2012 Citywire Wealth Management Awards, and the Platinum Award for Best Cautious Portfolio in the Large category at the inaugural Portfolio Adviser Wealth Manager Awards. The strength of our franchise has also received industry recognition in March of this year, with Kleinwort Benson winning an award in the Image & Reputation (HNW) category at the 2013 UK PAM Awards.

At a headline level, the Company recorded operating income of GBP 34.8 million during the year ending 31 December 2012, significantly higher than the operating income of GBP 26.8 million earned a year earlier with the increase predominantly attributable to the treasury fair value movement.

Excluding all fair value movements on the treasury book underlying operating income of GBP 31.3 million (2011 GBP 31.3 million) reflected a decrease in net interest income from GBP 4.4 million in 2011 to GBP 2.8 million in 2012. The conscious decision to maintain a conservative asset mix within our treasury portfolio, combined with the reduction in our loan portfolio and the low yield environment, put significant pressure on net interest income during the year. In comparison, net fee and commission income held up well.

Excluding restructuring expenses, administrative expenses of GBP 39.9 million reflect a 2% reduction compared to last year (2011 GBP 40.8 million), after investing in new initiatives with a primary focus on generating revenue growth over the medium term. These include banker hires, investment in a new corporate advisory team and the development of a Family Office proposition with focus on ultra-high net worth clients. During the year, the Company recruited seven senior bankers, with an additional four senior banker hires due to join us in early 2013. This recruitment drive is central to the Company's strategy of building and enhancing its strong client offering to its three principal target market segments of established wealth, entrepreneurs and, increasingly, international clients. Encouragingly, these new bankers are already gaining good traction in the market and have generated strong net flows during 2012. Similarly, the Family Office continues to make good progress in securing advisory relationships and building up a solid pipeline within its ultra-high net worth client base. The Corporate Advisory Team has also performed well in a sluggish market, with deals completed in the year including the largest private placement by a healthcare company in 2012.

The loss before tax excluding the reversal of 2011 fair value losses, results of the Fixed Income business and restructuring expenses, was GBP 7.1 million (2010 loss GBP 4.6 million).

Results and dividends (continued)

Assets under management include deposits and investing activities arising from client discretionary and advisory mandates. Total assets under control increased from GBP 2.4 billion as at 31 December 2011 to GBP 2.5 billion as at 31 December 2012.

The Company is committed to maintaining a solid capital and liquidity position and has continued to apply a prudent treasury investment policy during the ongoing period of heightened market volatility. This policy is characterised by a substantial liquidity buffer and a treasury portfolio restricted to relatively short dated liquid investment grade instruments.

The Company's capital position remains strong, with a tier 1 ratio of 27% at the end of 2012 (2011: 18%). During the year, RHJ International S.A., the ultimate parent undertaking, voluntarily injected GBP 10 million of Tier 1 capital into the Company through the Company's parent undertaking, Kleinwort Benson Group Limited, with the intention of maintaining an internal capital buffer in excess of regulatory required capital and to facilitate the investment in the new initiatives that will maintain momentum in execution of the strategy to build an independent merchant banking group. An additional GBP 10 million of Tier 1 capital was injected into the Company by Kleinwort Benson Group Limited after it received dividends from Kleinwort Benson Channel Islands Holdings Limited.

The Company has maintained a strong and liquid balance sheet with no exposure to Portuguese, Irish, Greek, Italian or Spanish sovereign debt, with the majority of assets maturing in less than one year and denominated in Sterling and US Dollars.

The directors do not recommend the payment of a final dividend (2011: GBP nil).

Risk and uncertainties

Market conditions during 2012 remained difficult. However, the directors are comfortable that the Company is a robust and stable organisation, which is particularly focused on the efficient preservation and growth of client assets.

The Board has approved a Risk Framework, including risk appetite, within which the bank is managed.

Limited lending facilities are offered to clients (mainly UK-based mortgages). When money is lent, it is on a cautious basis. The Company's investment policy is to lend only to high credit quality institutions. The lending is focussed on institutions that are considered to be banks of national importance in their home markets, having due consideration to the standing of the home market.

Outside of the clearing banks, the Company's client portfolio is diversified, with loans to any one individual institution comprising a low percentage of the total book. These placements are with leading national institutions and banks and are spread over the major western democracies and G20 countries.

Capital, market, liquidity and credit risks are monitored regularly to ensure exposure remains within limits set internally and by the regulator. Operational risks are also assessed regularly and, where appropriate, mitigating actions taken.

Measurement and performance

As a wholly owned subsidiary, Kleinwort Benson provides performance data to RHJ on a monthly basis.

Future plans, trends and developments

The Company is committed to implement legislative and regulatory changes in a timely manner and was in line with regulatory developments during 2012. Preparations are underway to enable the Company to comply with the US Foreign Account Tax Compliance Act ("FATCA"), those for the Retail Distribution Review were completed during the year to enable the Company to comply with these regulations which came into effect at the end of 2012.

Future plans, trends and developments (continued)

At a time when many major firms have seen their brand equity eroded and when much greater importance is attached to reputation and integrity, clients are increasingly looking for wealth management solutions provided by wealth management experts. Working with our shareholder, the directors intend to build upon Kleinwort Benson's tradition and values to fully realise the ambition of becoming the UK's leading independently owned private and merchant banking group.

On 15 February 2012, the Company authorised and issued 10,000,000 ordinary shares of GBP 1 each for a consideration of GBP 10,000,000, settled in cash. A further 10,000,000 ordinary shares of GBP 1 each for a consideration of GBP 10,000,000, were issued and settled in cash on 20 December 2012. These capital injections will serve to support the expansion strategy and further enhance the Company's balance sheet strength and capital ratios.

Financial instruments

The Company uses financial instruments as set out in notes 1 and 31 to the financial statements.

Directors and directors' interests

The following directors have held office during the year

Name	Relationship with the Company
L H Fischer	Leonhard Fischer was appointed non-executive Chairman of the Company on 1 July 2010. He is also Chairman of the Kleinwort Benson Group Nomination and Remuneration Committee and Chief Executive Officer of Kleinwort Benson Group Limited and RHJ International S A. Prior to this he held senior positions within the banking and financial services industry.
A J Adcock	Andrew Adcock was appointed as an independent non-executive director of the Company on 1 October 2012. He is also a director of Kleinwort Benson Group Limited and a member of the Kleinwort Benson Group Audit Committee. Andrew Adcock was formerly a Managing Partner of Brompton Asset Management, Vice Chairman of Corporate Broking, Citigroup, London and an Equity Partner of Lazard LLC, London.
Dr M D Bockenfeld	Dr Martha Bockenfeld was appointed a non-executive director of the Company on 1 July 2010. She is the Chief Financial Officer of RHJ International S A and holds the position of Managing Director of Kleinwort Benson Group Limited and has over 15 years of financial services industry experience.
D A Hanlon	Duncan Hanlon is the Chief Financial Officer of the Company and was appointed a director of the Company on 26 January 2011. He is a Certified Accountant and has wide experience at a senior level within the financial services sector. He is a member of the Company's Strategic Executive Committee.
J P Henwood MBE	John Henwood retired as an independent non-executive director and a member of the Kleinwort Benson Group Nomination and Remuneration Committee on 30 September 2012, having served on the board of the Company since 2006. He was a member of the States of Jersey Review Panel on the Machinery of Government and President of the Jersey Branch of the Chartered Institute of Marketing.
H Linz	Heinrich Linz was appointed a non-executive director of the Company on 1 July 2010. He holds the position of Managing Director with RHJ International S A and has over 25 years of banking and financial services experience. He is Chairman of the Kleinwort Benson Group Strategic Risk Committee.
K N Graf von Schweinitz	Konstantin Graf von Schweinitz was appointed an independent non-executive director of the Company on 8 July 2010. He is Chairman of the Kleinwort Benson Group Audit Committee and a member of the Kleinwort Benson Group Strategic Risk Committee. He is also an independent non-executive director of Kleinwort Benson Group Limited and RHJ International S A. Konstantin Graf von Schweinitz has over 25 years investment and commercial banking experience principally in capital markets and risk management and is currently an independent advisor to hedge funds, banks and private equity companies.

S J Tennant

Sally Tennant is the Chief Executive Officer of the Company and joined the board as an executive director on 11 April 2011. She was previously Chief Executive at Lombard Odier Danier Hentsch in the UK and of Schroders Private Banking. She is a member of the Company's Strategic Executive Committee.

None of the directors had an interest in the share capital of the Company, nor any disclosable interests in the shares or debentures of any group company. The directors are exempt from disclosing their interests in the shares or debentures of the ultimate parent company, RHJ International S A, as it is incorporated outside the UK.

None of the directors benefited from qualifying third party indemnity provisions during the year or at the date of this report.

Corporate governance

The Board of Directors comprises of two executive directors and five non-executive directors. Two of the non-executive directors are fully independent and all are considered to be independent in character and judgement. The non-executive directors participate fully with their executive colleagues in Board Meetings and have access to any information they need to perform their duties.

The roles of Chairman and Chief Executive are separated and are clearly defined. The Chairman is primarily responsible for the working of the Board and the Chief Executive for the running of the business and implementation of Board strategy and policy.

The appointment of directors is considered by the Nomination and Remuneration Committee and approved by the Board and the shareholder. Directors need not retire by rotation or stand for re-election by the shareholder.

The Board has approximately three substantive meetings each year with a further number of at least six Board meetings and teleconference calls during the year. A programme is prepared, and agreed each year, which ensures that the directors are able regularly to discharge their duties. Matters reserved for the attention of the Board include determination of the Company's strategy, reviews of budgets and financial statements, company acquisitions and disposals and major capital expenditure.

Every director is offered training upon appointment and as necessary during their appointment. All directors have access to the advice and services of the Company Secretary and may seek independent professional advice, if necessary, at the Company's expense.

The Board has appointed the following committees and each of them has formal terms of reference covering its authority and duties, which are regularly reviewed by the Board.

Strategic Executive Committee

The purpose of the Strategic Executive Committee is to consider the strategic and planning issues for the Company and make appropriate recommendations to the Board. The Strategic Executive Committee establishes reporting lines, requests reports and information and facilitates the conduct of the business and the effective monitoring and review thereof, including reviewing budgets, business plans and financial performance and the monitoring of risk.

On 31 December 2012, the members of the Strategic Executive Committee were Sally Tennant, Duncan Hanlon, Danny Vogt, the Chief Operating officer, and Guy McGlashan, Managing Director, Strategy and Development. In January 2013 they were joined by Letitia Smith, following her appointment as Chief Risk Officer.

The parent company, Kleinwort Benson Group Limited, has established the following prudential committees, whose remit includes Kleinwort Benson Bank Limited. Each of them has formal terms of reference covering its authority and duties, which are regularly reviewed.

Kleinwort Benson Group Audit Committee ("Audit Committee")

On 31 December 2012, the members of the Audit Committee were Konstantin Graf von Schweinitz (Chairman), Andrew Adcock (appointed 1 February 2012) and Anne Ewing (appointed 25 July 2012). Jonathan Hooley resigned from the Audit Committee on 18 June 2012 and Alderman Alan Yarrow on 1 February 2012.

The Audit Committee reviews the adequacy of the accounting systems and internal controls of the Company, the financial statements and the Company's accounting policies.

The Audit Committee is responsible for reviewing the external auditors' independence, the nature of non-audit services supplied and non-audit fee levels relative to the audit fee.

The Committee has at least three substantive meetings each year. On invitation, the Chairman, the Chief Executive, the Chief Financial Officer, the Chief Risk Officer, the Head of Internal Audit and the external auditors attend meetings to assist the committee to fulfil its duties.

Kleinwort Benson Group Strategic Risk Committee ("Strategic Risk Committee")

The members of the Strategic Risk Committee throughout 2012 were Heinrich Linz (Chairman), Peter Neville and Konstantin Graf von Schweinitz.

The Strategic Risk Committee assesses the business's strategies and plans from a risk perspective and, in particular, the tolerance for risk and potential risk exposure. The Committee also reviews and recommends actions in respect of oversight, management and control of risk.

The Committee has at least three substantive meetings each year.

Kleinwort Benson Group Nomination and Remuneration Committee ("Nomination and Remuneration Committee")

On 31 December 2012, the members of the Nomination and Remuneration Committee were Leonhard Fischer (Chairman) and Anne Ewing (appointed 1 October 2012). John Henwood retired on 30 September 2012.

The Nomination and Remuneration Committee sets the strategy regarding the remuneration policy for the Kleinwort Benson group companies, determines specific terms and compensation levels above an agreed threshold and reviews and recommends main Board appointments and key hiring.

The Committee has at least two substantive meetings each year.

Employees

It is the Company's policy to give full and fair consideration to employees, workers and potential employees without regard to race, colour, nationality or national origin, sex, gender reassignment, marriage, disability, age, sexual orientation, religion or belief. All Company policies, practices and procedures relating to resourcing, training, development and promotion are administered equally and in accordance with all applicable laws.

It is the Company's policy to provide equal opportunities in all aspects of employment from the sourcing and selection of candidates, recruitment and training of employees to terms and conditions of employment and reasons for termination of employment and to ensure that any employment decisions are taken without reference to irrelevant or discriminatory criteria.

Communication with employees has continued through presentations, intranet announcements and e-mails, so all employees are aware of the key priorities for the business, the financial and economic performance of their business units and of the Company as a whole.

Policy statement on payment of creditors

The Company's policy is to agree terms of payment before business is transacted, to ensure suppliers are aware of their terms and to settle accounts in accordance with them. The number of creditor days in relation to suppliers' balance outstanding at year-end was 16 (2011: 28).

Political and charitable contributions

The Company made no political contributions during the year. Staff are encouraged to participate in charitable activities and, in certain circumstances, receive matching donations. Charitable contributions were made in 2012 of GBP 9,014 (2011: GBP 4,952).

Disclosure of information to auditors

In accordance with the provisions of section 418 of the Companies Act 2006, the directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditors are unaware, and each director has taken all the steps that he ought to have taken as a director to make himself aware of any relevant audit information and to establish that the Company's auditors are aware of that information. Words and phrases used in this confirmation should be interpreted in accordance with section 418 of the Companies Act 2006.

Auditors

Pursuant to Section 487(2) of the Companies Act 2006, the auditors will be deemed to be reappointed and KPMG Audit Plc will therefore continue in office.

Statement of Directors' responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice).

Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that its financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Approved by the Board of Directors

27 March 2013

Independent auditors' report to the members of Kleinwort Benson Bank Limited

We have audited the financial statements of Kleinwort Benson Bank Limited for the year ended 31 December 2012 set out on pages 13 to 55. The financial reporting framework that has been applied in their preparation is applicable law and UK Accounting Standards (UK Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Directors' Responsibilities Statement set out on page 10, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the APB's website at www.frc.org.uk/apb/scope/private.cfm.

Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the company's affairs as at 31 December 2012 and of its loss for the year then ended,
- have been properly prepared in accordance with UK Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit

Notes to the financial statements

1 Accounting policies

(a) Basis of preparation

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements

Kleinwort Benson Bank Limited (the "Company") is a company incorporated and domiciled in the United Kingdom. The financial statements have been prepared in accordance with the special provisions of Schedule 2 of SI2008 No 410 of the Companies Act 2006 relating to banking companies, Statements of Recommended Accounting Practices ('SORP') issued by the British Bankers' Association and applicable accounting standards. The financial statements have been prepared on a basis consistent with the prior year, except where otherwise disclosed.

Taking advantage of section 400 of the Companies Act 2006, group accounts have not been prepared since the Company's ultimate parent undertaking, RHJ International S A, prepares group accounts that are publicly available (see note 32).

The financial statements have been prepared on a going concern basis. This decision was reached after the Directors considered future business plans and the ability of the company to cope with a series of stress scenarios. These considerations included regulatory capital requirements, liquidity and the outlook for future profitability. Risks and uncertainties facing the business, trends and developments in the private wealth market are considered in the Directors' Report.

(b) Changes in accounting policies

There have been no changes in accounting policies during the current year.

(c) Portfolio asset management fees, commission, investment management fees, structured product fees and real estate fees

Commissions charged to clients on securities transactions are credited to the profit and loss account and collected as they fall due.

Portfolio asset management fees in excess of commission already charged are accounted for on an accruals basis.

Investment management fees are recognised as the related services are performed.

Fees from structured products transactions are credited to the profit and loss account as they fall due.

(d) Interest

Interest income and expense are recognised in the profit and loss account using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability to the carrying amount of the financial asset or liability. The effective interest rate is established on initial recognition of the financial asset and liability and is not revised subsequently. Interest income and expense presented in the profit and loss account include interest on financial assets and liabilities at amortised cost on an effective interest rate basis.

1 Accounting policies (continued)

(e) Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated into sterling at mid-market closing rates of exchange ruling at the balance sheet date. All foreign exchange translation differences are recognised in the profit and loss account.

(f) Financial instruments

Recognition

The Company uses settlement date accounting, in accordance with FRS 26 'Financial Instruments Measurement' regarding regular way purchase and sale of financial assets for customers. FRS 26 38 allows the Company to use either trade date accounting or settlement date accounting.

The company initially recognises loans and advances, and deposits on the date that they are originated. Derivative financial instruments are recognised at the trade date. All other financial assets and liabilities (including assets and liabilities designated at fair value through profit and loss) are initially recognised on the settlement date at which the company receives the cash flows of the instrument.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

The company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

Offsetting

Financial assets and liabilities are set off and the net amount presented in the balance sheet when, and only when, the company has a legal right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the accounting standards.

Fair value measurement

The determination of fair values of financial assets and financial liabilities is based on quoted market prices or dealer price quotations for financial instruments traded in active markets. For all other financial instruments fair value is determined by using valuation techniques. Valuation techniques include net present value techniques, the discounted cash flow method, comparison to similar instruments for which market observable prices exist, and valuation models. The company uses widely recognised valuation models to determine the fair value of common financial instruments like options and interest rate and currency swaps. For these financial instruments, inputs into models are market observable.

Fair value changes on other derivatives held for risk management purposes, and other financial assets and liabilities carried at fair value through profit and loss, are presented in net gains/losses from financial instruments carried at fair value in the profit and loss account.

1 Accounting policies (continued)

(f) Financial instruments (continued)

Identification and measurement of impairment

At each balance sheet date the company assesses whether there is objective evidence that financial assets not carried at fair value through profit and loss are impaired. Financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset, and that the loss event has an impact on the future cash flows on the asset that can be estimated reliably.

The Company considers the evidence of impairment at both a specific asset and collective level. All individually significant financial assets are assessed for specific impairment. All significant assets found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are then collectively assessed for impairment by grouping together financial assets with similar risk characteristics.

For the year ended 31 December 2012, individual provisions against bad and doubtful debts are made on the basis of regular reviews of exposures. Provisions are charged directly to the profit and loss account. Debts are written off when it is considered that there is no realistic prospect of recovery. Interest income that is considered doubtful is excluded from the profit and loss account and credited to the balance sheet. When there is no realistic prospect of recovery the balance is written off.

Designation at fair value through profit and loss

The company has designated financial assets at fair value through profit and loss when either

- the assets are managed, evaluated and reported internally on a fair value basis,
- the designation eliminates or significantly reduces an accounting mismatch which would otherwise arise, or
- the asset contains an embedded derivative that significantly modifies the cash flows that would otherwise be required under the contract.

Note 9 sets out the amount of each class of financial asset or liability that has been designated at fair value through profit and loss. A description of the basis for each designation is set out in the note for the relevant asset or liability class.

Available-for-sale

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale and that are not classified as financial assets held at fair value through profit or loss, held-to-maturity financial assets or loans and receivables.

Subsequent to initial recognition, available-for-sale financial assets are measured at fair value, with any resultant gain or loss being recognised directly in equity (in the fair value reserve), except in the case of investments where no market value can be reliably obtained and of monetary items such as debt securities, for impairment losses and foreign exchange gains and losses.

When an investment is derecognised, the cumulative gain or loss previously recognised directly in equity is recognised in profit and loss. Where these investments are interest bearing, interest calculated using the effective interest method is recognised in profit and loss.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company positively intends, and is able, to hold to maturity. Held-to-maturity investments are initially recorded at fair value plus any directly attributable transaction costs, and are subsequently measured at amortised cost using the effective interest rate method, less any impairment losses.

1 Accounting policies (continued)

(g) Derivatives

The Company uses derivative financial instruments to hedge both exposures to fluctuations in interest and foreign exchange rates and to enter into strategic interest rate risk investment positions. Derivative instruments utilised by the Company are forward rate agreements, forward foreign exchange contracts, interest rate swaps and options. Derivatives may be embedded in another contractual arrangement (a "host contract"). The Company accounts for embedded derivatives separately from the host contract when the host contract is itself not carried at fair value through profit and loss, and the characteristics of the embedded derivative are not clearly and closely related to the host contract.

(h) Cash and cash equivalents

The Company holds money either as Banker or as client money in accordance with the Client Money Rules of the Financial Services Authority. Client monies are not shown on the Company's balance sheet as the Company is not beneficially entitled thereto.

(i) Loans and advances

Loans and advances are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the Company does not intend to sell immediately or in the near term.

Loans and advances are initially measured at fair value plus incremental direct transaction costs, and subsequently measured at their amortised cost using the effective interest method, except when the Company chooses to carry the loans and advances at fair value through profit and loss as described in accounting policy (f).

(j) Taxation

The charge for taxation is based on the result for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Current tax is the expected tax payable or receivable on the taxable profit or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of prior years.

Full provision for deferred tax is made for timing differences between the recognition of gains and losses in the financial statements and their recognition in tax computations, using appropriate tax rates. The Company does not discount these balances.

Deferred tax assets are only recognised to the extent that it is more likely than not that they will be recovered. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(k) Interests in associated undertakings and subsidiary undertakings

Interests in associated undertakings and shares in subsidiary undertakings are stated at cost less provision for impairment in value.

(l) Investments in debt and equity securities

Debt securities and equity shares are initially measured at fair value plus incremental direct transaction costs and, unless they are classified on recognition as held to maturity, subsequently accounted for as fair value through profit and loss. Equity shares are included in the balance sheet at market value, or if shares are not readily transferable, at directors' valuation.

1 Accounting policies (continued)

(m) Tangible fixed assets and depreciation

Tangible fixed assets are shown at cost less accumulated depreciation. Depreciation is provided at rates calculated to write off the cost of each asset on a straight-line basis over its expected useful life.

Property improvements - life of lease

Fixtures and fittings - 2 to 5 years

Computer hardware - 3 years

Fixed assets are periodically reviewed for impairment. Where the carrying amount is greater than its estimated recoverable amount, the asset is written down to its recoverable amount. Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Assets under construction are not depreciated until they are brought into economic use.

(n) Intangible assets and amortisation

Expenditure on internally developed software is recognised as an asset when the Company is able to demonstrate its intention and ability to complete the development and use the software in a manner that will generate future economic benefits, and can reliably measure the costs to complete the development.

The capitalised costs of internally developed software include all costs directly attributable to developing the software, and are amortised over its useful economic life. Internally developed software is stated at capitalised cost less accumulated amortisation and impairment.

Amortisation is recognised in the profit and loss account on a straight-line basis over the estimated useful life of the software, from the date that it is available for use. The estimated useful life of software is 3 years. Amortisation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.

(o) Leased assets

All leases are classified as operating leases and the annual rentals are charged to the profit and loss account on a straight-line basis over the term of the lease.

(p) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A provision for restructuring is recognised when the company has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced publicly. Future operating costs are not provided for.

1 Accounting policies (continued)

(q) Significant estimates and judgements

In determining and applying accounting policies, judgement is often required where the choice of specific policy, assumption or accounting estimate to be followed could materially affect the reported results or net position of the Company, should it later be determined that a different choice be more appropriate

(r) Cash flow statement

The Company has taken advantage of the exemption in Financial Reporting Standard No 1 (revised) not to prepare a cash flow statement, as the ultimate parent undertaking, RHJ International S A , prepares consolidated accounts which are publicly available

(s) Post retirement benefits

Until 1 July 2010, in accordance with FRS 17 'Retirement Benefits', the Company applied the multi-employer exemption as the Company was unable to identify its share of the underlying assets and liabilities of the defined benefit section of the Dresdner Kleinwort Pension Plan (formerly the Dresdner Kleinwort Wasserstein Pension Plan) and the Post Retirement Healthcare Plan (PRHC). Therefore the Company accounted for the schemes as if they were defined contribution schemes. As a result of the acquisition of the Company by RHJ International S A from Commerzbank AG on 1 July 2010, the Company ceased to be a member of the Dresdner Kleinwort Pension Plan, including the defined benefit section, as those current employees that had been members were transferred into a new defined contribution scheme. The Company also ceased to be a member of the PRHC. Commerzbank AG has retained all liabilities in relation to these schemes.

(t) Share-based payments

RHJ International S A , the ultimate parent company, extended a share-based payments scheme during the year for selected employees of the Company.

Expense is recognised in accordance with the provisions of FRS 20 (Share-based payments). The grant-date fair value of share-based payment awards granted to employees is recognised as an employee expense, with a corresponding credit to reserves, over the period that the employees unconditionally become entitled to the awards. The vesting period is the period during which all the specified vesting conditions are to be satisfied.

(u) Functional and presentation currency

These financial statements are presented in GBP, which is the Company's functional currency. Except as indicated, financial information presented in GBP has been rounded to the nearest thousand.

(v) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used.

1 Accounting policies (continued)

(v) Impairment of non-financial assets (continued)

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or CGU)

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit and loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

2 Segmental information

The Company's business in the current and prior year related to the provision of private banking services (including wealth management, fiduciary, advisory and banking services) for high net worth individuals, which the directors consider to constitute one business segment.

3 Net interest income

	2012 GBP '000	2011 GBP '000

Utilisation of losses brought forward	-	-
Depreciation in excess of capital allowances	438	(1,499)
Other short term timing differences	596	(32)
Current tax charge for year	-	-

9 Financial instruments classification summary

Financial assets and liabilities are classified based on four recognition principles at fair value through profit and loss, held to maturity, available-for-sale and loans and receivables. The Company's classification of its principal financial assets and liabilities at 31 December 2012 is summarised below.

Financial assets	Financial assets at fair value through profit and loss GBP '000	Held to maturity GBP '000	Loans and receivables GBP '000	Available-for-sale GBP '000	Total GBP '000
Cash and balances held with the Bank of England	-	-	163,639	-	163,639
Loans and advances to banks	-	-	16,586	-	16,586
Loans and advances to customers	-	-	20,856	-	20,856
Debt and other fixed income securities	141,436	34,940	-	-	176,376
Derivative financial instruments	847	-	-	-	847
Unlisted investments	-	-	-	1,000	1,000
Investments in group undertakings	-	-	332	-	332
Accrued income	-	-	1,760	-	1,760
Other financial assets	-	-	25,547	-	25,547
Total financial assets at 31 December 2012	142,283	34,940	228,720	1,000	406,943

Financial liabilities	Financial liabilities at fair value through profit and loss GBP '000	Held to maturity GBP '000	Loans and receivables GBP '000	Available-for-sale GBP '000	Total GBP '000
Deposits by banks	-	-	25,890	-	25,890
Customer accounts	-	-	317,425	-	317,425
Derivative financial instruments	2,289	-	-	-	2,289
Other financial liabilities	-	-	13,874	-	13,874
Total financial liabilities at 31 December 2012	2,289	-	357,189	-	359,478

9 Financial instruments classification summary (continued)

The Company's classification of its principal financial assets and liabilities at 31 December 2011 is summarised below

Financial assets	Financial assets at fair value through profit and loss GBP '000	Loans and receivables GBP '000	Available- for-sale GBP '000	Total GBP '000
Cash and balances held with the Bank of England	-	152,082	-	152,082
Loans and advances to banks	-	42,500	-	42,500
Loans and advances to customers	-	25,760	-	25,760
Debt and other fixed income securities	213,696	-	-	213,696
Derivative financial instruments	580	-	-	580
Unlisted investments	-	-	5,522	5,522
Investments in group undertakings	-	646	-	646
Accrued income	-	1,400	-	1,400
Other financial assets	-	930	-	930
Total financial assets at 31 December 2011	214,276	223,318	5,522	443,116

Financial liabilities	Financial assets at fair value through profit and loss GBP '000	Loans and receivables GBP '000	Available- for-sale GBP '000	Total GBP '000
Deposits by banks	-	99,524	-	99,524
Customer accounts	-	311,299	-	311,299
Derivative financial instruments	1,791	-	-	1,791
Other financial liabilities	-	708	-	708
Total financial liabilities at 31 December 2011	1,791	411,531	-	413,322

9 Financial instruments classification summary (continued)

The table below analyses financial instruments carried at fair value as at 31 December 2012, by valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

GBP '000	Level 1	Level 2	Total
Financial assets designated at fair value through profit and loss	141,436	-	141,436
Derivative financial assets	-	847	847
	141,436	847	142,283
Derivative financial liabilities	-	(2,289)	(2,289)
As at 31 December 2012	141,436	(1,442)	139,994

Assets and liabilities have been classified as Level 2 except for quoted bonds which are classified as Level 1. There have been no transfers between Level 1 and Level 2 in 2012. In addition to the unlisted investments above, other unlisted investments were acquired during 2011 and are held at cost of GBP 1,000,000 (2011 GBP 1,250,000) after write downs during the year of GBP 250,000.

10 Loans and advances to banks

	2012 GBP '000	2011 GBP '000
Remaining maturity:		
Three months or less	16,586	42,225
Five years or less but over one year	-	275
	16,586	42,500

Included in the above are amounts totalling GBP 16,586,281 (2011 GBP 11,480,936) that are repayable on demand. Included in the above is GBP nil (2011 GBP 262,527) owed by fellow group undertakings. There are no subordinated amounts included in the above. GBP nil of these assets were pledged as collateral at the year-end (2011 GBP 2,828,811).

11 Loans and advances to customers

	2012 GBP '000	2011 GBP '000
Remaining maturity:		
Three months or less	2,085	10,551
One year or less but over three months	936	1,699
Five years or less but over one year	6,850	3,959
Over five years	10,985	9,551
	20,856	25,760

Included in the above are amounts totalling GBP 1,990,087 (2011 GBP 5,635,672) that are repayable on demand or at short notice

There were no loans on which interest has been suspended in the current or prior year

Included in the above is GBP nil (2011 GBP nil) owed by a fellow group undertaking

There are no subordinated amounts included in the above

12 Allowance for impairment losses on financial assets

	Specific provision 2012 GBP '000	Specific provision 2011 GBP '000
At 1 January	225	220

Bonds – Fair value	141,436	141,436	213,696	213,696
Bonds – Held to maturity	34,940	35,236	-	-
	176,376	176,672	213,696	213,696

13 Debt and other fixed income securities (continued)

The Company elects to treat certain certificates of deposit and bonds as financial assets held at fair value through profit and loss in accordance with FRS 26 'Financial Instruments Measurement' at the time of purchase. Otherwise they are treated as held-to-maturity and accounted for using amortised cost.

Certificates of deposit and bonds have upon initial recognition been designated at fair value through profit and loss when the Company holds related derivatives at fair value through profit and loss, and designation therefore eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Market values are determined by reference to quoted market prices or, where no market price is available, using internal models that discount expected future cash flows at prevailing interest rates.

Bonds which are traded in active markets at the balance sheet date are valued based on their quoted market price or dealer price quotations (bid price).

	2012 GBP '000	2011 GBP '000
Remaining maturity		
Three months or less	84,918	7,999
One year or less but over three months	21,711	18,000
Five years or less but over one year	69,747	187,697
	176,376	213,696

GBP Nil (2011 GBP 74,325,000) of these assets were pledged as collateral. Collateral was furnished to borrow funds as part of securities repurchase agreements (repos).

Included in the above is an amount receivable from the immediate parent undertaking totalling GBP nil (2011 GBP nil).

There are no subordinated amounts included in the above.

	Bonds held to maturity GBP '000	Bonds at fair value through profit and loss GBP '000	Total GBP '000

At 31 December 2012	34,940	141,436	176,376

14 Unlisted investments

During 2009 and 2010, the Company issued loans to provide liquidity for certain clients who invested in AIG investments. The Company's security was an assignment over the AIG investments, so that any repayments made in relation to these investments would be repaid directly to the Company. These financial assets which were non-recourse in the event of AIG default were categorised as available-for-sale and were repaid during 2012.

During 2011, the Company acquired an investment in Babco Camelina Limited. The Company also acquired a 25% interest in St George St Capital (KB) LP, a limited partnership. These investments do not have a quoted market price in an active market. The directors consider that the carrying value approximates to the fair value for St George St Capital (KB) LP. The investment in Babco Camelina Limited has been written down to nil (2011 GBP 250,000).

Available-for-sale	2012 GBP '000	2011 GBP '000

All the companies are incorporated in Great Britain and registered in England & Wales, except for Kleinwort Benson (Asia) PTE Limited which is registered and incorporated in Singapore. All the companies are 100% owned except as noted below. The holdings are in ordinary shares unless stated otherwise. None of the subsidiary companies is a bank. All the investments are unlisted.

The Company owns 75% of the Class "A" ordinary shares of Kleinwort Benson Farmland Trust (Managers) Limited and 100% of the Class "B" ordinary shares. Class "B" ordinary shares do not carry voting rights and are not entitled to participate in any profits that may be resolved to be distributed.

17 Tangible fixed assets

	Property improvements GBP '000	Computer hardware GBP '000	Furniture and fittings GBP '000	Total GBP '000
Balance brought forward at 1 January 2012	7,507	1,612	915	10,034
Additions	67	226	15	308
Disposals	(105)	-	(56)	(161)
Depreciation	(797)	(709)	(251)	(1,758)
Carrying value at 31 December 2012	6,672	1,129	623	8,423

18 Intangible fixed assets

	2012 GBP '000	2011 GBP '000
Balance brought forward at 1 January	13	23
Additions	1,764	-
Depreciation	(29)	(10)
Carrying value at 31 December	1,748	13

Additions relate to the purchase of computer software, computer software licences and the development of the software. Computer software costs are amortised on the basis of expected useful life (three years). Costs associated with maintaining software are recognised as an expense as incurred.

At each balance sheet date, these assets are assessed for indicators of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount. Impairment losses are recognised in the profit and loss account.

No impairment loss was recognised in the current year.

19 Other assets

	2012 GBP '000	2011 GBP '000
Fee debtors	470	1,101
Amounts owed by group undertakings	14,200	8,884
Other assets	10,877	8,521
	25,547	18,506

The fee debtors represent balances due within one year and more than one year

Included in other assets is GBP 6,041,650 (2011 GBP 7,072,080) due from the Company's former parent undertaking, Commerzbank AG, in respect of indemnities given to cover a proportion of the maximum expected costs incurred in settling claims against the Company from business arising in prior periods, as discussed in note 24

20 Deferred taxation

Losses carried forward of GBP 64,286,205 (2011 GBP 59,643,149 as restated) and other grossed-up short-term timing differences of GBP 21,012,388 (2011 GBP 15,694,016) have not been recognised as deferred tax assets as it is not expected that future profits will be available to utilise these assets in the short term

21 Deposits by banks

	2012 GBP '000	2011 GBP '000
Remaining maturity		
Repayable on demand	1,350	9,822
Three months or less	24,540	89,702
	25,890	99,524

Included in the above are amounts owed to fellow group undertakings amounting to GBP 24,540,493 (2011 GBP 45,989,197) none of which are subordinated loans owed to fellow group undertakings (2011 GBP nil) Of the above balance GBP nil (2011 GBP 69,180,919) relates to repurchase agreements (repos)

The table below shows the GBP equivalent of the currencies that the balances were held in

GBP '000	GBP	EUR	USD	Other	Total
Deposits by banks	25,002	25	863	-	25,890

22 Customer accounts

Included below are amounts owed to fellow group undertakings totalling GBP 733,611 (2011 GBP 20,960,743)

Remaining maturity	2012 GBP '000	2011 GBP '000
Repayable on demand	177,182	222,604
Three months or less	96,902	70,405
One year or less but over three months	33,579	14,290
Five years or less but over one year	7,448	4,000
Greater than five years	2,314	-
	317,425	311,299

23 Other liabilities

	2012 GBP '000	2011 GBP '000
Taxation payable	25	288
Other liabilities	-	513
	25	801

24 Provisions for liabilities

	Restructuring provisions GBP '000	Litigation provisions GBP '000	Other provisions GBP '000	Total provisions GBP '000
At 1 January 2012	1,520	3,225	3,298	8,043
Charged to the profit and loss account	2,140	1,106	893	4,139
Released to the profit and loss account	(48)	(231)	-	(279)
Utilised during the year	(2,171)	(38)	(808)	(3,017)
At 31 December 2012	1,441	4,062	3,383	8,886

The restructuring provisions of GBP 1,440,959 (2011 GBP 1,520,000) relate mainly to redundancy costs

Litigation provisions include amounts provided for the cost of legal proceedings arising from business undertaken in prior periods. More than 75% of these costs have been indemnified by the previous parent undertaking, Commerzbank AG, as discussed in note 19

Other provisions include a provision for capital markets losses of GBP 644,130 (2011 GBP 588,756) and costs relating to client remediation arising from business undertaken in prior periods of GBP 2,262,154 (2011 GBP 2,500,000). Whilst uncertainty exists over both the timing and the amount of these costs, a review into this matter was completed during 2011. All these costs have been indemnified by the previous parent undertaking, Commerzbank AG, to approximately 90% of the expected maximum value of any such claims, as discussed in note 19

25 Called up share capital

	2012 GBP '000	2011 GBP '000
Authorised, allotted and fully paid 99,783,333 (2011 79,783,333) ordinary shares of GBP 1 each	99,783	79,783

During the year the Company authorised 20,000,000 ordinary shares of GBP 1 each. The Company issued 20,000,000 ordinary shares of GBP 1 each for a consideration of GBP 20,000,000, settled in cash.

26 Reconciliation of movements in shareholders' funds and statement of movements on reserves

	Called up share capital GBP '000	Share premium account GBP '000	Profit and loss account GBP '000	Available- for-sale revaluation reserve GBP '000	Share based payment reserve GBP '000	Total 2012 GBP '000	Total 2011 GBP '000

27 Memorandum items, commitments and contingent liabilities

The following analysis shows the commitments and contingent liabilities at the balance sheet date

	2012	2011
	Contract amount GBP '000	Contract amount GBP '000
Contingent liabilities:		
Guarantees and letters of credit	1,016	1,151
	<u>1,016</u>	<u>1,151</u>
Commitments:		
Undrawn formal standby facilities, credit lines and other commitments to lend		
Less than one year	757	1,460
One year and over	3,660	-
	<u>4,417</u>	<u>1,460</u>
Annual commitments under non-cancellable operating leases over buildings are as follows by expiry date		
Within one year	-	39
Between one and five years	-	-
After five years	2,942	2,942
	<u>2,942</u>	<u>2,981</u>
Total Commitments	<u>2,942</u>	<u>4,441</u>

Other contingent liabilities

In the ordinary course of business, the Company has given letters of indemnity in respect of lost certified stock transfers and share certificates. The contingent liability arising there from cannot be quantified, but it is not believed that any material liability will arise under these indemnities. In addition there were commitments arising in the normal course of business for forward foreign exchange contracts.

There are a small number of cases where the bank has a commercial dispute with clients or former clients. The uncertainty surrounding the outcomes, and any associated costs, is such that no provision has been made in the accounts.

Commitments

The Company has a leasehold agreement for its London premises with a remaining period of 8 years. The ultimate parent undertaking, RHJ International S A, has fully indemnified the Company for the additional costs arising from the move to the premises.

28 Directors' loans and other transactions

At 31 December 2012, the aggregate amount of guarantees made to external parties on behalf of directors of the Company was GBP nil in respect of no directors (2011 GBP nil in respect of no directors)

Directors are entitled to deal in securities in accordance with the Company's rules for personal dealings in securities. The Company can carry out discretionary asset management for staff.

29 Share-based payments

The Company's ultimate parent undertaking, RHJ International S A, operates a number of long term incentive plans. Restricted stock units (RSUs) in RHJ International S A were granted to selected employees of the Group as part of a long term employee retention and incentive scheme.

	2012 Number of RSUs
Non vested awards brought forward at 1 January	542,962
Non vested shares granted during the year	652,813
Vested	(234,563)
Forfeited	(29,189)
Non vested awards carried forward at 31 December	932,023

The above awards relate to the RHJI RSU Incentive Compensation Plan ("the Plan")

The purpose of the Plan is to promote the interests of RHJI and its Affiliates by (a) attracting and retaining exceptional employees, consultants and independent contractors (including prospective employees, consultants and independent contractors) of RHJI and its Affiliates and (b) providing such individuals with incentives to continue and increase their efforts with respect to RHJI and its Affiliates.

Any employee, consultant or independent contractor (including any prospective employee, consultant or independent contractor) of RHJI or any of its Affiliates is eligible to be designated a Participant.

Awards are made under the Plan in the form of RSUs.

The awards typically vest over a three year period. In addition to the scheduled vesting, the RHJI Board decided to accelerate the vesting of 75,514 RSUs granted, with an increased charge to the profit and loss account of GBP 209,611.

The fair value of each RSU is the average market price of RHJI shares in the 10 day period either side of the grant date. The weighted average grant date fair value of RSUs during 2012 was GBP 4.37 (2011 GBP 4.73).

The expense in the profit and loss account in respect of share-based payments was GBP 1,562,707 in 2012 (2011 GBP 784,000).

30 Related party disclosures

At 31 December 2012, the Company was a wholly owned subsidiary of Kleinwort Benson Group Limited. The ultimate parent undertaking of the Company was RHJ International S.A. and the consolidated financial statements of RHJ International S.A. are publicly available (see note 32). Accordingly, advantage is taken in these financial statements of the exemptions available in Financial Reporting Standard No. 8 on 'Related Party Disclosures' for the disclosure of transactions with entities that are part of the group or investees of group entities qualifying as related parties.

Balances with Group undertakings are disclosed in notes 10, 11, 13, 19, 21, and 22.

31 Review of the company's risk profile

Risk management and control

The traditional banking activities undertaken by the Company result in exposure to a number of risks that are mainly credit, liquidity, market (interest rate and foreign currency) and operational risk. Management of the risks arising from each activity is the responsibility of the business with independent monitoring and control of these risks at an operational level being the responsibility of the Company's Risk function.

The Company's overall appetite for risk is clearly documented in a Board approved Risk Framework document which is updated periodically and at least annually. Day to day monitoring and reporting of risk is carried out by the Company's Risk functions with formal escalation procedures in place to ensure breaches of limits set are communicated, as appropriate, to the Kleinwort Benson Group Strategic Risk Committee and senior management on a timely basis.

Credit risk

Credit risk is encapsulated by the financial loss arising from the failure of a customer or counterparty to settle financial obligations to the Company as they fall due. The Company's Credit Committee is responsible for approval of lending and other business activity that involves taking credit risk including Treasury-related credit decisions.

31 Review of the company's risk profile (continued)

Credit risk by financial asset class

The following is a breakdown of the credit risk borne by each class of financial asset at 31 December 2012

	Impaired GBP '000	Past due but not impaired GBP '000	Neither past due nor impaired GBP '000	Total credit risk GBP '000	Total carrying value GBP '000
Cash and balances held with the Bank of England	-	-	163,639	163,639	163,639
Loans and advances to banks	-	-	16,586	16,586	16,586
Loans and advances to customers	-	-	20,856	20,856	20,856
Debt and other fixed income securities	-	-	176,376	176,376	176,376
Derivative financial instruments	-	-	847	847	847
Unlisted investments	-	-	1,000	1,000	1,000
Investments in group undertakings	-	-	332	332	332
Accrued income	-	-	1,760	1,760	1,760
Other financial assets	-	-	25,547	25,547	25,547
	-	-	406,943	406,943	406,943
Other non-financial assets	-	-	12,350	12,350	12,350
Total assets	-	-	419,293	419,293	419,293

31 Review of the company's risk profile (continued)

The following is a breakdown of the credit risk borne by each class of financial asset at 31 December 2011

	Impaired GBP '000	Past due but not impaired GBP '000	Neither past due nor impaired GBP '000	Total credit risk GBP '000	Total carrying value GBP '000
Cash and balances held with the Bank of England	-	-	152,082	152,082	152,082
Loans and advances to banks	-	-	42,500	42,500	42,500
Loans and advances to customers	-	-	25,760	25,760	25,760
Debt and other fixed income securities	-	-	213,696	213,696	213,696
Derivative financial instruments	-	-	580	580	580
Unlisted investments	225	-	5,522	5,747	5,522
Investments in group undertakings	-	-	646	646	646
Accrued income	-	-	1,400	1,400	1,400
Other financial assets	-	-	930	930	930
	225	-	443,116	443,341	443,116
Other non-financial assets	-	-	31,071	31,071	31,071
Total assets	225	-	474,187	474,412	474,187

Credit risk in the above tables is defined as follows

i) Impaired financial instruments

Impaired financial instruments are financial instruments for which the Company determines that it is probable that it will be unable to collect all principal and interest due according to the contractual terms of the financial instrument agreement(s)

ii) Past due but not impaired financial instruments

Financial instruments where contractual interest or principal payments are past due but the Company believes that impairment is not appropriate on the basis of the level of security/capital available and/or the stage of collection of amounts owed to the Company

The Risk Framework document requires that all certificates of deposit, bonds and loans to banks acquired or advanced had a minimum external rating (source Moody's) no less than A1 grade. Exceptions to the policy are approved by the Board, upon the recommendation of the Group Strategic Risk Committee

31 Review of the company's risk profile (continued)

The following is a breakdown of the credit quality of loans and advances to customers at 31 December

	2012 GBP '000	2011 GBP '000
Low risk (internal grades A-C1)	20,856	25,760
Fair risk (internal grade C2 or below)	-	-
Impaired loans (internal grade D)	-	-
Amounts owed by fellow group undertakings	-	-
	20,856	25,760

Collateral

The Company holds collateral against loans and advances to customers in the form of mortgage interests over property, other registered securities over assets, and guarantees. Where the collateral is in the form of registered securities over assets, the fair value is based on quoted market prices or dealer price quotations for securities traded in active markets. Regarding property, estimates of fair value are based on the value of collateral assessed at the time of borrowing, and generally are not updated except when a loan is individually assessed as impaired. Collateral is not generally held over loans and advances to banks, except when securities are held as part of reverse repurchase and securities borrowing activity.

At the year end property collateral accepted against mortgages was GBP 20,325,000 (2011 total collateral, GBP 20,959,000)

Write-off Policy

The Company writes off a loan balance (and any related allowances for impairment losses) when the Credit Committee determines that the loan is uncollectible. This determination is reached after considering information such as the occurrence of significant changes to the borrower's financial position such that the borrower can no longer pay the obligation, or that the proceeds from collateral will not be sufficient to pay back the entire exposure. Write-offs are approved by the Strategic Executive Committee following recommendations from the Credit Committee.

Credit-related commitments

The Company has certain credit-related commitments in the form of pre-approved but unused borrowing limits on mortgages and loans as detailed in note 27. The Company is potentially exposed to a loss totalling these amounts, although the risk is mitigated by security held on the vast majority of the commitments granted and the credit standards on which the credit approvals were granted (e.g. debt service coverage and loan-to-value criteria).

31 Review of the company's risk profile (continued)

Geographical concentration of assets

The following table identifies the geographical concentrations of credit risk held by the Company at 31 December 2012

GBP '000	United Kingdom	Rest of Europe	North America	Other	Total
Cash and balances held at the Bank of England	163,639	-	-	-	163,639
Loans and advances to banks	5,747	6,788	467	3,584	16,586
Loans and advances to customers	15,364	2,077	1,200	2,215	20,856
Debt and other fixed income securities	97,157	45,764	33,455	-	176,376

	311,151	54,764	35,229	5,799	406,943
Non-financial assets	12,350	-	-	-	12,350
Total assets	323,501	54,764	35,229	5,799	419,293

31 Review of the company's risk profile (continued)

The following table identifies the geographical concentrations of credit risk held by the Company at 31 December 2011

GBP '000	United Kingdom	Rest of Europe	North America	Other	Total
Cash and balances held at the Bank of England	152,082	-	-	-	152,082
Loans and advances to banks	11,882	26,792	1,523	2,303	42,500
Loans and advances to customers	21,026	2,517	-	2,217	25,760
Debt and other fixed income securities	113,105	85,096	7,892	7,603	213,696
Derivative financial instruments	539	41	-	-	580
Unlisted investments	5,747	-	-	-	5,747
Investments in group undertakings	422	-	-	224	646
Accrued income	1,400	-	-	-	1,400
Other financial assets	930	-	-	-	930
	307,133	114,446	9,415	12,347	443,341
Non-financial assets	31,071	-	-	-	31,071
Total assets	338,204	114,446	9,415	12,347	474,412

Settlement risk

The Company's activities may give rise to risk at the time of settlement of transactions and trades

Settlement risk arises due to the failure of a counterparty to honour its obligations to deliver cash, securities or other assets as contractually agreed and the potential for loss in attempting to complete the trade

Liquidity risk

Liquidity risk is defined as the risk of loss as a result of the Company being unable to ensure at all times the ability to meet short-term current or future payment obligations due to changes in expected cash-flows or conditions. In addition, it is the risk that in the case of a liquidity crisis at the Company, refinancing is only possible at higher interest rates or that assets may have to be liquidated at a discount. The Company's approach to managing liquidity is based on gaining assurance that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking reputational damage.

31 Review of the company's risk profile (continued)

The table below summarises the Company's residual contractual maturities of financial liabilities

GBP '000 2012	Carrying amount	Gross nominal inflow / (outflow)	Within 1 month	After 1 month but within 3 months	After 3 months but within 1 year	After 1 year but within 5 years	After 5 years
Deposits by banks	25,890	(25,891)	(25,891)	-	-	-	-
Customer accounts	317,425	(318,711)	(246,356)	(27,787)	(34,018)	(8,236)	(2,314)
Derivative financial liabilities	2,289	(2,289)	(246)	(264)	(124)	(1,655)	-
Other financial liabilities	13,874	(13,874)	(13,874)	-	-	-	-
	359,478	(360,765)	(286,367)	(28,051)	(34,142)	(9,891)	(2,314)

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts

GBP '000 2011	Carrying amount	Gross nominal inflow / (outflow)	Within 1 month	After 1 month but within 3 months	After 3 months but within 1 year	After 1 year but within 5 years	After 5 years
Deposits by banks	99,524	(99,614)	(99,614)	-	-	-	-
Customer accounts	311,299	(312,150)	(280,348)	(12,893)	(14,563)	(4,346)	-
Derivative financial liabilities	1,791	(1,791)	-	-	(124)	(1,667)	-
Other financial liabilities	708	(708)	(708)	-	-	-	-
	413,322	(414,263)	(380,670)	(12,893)	(14,687)	(6,013)	-

The above tables show the undiscounted cash flows on the Company's financial liabilities on the basis of their earliest possible contractual maturity. The Company's expected cash flows on these instruments vary significantly from this analysis. For example, demand deposits from customers are expected to maintain a stable balance.

31 Review of the company's risk profile (continued)

Market risk

Market risk arises due to adverse changes in market prices, such as interest rates, equity prices, foreign exchange rates and credit spreads (relating to changes in the obligor's/issuer's credit standing) will affect the Company's income or the value of its holdings in financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

The Company only assumes market risk as a result of its balance sheet, cash management and strategic interest rate positioning activities. The primary risks within the Company's activities are interest rate and currency risk and changes in fair value in bonds and derivatives.

Interest rate risk

Interest rate risk arises in the balance sheet as a result of fixed and variable rate assets and liabilities. Exposure to interest rate movements arises when a mismatch is created between interest rate sensitive assets and liabilities. The interest rate mismatches are monitored daily.

The following table sets out the interest rate mismatches on the Company's assets and liabilities as at the balance sheet date. The maturity analysis shown in the following table has been prepared using the period to which the interest remains fixed. The maturity analysis within the liquidity risk note above has been prepared using the ultimate maturity of the underlying asset or liability and as such may not agree to the following analysis.

31 Review of the company's risk profile (continued)

The table below summarises the Company's exposure to interest rate risks at 31 December

Year ended 31 December 2012

GBP '000	Less than 3 months	Between 3 months and 1 year	Between 1 and 5 years	More than 5 years	Non interest bearing	Total

Foreign currency risk

When granting loans, booking deposits or taking positions in certificates of deposit denominated in a foreign currency (non-GBP), the Company incurs foreign exchange risk if those positions are not closed by either investing or refinancing those positions in the respective currency, or by contracting cross currency swaps or foreign exchange forward contracts. The open foreign exchange position (defined as the present value of the future cash flows discounted with the foreign interest rates) is taken into account for foreign exchange risk controlling.

The Company's open currency positions are monitored daily against pre-set limits. The currency exposure of the Company as at 31 December 2012 and comparative period are stated in sterling equivalent as follows

	2012			
	USD	Euro	Other currencies	Total
	GBP '000	GBP '000	GBP '000	GBP '000
Assets	47,746	58,678	6,670	113,094
Liabilities	(41,517)	(7,096)	(4,826)	(53,439)
Notional amounts underlying open foreign exchange contracts	(4,779)	(50,320)	1,062	(54,037)

31 Review of the company's risk profile (continued)

Operational risk

The Company faces operational risk arising from deficiencies in internal controls, human errors, physical systems failures, and other business execution risks as well as external events. Operational risk is inherent to the Company's activities and includes risk of loss resulting from IT system failure, fraud, negligence and process deficiencies. A low appetite for operational risk is essential for preserving the Company's reputation and competitiveness. The development and the maintenance of a robust infrastructure and the retention of experienced personnel are critical in managing the operational risk in a highly regulated banking environment.

Operational Risk policies and procedures have been developed under the supervision of the Company's Boards to prevent operational risks occurring, or restrict their adverse impact where full prevention would be uneconomical. The effectiveness of these policies and procedures is validated through the Risk and Compliance Committee and the Operational Risk Framework. The Risk and Compliance Committee seeks to ensure that there is comprehensive coverage of all risks arising from the business model and functional capabilities of the firm with the degree of oversight proportionate to the perceived risk in the underlying processes.

Processes to reduce or avoid unwanted operational risk losses include regular assessment by Internal Audit to ensure process weaknesses are identified and reported and that remedial action plans are devised and implemented.

Fair values of financial assets and liabilities

The following table summarises the carrying amounts and fair values of those financial assets and liabilities not presented on the Company's balance sheet at their fair value.

	2012 Carrying value GBP '000	2012 Fair value GBP '000	2011 Carrying value GBP '000	2011 Fair value GBP '000
Financial assets				
Loans and advances to banks	16,586	16,585	42,500	42,493
Loans and advances to customers	20,856	20,890	25,760	25,533

	357,189	358,171	411,531	410,744

31 Review of the company's risk profile (continued)

Fair values of financial assets and liabilities (continued)

a) Loans and advances to/from banks

Loans and advances to/from banks includes inter-bank placements and items in the course of collection. The fair value of floating rate placements and overnight deposits is estimated as their carrying amount. The estimated fair value of fixed interest bearing deposits is based on discounted cash flows using prevailing money-market interest rates for debts with similar credit risk and remaining maturity.

b) Loans and advances to/from customers

Loans and advances to/from customers are net of provisions for impairment. The estimated fair value of loans and advances represents the discounted amount of estimated future cash flows expected to be received. Expected cash flows are discounted at current market rates to determine fair value.

c) Other financial assets, prepayments, accrued income and other financial liabilities

The fair value of other assets, prepayments, accrued income and other financial liabilities has been estimated to the carrying value due to the short maturities on the amounts held.

d) Financial instruments measured at fair value in the financial statements

As disclosed in the level 2 analysis in note 9, financial instruments with a net carrying value of GBP (1,441,798) were measured at fair value through equity using a valuation technique that is supported by indirectly observable market rates (2011 GBP 3,060,232).

Capital management

The Company's lead regulator (the Financial Services Authority (FSA)) sets and monitors capital requirements for the Company. In implementing current capital requirements, the FSA requires the Company to maintain a prescribed ratio of total capital to total risk-weighted assets. The Company uses its internal gradings as the basis for risk weightings for credit risk.

The Company's regulatory capital is analysed as tier 1 capital, which includes ordinary share capital, share premium and retained earnings.

The impact of the level of capital on shareholders' return is also recognised and the Company recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position, especially in the light of the current market conditions.

The Company's capital adequacy and capital resources are managed and monitored in accordance with the regulatory capital requirements of the FSA. The Company must at all times monitor and demonstrate the compliance with the relevant regulatory capital requirements of the FSA. The Company has put in place processes and controls, including a range of detailed stress testing scenarios, to monitor and manage the Company's capital adequacy.

31 Review of the company's risk profile (continued)

Capital management (continued)

The Company's regulatory capital position at 31 December was as follows

	2012 GBP '000	2011 GBP '000
Regulatory capital		
Ordinary share capital	99,783	79,783
Share premium	167	167
Retained earnings	(51,775)	(42,829)
Share-based payment reserve	2,729	784
Tier 1 capital	50,904	37,905
Total regulatory deductions from capital	(2,748)	(3,178)
Tier 1 capital after deductions	48,156	34,727
Tier 2 capital - revaluation reserve	-	891
Total regulatory capital	48,156	35,618

The Company has not reported any breaches regarding its minimum regulatory capital requirement during the year

32 Ultimate parent undertaking and controlling party

The immediate parent of the Company is Kleinwort Benson Group Limited, a company incorporated in the United Kingdom

The Company's ultimate parent undertaking and controlling party is RHJ International S A (Euronext RHJI), a company incorporated in Belgium under Belgium Law. It is also the smallest and largest group in which the publically available results of the Company are consolidated. The financial statements of RHJ International S A are available to the public and may be obtained from RHJ International S A, Investor Relations, Avenue Louise 326, 1050 Brussels, Belgium

33 Subsequent events

There have been no subsequent events which would materially affect the financial statements of the Company
