Notes to the Abbreviated Accounts

For the year ending 31 January 2012

Accounting policies

Accounting convention

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnovei

Turnover represents net invoiced sales of goods, excluding value added tax.

Stocks

Stock is valued at the lower of cost and net realisable value. In the case of long term contracts, turnover is recognised as each stage of the contract is completed. Attributable profit is included as that part of the total profit currently estimated to arise over the duration of the contract which can be assessed with reasonable certainty.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their useful estimated lives or the lease term, whichever is shorter. The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability. Rentals paid under operating leases are charged to the profit and loss account as incurred.

Taxation

Provision is made for taxation only to the extent that is considered to fall due for payment in the foreseeable future. No provision is made for the amount of tax on chargeable gains, which would become payable under current legislation, if any of the investment properties were disposed of at the amount at which they are included in the accounts.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Fixtures and fittings 20% on reducing balance Fixtures and fittings 15% on reducing balance

Fixtures and fittings 12.5% on cost

Motor vehicles 25% on reducing balance
