1 Accounting policies

Accounting convention

The financial statements have been prepared under the historical cost convention

Depreciation

Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset evenly over its expected useful life, as follows

Leasehold land and buildings	over the lease term
Plant and machinery	over 5 years

Stocks

Stock is valued at the lower of cost and net realisable value

Deferred taxation

Deferred taxation is provided on the liability method on all timing differences which are expected in the foreseeable future, calculated at the rate at which it is estimated that the tax will be payable

Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.

Leasing and hire purchase commitments

Assets held under finance leases and hire purchase contracts, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and depreciated over their useful lives.

The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.
