1 ACCOUNTING POLICIES

1a Accounting Conventions

The financial statements are prepared under the historical cost convention and under the Financial Reporting Standard for Smaller Entities (effective January 2005)

1b Depreciation

Depreciation is calculated to write off the cost over the useful lives of the assets concerned on the reducing basis of 25% for office fixtures, fittings and equipment

1c <u>Turnover</u>

Turnover represents the value, excluding value added tax, of services supplied during the year

1d <u>Deferred Taxation</u>

Provision is made for deferred tax using the liability method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes except to the extent that the director considers that a liability to taxation is unlikely to crystallise

1e Contribution to Pension Funds

The company operated a defined benefit pension scheme, which requires contributions to be made to a separately administered fund Contributions to this fund are charged in the profit and loss account so as to spread the cost of pensions over the employees working lives within the company. The regular cost is attributed to individual years using the projected unit credit method. Variations in pension cost, which are identified as a result of actuarial valuation, are amortised over the average expected remaining working lives of employees in proportion to their expected payroll costs. Differences between the amounts funded and the amounts charged in the profit and loss account are treated as either provisions or prepayments in the balance sheet.

2 TURNOVER

The turnover and profit before taxation is attributable to the one principal activity of the company in the United Kingdom
