NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the provisions applicable to companies subject to the small companies regime

Turnover

The company's turnover represents the value of rents and ground rents receivable during the year

Tangible fixed assets

Freehold investment properties are valued by the directors on an existing use open market value basis. Surpluses arising on disposals are taken to the profit and loss account as exceptional items.

Deferred taxation

Provision is made, under the liability method, to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is considered that a net liability may arise.

Investment income

Investment income is accounted for on receipt

Expenditure

Expenditure is stated inclusive of value added tax and apportioned to the cost categories involved

Valuations, on the basis of open market value, were carried out by the directors as at 30 September 1999 and 31 May 2000. The differences on valuation have been taken to the revaluation reserve. The directors consider that the carrying values of the properties at 30 June 2009 broadly represent the open market values at that date.

No provision has been made for taxation that would be payable, should the properties be sold at their valuation, as it is not the present intention of the directors to make any significant sales of these properties. If the properties were sold at the stated valued amounts, the taxable gain would amount to appoximately £230,000 on which corporation tax of £58,000 would be payable based on current rates.
