Report of the directors

The directors present their report and the financial statements of the company for the year ended 31 December 2011

Since 2008 the company accounts have been filed at Companies House as a dormant company. In 2011 the company received two capital contributions of £1,500,000 each from its immediate parent undertakings, Lucas Industries Limited and Joseph Lucas Limited. The contributions enable the company to issue a Pension Protection Fund guarantee in favour of TRW Pension Trust Limited (a fellow subsidiary undertaking and the trustee company of the TRW Pension Scheme), which will support the pension liabilities of TRW Limited (a fellow subsidiary undertaking and the sponsoring company of the TRW Pension Scheme).

Results and dividends

The profit for the year amounted to £14,098 (2010 - £nil). No dividends were paid or declared in the year (2010 - £nil).

The indemnity is subject to the provisions of the Companies Act and is set out in the Articles of Association.

Report of the directors (continued)

Going concern

The financial statements have been prepared on a going concern basis which assumes the company will continue in operational existence for the foreseeable future

As of 31 December 2011, TRW Investment Management Company Limited had net current assets of £3,014,100 consisting of cash at bank and an intercompany receivable balance with its immediate parent undertaking Lucas Industries Limited, and net assets of the same value

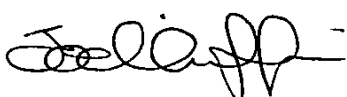

The company can participate in the centralised Treasury arrangements of the TRW Automotive group and therefore, shares banking arrangements with its parent and fellow subsidiaries. The directors have no reason to believe that a material uncertainty exists that may cast significant doubt about the ability of TRW Automotive to continue as a going concern, or its ability to continue with current banking arrangements

Each of the directors who were members of the board at the time of approving this directors' report confirm that

- to the best of their knowledge and belief, there is no relevant audit information to the preparation of their report of which the company's auditor is unaware, and
- the directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information

Statement of directors' responsibilities in respect of the directors' report and the financial statements

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice)

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period

In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

1 Accounting policies

Accounting convention

The financial statements have been prepared under the historical cost convention, and in accordance with applicable UK accounting standards

Going concern

The financial statements have been prepared on a going concern basis which assumes the company will continue in operational existence for the foreseeable future

As of 31 December 2011, TRW Investment Management Company Limited had net current assets of £3,014,100 consisting of cash at bank and an intercompany receivable balance with its immediate parent undertaking Lucas Industries Limited, and net assets of the same value

Cash flow statement

Under Financial Reporting Standard 1 (revised 1996) the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking TRW Automotive Holdings Corp, includes the company in its own published consolidated financial statements

Related parties transactions

As the company is a wholly owned subsidiary of TRW Automotive Holdings Corp, it has taken advantage of the exemption contained in Financial Reporting Standard 8 and has therefore not disclosed transactions or balances with other subsidiary undertakings that form part of the TRW Automotive Holdings Corp group, or associated undertakings of the TRW Automotive Holdings Corp group

1 Accounting policies (continued)

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions

- provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold,
- provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable,
- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date
