### NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 JANUARY 2016

---

#### 1. ACCOUNTING POLICIES

##### 1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

##### 1.2 Going concern

At the year end the company had a shareholders' deficit. The company has made profits in the year, although it has been able to meet its obligations as and when they fell due.

The nature of the company's business is such that there can be considerable unpredictable variation in the timing of cash inflows. The director has prepared projected cash flow information for the period ending 6 months from the date of their approval of these financial statements. On the basis of this cash flow information and discussions with the company's bankers, the director considers that the company will continue to operate within the facility currently agreed and within that is available to 1 July 2016, when the company's bankers are due to consider renewing the facility for a further year.

However, the margin over facilities is not large and, inherently there can be no certainty in relation to these matters. On this basis, the director considers it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from a withdrawal of the overdraft facility by the company's bankers.

##### 1.3 Turnover

Turnover comprises revenue recognised by the company in respect of goods and services supplied during the year, exclusive of Value Added Tax and trade discounts.

##### 1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant & machinery	-	10% straight line
Fixtures & fittings	-	10-20% straight line
