Harris Ventures Limited

Directors' report for the year ended 31 December 2019

The directors present their report together with the financial statements for the year ended 31 December 2019.

Results and dividends

The statement of income and retained earnings is set out on page 7 and shows the loss for the year (2018 - loss). No dividends were paid in the year (2018 - £Nil), nor is one recommended by the directors (2018 – none).

Principal activities, review of business and future developments

The company's principal activity is the provision of consultancy and management services and of investment.

The performance and position of the company is in line with the directors' expectations and no significant changes are expected in the short term.

Charitable and political donations

During the year the company did not make any charitable or political donations (2018 - £Nil).

Financial instruments

The use of financial instruments, including financial risk management objectives and policies, exposure to interest rate risk and liquidity risk, are disclosed in note 15 to the financial statements.

Key performance indicators

As an investment company, the key indicators of performance are the movement in value of investments in property assets and shares.

Directors

The directors of the company during the year were:

Lord Harris of Peckham
Lady Harris DBE DL
Mr P Jacobs
The Hon. Mr M J Harris
The Hon. Mr P A Harris

The company has made qualifying third party indemnity provisions for the benefit of its directors which were made during the year and exist at the date of this report.

In preparing this directors' report advantage has been taken of the small companies' exemption.

By order of the Board

P Jacobs
Secretary

14 December 2020

Harris Ventures Limited

Directors' responsibilities statement for the year ended 31 December 2019

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Harris Ventures Limited

For the year ending 31 December 2019, the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of the accounts.

These financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

The financial statements were approved by the Board of Directors and authorised for issue on 14 December 2020.

P Jacobs
Director

The notes on pages 6 to 21 form part of these financial statements.

Harris Ventures Limited

Notes forming part of the financial statements for the year ended 31 December 2019

1 Accounting policies

Harris Ventures Limited is a private company limited by shares, incorporated in England & Wales under the Companies Act. The address of the registered office is given on the contents page and the nature of the Company's operations and its principal activities are set out in the directors' report.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires Management to exercise judgement in applying the Company's accounting policies which have been detailed in note 2.

The following principal accounting policies have been applied:

Basis of preparation

At 31 December 2019 the Company had net liabilities in excess of £19.6m (2018 - net liabilities in excess of £19.2m). The financial statements have been prepared on a going concern basis as the shareholders have confirmed that they will not withdraw the existing financial support to the Company for at least a year from the date of approval of these financial statements. Loans from the shareholders (some of who are directors) account for £18.6m of the total liabilities of the company of £20.7m.

Consolidation

In the opinion of the directors, the Company and its subsidiary undertakings comprise a small group. The company has therefore taken advantage of the exemption provided by Section 398 of the Companies Act 2006 not to prepare group accounts.

Turnover

Turnover represents management and consultancy fees, rental income receivable, service charges and other recoveries from investment properties in the United Kingdom.

Turnover for management and consultancy services represents sales to outside customers at invoiced amounts less value added tax or local taxes on sales.

Lessor incentives

Incentive payments to new tenants to occupy the Company's investment properties are treated as revenue expenditure and initially recorded as prepayments. The payments are charged to the income statement over the life of the lease.

Depreciation

Depreciation is provided to write off the cost, less estimated residual values, of all tangible fixed assets, except for investment properties, freehold land and certain buildings, evenly over their expected useful lives. It is calculated at the following rates.

Leasehold improvements	- 20% per annum straight line
Office equipment	- 15% per annum on a reducing balance basis

Harris Ventures Limited

Notes forming part of the financial statements for the year ended 31 December 2019 (continued)

1 Accounting policies (continued)

Investment properties

In accordance with Section 16 of FRS 102, investment properties are revalued annually to open market value and no depreciation is provided. The directors consider that this accounting policy results in the financial statements giving a true and fair view. The effect of this departure from the Companies Act 2006 has not been quantified because it is impracticable and, in the opinion of the directors, would be misleading.

The aggregate surplus or deficit arising on revaluation is recognised in the income statement.

Valuation of investments

Investments in unlisted company shares, which have been classified as fixed asset investments as the Company intends to hold them on a continuing basis, are remeasured to market value at each balance sheet date. Gains and losses on remeasurement are recognised in the income statement. Investments held as current assets are stated at the lower of cost and net realisable value.

Current and deferred taxation

The tax expense for the period comprises current and deferred tax. Tax is recognised in the income statement, except that a charge attributable to an item of income or expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company's subsidiaries operate and generate taxable income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date except that the recognition of deferred tax assets is limited to the extent that the company anticipates to make sufficient taxable profits in the future to absorb the reversal of the underlying timing differences. Deferred tax balances are not discounted.

Pension costs

Contributions to the Company's defined contribution pension scheme are charged to the income statement in the year in which they become payable.

Joint arrangements and Joint ventures

The company has entered into commercial arrangements with other investors resulting in property interests being held indirectly through jointly controlled legal entities. These legal entities do not carry on trades of their own, rather are just a means by which the investors hold an interest in property assets. In accordance with Section 15 of FRS 102, and in order to reflect their true economic substance, the company accounts directly for its own share of the assets, liabilities and cash flows of these joint arrangements.

An entity is treated as a joint venture where the Company holds a long-term interest and shares control under a contractual arrangement.

Finance costs

Finance costs are charged to profit over the term of the debt so that the amount charged is at a constant rate on the carrying amount. Finance costs include issue costs, which are initially recognised as a reduction in the proceeds of the associated capital instrument.

Harris Ventures Limited

Notes forming part of the financial statements for the year ended 31 December 2019 (*continued*)

1 Accounting policies (*continued*)

Foreign currency translations

(a) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in the Sterling, which is the company's functional and presentation currency.

(b) Transactions and balances

Assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. Exchange differences are taken into account in arriving at operating loss.

2 Judgements in applying accounting policies and key sources of estimation uncertainty

In preparing these financial statements, the directors have made the following judgements:

- Determine whether leases entered into by the Company either as a lessor or a lessee are operating or lease or finance leases. These decisions depend on an assessment of whether the risks and rewards of ownership have been transferred from the lessor to the lessee on a lease by lease basis.
- Determine whether there are indicators of impairment of the Company's tangible and fixed asset investments. Factors taken into consideration in reaching such a decision include the economic viability and expected future financial performance of the asset and where it is a component of a larger cash generating unit, the viability and expected future performance of that unit.

Other key sources of estimation uncertainty

- *Tangible fixed assets (see note 9)*

Tangible fixed assets, other than investment properties, are depreciated over their useful lives taking into account residual values, where appropriate. The actual lives of the assets and residual values are assessed annually and may vary depending on a number of factors. In re-assessing asset lives, factors such as technological innovation, product life cycles and maintenance programmes are taken into account. Residual value assessments consider issues such as future market conditions, the remaining life of the asset and projected disposal values.

Investment properties are professionally valued annually using a yield methodology. This uses market rental values capitalised at a market capitalisation rate but there is an inevitable degree of judgement involved in that each property is unique and value can only ultimately be reliably tested in the market itself.

- *Fixed asset investments (see note 10)*

Unquoted investments are valued using a price/earnings multiple methodology. The relevant price/earnings multiple is determined by reference to those applying to quoted companies in similar industries after adjustment for the reduced liquidity of unquoted companies. This multiple is then applied to the earnings of the investee company in the period, after adjustments for one-off unusual income or expenditure in the period.

Harris Ventures Limited

Notes forming part of the financial statements for the year ended 31 December 2019 (continued)

3 Turnover

Turnover is wholly attributable to the principal activity of the Company and arises solely within the United Kingdom.

4 Operating loss

	2019 £	2018 £
This is arrived at after charging/(crediting):		
Depreciation of tangible fixed assets	7,317	7,718
Auditor's remuneration:		
- Audit services	16,975	16,545
- Taxation services	9,752	10,012
Foreign exchange loss/(gain)	652	(718)
Operating lease expense	60,000	60,000

The average number of employees during the year was 5 (2018 - 5).

5 Exceptional items

	2019 £	2018 £
Impairment of associated undertakings balances	(238,878)	(291,817)

Following an impairment review in prior years, associated undertakings balances were written down to their recoverable amount resulting in an exceptional impairment expense. In the current year there is a further impairment on these balances.

6 Directors' remuneration

	2019 £	2018 £
Directors' remuneration consists of:		
Directors' emoluments	69,240	72,795
Company contributions to money purchase pension schemes	19,164	18,979
	88,404	91,774

There was one director in the Company's defined contribution pension scheme (2018 - one).

The total amount payable to the highest paid director in respect of emoluments was £69,240 (2018 - £72,795).
The total amount payable to non-executive directors in respect of fees was £Nil (2018 - £Nil).

Harris Ventures Limited

Notes forming part of the financial statements for the year ended 31 December 2019 (continued)

7 Interest payable and similar charges

	2019 £	2018 £
Bank loans and overdrafts	36,188	63,203
	<u>36,188</u>	<u>63,203</u>

8 Taxation on profit on ordinary activities

	2019 £	2018 £
<i>UK corporation tax</i>		
Movement in period	-	-
	<u>-</u>	<u>-</u>
Total current tax	-	-
<i>Deferred tax</i>		
Movement in period in relation to prior periods	-	-
	<u>-</u>	<u>-</u>
Total deferred tax	-	-
	<u>-</u>	<u>-</u>
Taxation on profit on ordinary activities	<u>-</u>	<u>-</u>

The tax assessed for the period differs from the standard rate of corporation tax in the UK. The differences are explained below:

	2019 £	2018 £
Loss on ordinary activities before tax	<u>(376,675)</u>	<u>(524,573)</u>
Loss on ordinary activities at the standard rate of corporation tax in the UK of 19% (2018 - 19%)	(71,568)	(99,669)
Effects of:		
Expenses not deductible for tax purposes	40,108	55,645
Deferred tax not recognised	(159)	(424)
Group relief surrendered	31,638	44,497
Effects of changes in tax rates	(19)	(49)
	<u>-</u>	<u>-</u>
Current tax credit for the year	<u>-</u>	<u>-</u>

Factors that may affect future tax charges

The Company has a deferred tax asset of £4,720,035 (2018 - £4,720,194) which has not been recognised in these financial statements due to uncertainty over utilisation of this benefit.

The Bank loan is repayable in full by 3 May 2020 and secured by a debenture over the assets of the Company. The loan is subject to interest at a rate of LIBOR + 2.5%.

Harris Ventures Limited

Notes forming part of the financial statements for the year ended 31 December 2019 (continued)

14 Financial Instruments

The Company's policy is not to trade in financial instruments and this has been in place throughout the year under review. The main risks arising from the Company's financial instruments are interest rate and liquidity risk. The board reviews and agrees policies for managing each of these risks and they are summarised below.

Interest rate risk

The Company finances its operations through a mixture of bank and other borrowings. The Company borrows in the desired currencies at fixed rates to manage the company's exposure to interest rate fluctuations.

Liquidity risk

The Company's bank debt was due for repayment on 31 December 2019 and subsequent to the year end terms have been agreed to put in place a new repayment profile.

The company's financial instruments may be analysed as follows:

	2019 £	2018 £
Financial assets		
Financial assets measured at fair value through profit or loss	133,260	133,260
Financial assets that are debt instruments measured at amortised cost	117,560	131,567
	<hr/>	<hr/>
Financial liabilities		
Financial liabilities measured at amortised cost	19,914,911	20,720,655
	<hr/>	<hr/>

Financial assets measured at fair value through profit or loss comprise current asset investments.

Financial assets measured at amortised cost comprise cash, trade debtors and other debtors.

Financial liabilities measured at amortised cost comprise bank loans, trade creditors, amounts owed to associated undertakings, other creditors and accruals.
