NOTES TO THE ABBREVIATED ACCOUNTS YEAR ENDED 30 SEPTEMBER 2004

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention.

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.3 Goodwill

Acquired goodwill is written off in equal annual instalments over its estimated useful economic life of 20 years.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Plant and machinery 10% on written down value Office equipment 20% on written down value Motor vehicles 25% on written down value

1.5 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

Contributions in respect of the company's defined contribution pension scheme are charged to the profit and loss account for the year in which they are payable.

1.6 Deferred taxation

Deferred taxation is provided at appropriate rates on all timing differences using the liability method only to the extent that, in the opinion of the directors, there is a reasonable probability that a liability or asset will crystallise in the foreseeable future.
