ANNUAL REPORT AND ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2012

FRIDAY

LD4 08/03/2013 COMPANIES HOUSE #15

REPORT OF THE DIRECTORS

The Directors submit their Report together with the audited financial statements for the year ended 30 June 2012

This directors' report has been prepared in accordance with the special provisions relating to small companies under Sections 415 (A) (1) & (2) of the Companies Act 2006

PRINCIPAL ACTIVITY AND REVIEW OF THE YEAR

The principal activity of A & L CF June (3) Limited (the "Company") is that of lessors and financiers of assets for the corporate sector

The Directors do not expect any significant change in the level of business in the foreseeable future

RESULTS AND DIVIDENDS

The profit for the year on ordinary activities after taxation amounted to £1,532,631 (2011 £1,558,976). The Directors do not recommend the payment of a final dividend (2011 Nil).

DIRECTORS

The Directors who served throughout the year and to the date of this report (except as noted) were as follows

M W Evans

G A Faulkner

(resigned 26 October 2012)

C R Morley

A T Rougier A N Mussert

(resigned 18 July 2011)

(appointed 4 December 2012)

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the report and the financial statements in accordance with applicable laws and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law, the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, International Accounting Standard 1 requires that directors

- properly select and apply accounting policies,
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information,
- provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable
 users to understand the impact of particular transactions, other events and conditions on the entity's financial
 position and financial performance, and
- make an assessment of the Company's ability to continue as a going concern

The directors are responsible for keeping adequate accounting records which are sufficient to show and explain the Company's transactions and which disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

REPORT OF THE DIRECTORS (continued)

STATEMENT OF GOING CONCERN

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in this Report. The financial position of the Company, its cash flows, liquidity position and borrowing facilities are set out in the financial statements. In addition, note 4 to the financial statements includes the Company's objectives, policies and processes for managing its financial risk management objectives and its exposures to credit risk, market risk, liquidity risk and other risks. As disclosed in note 10 to the financial statements the Company's capital is managed by Santander UK Group

The Company is part of the Santander UK group. The Directors have taken account of the fact that the Board of Santander UK plc has confirmed that Santander UK plc is a going concern. The Company is part of the Santander UK Group. The Company has net current liabilities and is reliant on other Group companies for its funding. The Board of Santander UK plc has confirmed that it is a going concern and that it will provide funding to the Company for the foreseeable future.

On the basis of their assessment of both the Company's financial position and of the confirmations by the directors of Santander UK plc outlined above, the Company's directors have a reasonable expectation that the Company will be able to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis of accounting in preparing this Report and financial statements.

THIRD PARTY INDEMNITIES

Enhanced indemnities are provided to the directors of the Company by Santander UK plc against liabilities and associated costs which they could incur in the course of their duties to the Company. All of the indemnities remain in force as at the date of this Report and these financial statements. A copy of each of the indemnities is kept at the registered office address of Santander UK plc.

AUDITORS

Each of the Directors as at the date of approval of this Report confirms that

- so far as the Director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the Director has taken all the steps that he/she ought to have taken as a Director to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information

This confirmation is given and should be interpreted in accordance with the provisions of Section 418 of the Companies Act 2006

In accordance with sections 485 and 487 of the Companies Act 2006, Deloitte LLP is deemed to have been reappointed as auditor of the Company

By Order of the Board

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF A & L CF JUNE (3) LIMITED

We have audited the financial statements of A & L CF June (3) Limited for the year ended 30 June 2012 which comprise the Income Statement, the Statement of Comprehensive Income, the Statement of Changes in Equity, the Balance Sheet the Cash Flow Statement and the related notes 1 to 16 The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006 Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS

As explained more fully in the Statement of Directors' Responsibilities the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the financial statements in accordance with applicable law and International Standards on Auditing (United Kingdom and Ireland) Those standards require us to comply with the Auditing Practices Board's (APB s) Etnical Standards for Auditors

SCOPE OF THE AUDIT OF THE FINANCIAL STATEMENTS

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report

OPINION ON FINANCIAL STATEMENTS

In our opinion the financial statements

- give a true and fair view of the state of the Company's affairs as at 30 June 2012 and of its profit for the year then
- have been properly prepared in accordance with IFRSs as adopted by the European Union, and
- have been prepared in accordance with the requirements of the Companies Act 2006

OPINION ON OTHER MATTER PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion the information given in the Report of the Directors for the financial year for which the financial statements are prepared is consistent with the financial statements

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit, and
- the directors were not entitled to take advantage of the small companies exemption in preparing the Directors' report

Matthew Perkins

(Senior Statutory Auditor) for and on behalf of Deloitte LLP Chartered Accountants and Statutory Auditors

NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES

Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") adopted by the European Union that are effective or available for early adoption at the Company's reporting date. The Company, in addition to complying with its legal obligation to comply with IFRSs adopted by the European Union, has also complied with the IFRSs as issued by the International Accounting Standards Board The financial statements have been prepared under the historical cost basis, and on the going concern basis as disclosed in the Director's statement of going concern set out in the Report of the Directors on page 2.

The functional and presentation currency of the Company is Sterling

Recent accounting developments

In 2012, the Company adopted the following significant new or revised standards or amendments to standards

a) IAS 24 'Related Party Disclosures'

In November 2009, the IASB issued amendments to IAS 24 which clarifies the definition of a related party, introduced a partial exemption from some disclosure requirements for government—related entities and included an explicit requirement to disclose commitments involving related parties IAS 24 (2009) was adopted with effect from 1 July 2011 Retrospective application is required. The adoption of IAS 24 (2009) did not affect the Company's disclosures

b) There are a number of other changes to IFRS that were effective from 1 July2012 Those changes did not have a significant impact on the Company's financial statements

Future accounting developments

The Company has not yet adopted the following significant new or revised standards and interpretations, and amendments thereto, which have been issued but which are not yet effective for the Company

a) IAS 1 'Presentation of Financial Statements'

In June 2011, the IASB issued amendments to IAS 1 that retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to IAS 1 require additional disclosures to be made in the other comprehensive income section such that items of other comprehensive income are grouped into two categories. (i) items that will not be reclassified subsequently to profit or loss, and (ii) items that will be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis. The amendments to IAS 1 are effective for annual periods beginning on or after 1 July 2012.

The Company anticipates that IAS 1 (2011) will be adopted in the Company's financial statements for the annual period beginning on 1 July 2013 and that the application of the new Standard will modify the presentation of items of other comprehensive income accordingly. Retrospective application is required. The Company does not anticipate that these amendments to IAS 1 will have a significant impact on the Company's disclosures.

NOTES TO THE FINANCIAL STATEMENTS

- 1. ACCOUNTING POLICIES (continued)
 Future accounting developments (continued)
- b) IFRS 10 'Consolidated Financial Statements', IFRS 11 'Joint Arrangements', IFRS 12 'Disclosure of Interests in Other Entities', IAS 27 'Separate Financial Statements' and IAS 28 'Investments in Associates and Joint Ventures'

In May 2011, the IASB issued new and amended guidance on consolidated financial statements and joint arrangements. IFRS 10, IFRS 11 and IFRS 12 were new standards issued while IAS 27 and IAS 28 were amended. Each of the standards issued is effective for annual periods beginning on or after 1 January 2013 with earlier application permitted as long as each of the other standards is also early applied.

- Under IFRS 10 'Consolidated Financial Statements', control is the single basis for consolidation, irrespective of the nature of the investee, this standard therefore eliminates the risks-and-rewards approach IFRS 10 identifies the three elements of control as power over the investee, exposure, or rights, to variable returns from involvement with the investee and the ability to use power over the investee to affect the amount of the investor's returns. An investor must possess all three elements to conclude that it controls an investee. The assessment of control is based on all facts and circumstances, and the conclusion is reassessed if there are changes to at least one of the three elements. Retrospective application is required subject to certain transitional provisions.
- IFRS 11 applies to all entities that are parties to a joint arrangement. A joint arrangement is an arrangement of which two or more parties have joint control. IFRS 11 establishes two types of joint arrangements, joint operations and joint ventures, which are distinguished by the rights and obligations of the parties to the arrangement. In a joint operation, the parties to the joint arrangement (referred to as 'joint operators') have rights to the assets and obligations for the liabilities of the arrangement. By contrast, in a joint venture, the parties to the arrangement (referred to as 'joint venturers') have rights to the net assets of the arrangement. IFRS 11 requires that a joint operator recognise its share of the assets, liabilities, revenues, and expenses in accordance with applicable IFRSs, however, a joint venturer would account for its interest by using the equity method of accounting under IAS 28 (2011). Transitional provisions vary depending on how an interest is accounted for under IAS 31 and what its nature is under IFRS 11.
- IFRS 12 integrates the disclosure requirements on interests in other entities, currently included in several standards to make it easier to understand and apply the disclosure requirements for subsidiaries, joint arrangements, associates and unconsolidated structured entities. The standard also contains additional requirements on a number of topics. Under IFRS 12, an entity should disclose information about significant judgments and assumptions (and any changes to those assumptions) made in determining whether it has control, joint control, or significant influence over another entity and the type of joint arrangement. IFRS 12 also requires additional disclosures to make it easier to understand and evaluate the nature, extent, and financial effects of the Company's transactions with its subsidiaries, joint arrangements, associates and unconsolidated structured entities as well as any changes in and risks associated with these entities or arrangements. Disclosures shall be aggregated or disaggregated so that useful information is not obscured by either the inclusion of a large amount of insignificant detail or the aggregation of items that have different characteristics. The standard applies prospectively from the beginning of the annual period in which it is adopted.

The Company anticipates that IFRS 10, IFRS 11 and IFRS 12 will be adopted in the Company's financial statements for the annual period beginning on 1 July 2013 and that the application of the new standards may have a significant impact on the Company's disclosures and on amounts reported in respect of the Company's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

- IAS 27 was amended for the issuance of IFRS 10 but retains the current guidance on separate financial statements
- IAS 28 was amended for conforming changes on the basis of the issuance of IFRS 10 and IFRS 11

The Company anticipates that IAS 27 (2011) and IAS 28 (2011) will be adopted in the Company's financial statements for the annual period beginning on 1 July 2013. The Company does not anticipate that these amendments to IAS 27 and IAS 28 will have a significant impact on the Company's disclosures and on amounts reported in respect of the Company's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES (continued) Future accounting developments (continued)

c) IFRS 13 'Fair Value Measurement'

In May 2011, the IASB issued IFRS 13, which establishes a single source of guidance for fair value measurement IFRS 13 defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements IFRS 13 applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in IFRS 13 are more extensive than those required in the current accounting standards. IFRS 13 is effective for annual periods beginning on or after 1 January 2013, with early adoption permitted, and applies prospectively from the beginning of the annual period in which it is adopted.

The Company anticipates that IFRS 13 will be adopted in the Company's financial statements for the annual period beginning on 1 July 2013 and that the application of the new Standard may affect the amounts reported in the financial statements and result in more extensive disclosures in the financial statements. However, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

d) IFRS 7 'Financial Instruments Disclosures'

In October 2010, the IASB issued amendments to IFRS 7 that increase the disclosure requirements for transactions involving transfers of financial assets. The amendments are intended to provide greater transparency around risk exposures when a financial asset is transferred but the transferor retains some level of continuing exposure in the asset. The amendments also require disclosures where transfers of financial assets are not evenly distributed throughout the period. The amendments to IFRS 7 are effective for annual periods beginning on or after 1 July 2011, with earlier application permitted. Disclosures are not required for comparative periods before the date of initial application of the amendments.

The Company anticipates that IFRS 7 (2010) will be adopted in the Company's financial statements for the annual period beginning on 1 July 2012. The Company does not anticipate that these amendments to IFRS 7 will have a significant impact on the Company's disclosures regarding transfers of financial assets. However, if the Company enters into other types of transfers of financial assets in the future, disclosures regarding those transfers may be affected.

e) IFRS 9 'Financial Instruments'

In November 2009, the IASB issued IFRS 9 and in October 2010, issued an amendment to IFRS 9 which introduce new requirements for the classification and measurement of financial assets and, financial liabilities and for derecognition. In November 2011, the Board reached a tentative agreement to change the mandatory effective date of IFRS 9 to annual periods beginning on or after 1 January 2015, rather than being required to apply them for annual periods beginning on or after 1 January 2013 as is currently the case. Early application would continue to be permitted.

IFRS 9 requires all recognised financial assets that are within the scope of IAS 39 'Financial Instruments Recognition and Measurement' to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent accounting periods.

The most significant effect of IFRS 9 regarding the classification and measurement of financial liabilities relates to the accounting for changes in fair value of a financial liability (designated as at fair value through profit or loss) attributable to changes in the credit risk of that liability. Specifically, under IFRS 9, for financial liabilities that are designated as at fair value through profit or loss, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Previously, under IAS 39, the entire amount of the change in the fair value of the financial liability designated as at fair value through profit or loss was recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

- 1 ACCOUNTING POLICIES (continued)
- e) IFRS 9 'Financial Instruments' (continued)

The Company anticipates that IFRS 9 will be adopted in the Company's financial statements for the annual period beginning on or after 1 July 2015 and that the application of the new Standard may have a significant impact on amounts reported in respect of the Company's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

f) IAS 19 'Employee Benefits'

In June 2011, the IASB issued amendments to IAS 19 that change the accounting for defined benefit plans and termination benefits. The most significant change relates to the accounting for changes in defined benefit obligations and plan assets. The amendments require the recognition of changes in defined benefit obligations and in fair value of plan assets when they occur, and hence eliminate the 'corridor approach' permitted under the previous version of IAS 19 and accelerate the recognition of past service costs. The amendments require all actuarial gains and losses to be recognised immediately through other comprehensive income in order for the net pension asset or liability recognised in the consolidated statement of financial position to reflect the full value of the plan deficit or surplus. The amendments to IAS 19 are effective for annual periods beginning on or after 1 January 2013 and require retrospective application with certain exceptions.

The Company anticipates that IAS, 19 (2011) will be adopted in the Company's financial statements for the annual period beginning on 1 July 2013. The Company does not anticipate that these amendments to IAS 19 will have a significant impact on the Company's profit or loss or financial position as the Company does not utilise the 'corridor approach'.

g) There are a number of other standards which have been issued or amended that are expected to be effective in future periods. However, it is not practicable to provide a reasonable estimate of their effects on the Company's financial statements until a detailed review has been completed.

Revenue recognition

Revenue is measured at the fair value of he consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. All such revenue is reported net of discounts and value added and other sales taxes.

Operating lease assets

Assets acquired for the purpose of renting out under operating lease agreements are capitalised and depreciation is provided at rates calculated to write off the cost of the assets, less estimated residual value, on a straight line basis over the estimated useful life

Rental income from operating leases is recognised on a straight line basis over the term of the relevant lease initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight line basis over the lease term

Income taxes including deferred taxes

The tax expense represents the sum of the income tax currently payable and deferred income tax

Income tax payable on profits, based on the applicable tax law in each jurisdiction, is recognised as an expense in the period in which profits arise. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES (continued) Income taxes including deferred taxes (continued)

Deferred income tax is the tax expected to be payable or recoverable on income tax losses available to carry forward and on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Statements and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the assets may be utilised as they reverse. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill. Deferred tax assets and liabilities are not recognised from the initial recognition of other assets (other than in a business combination) and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on rates enacted or substantively enacted at the balance sheet date. Deferred tax is charged or credited in the income statement, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

Cash and cash equivalents

The Company does not hold cash or cash equivalents

Financial instruments

Financial assets and liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument

Financial assets

The Company classifies all its financial assets, as determined at initial recognition, as loans and receivables Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market

'Loans and advances to customers' are classed as Loans and Receivables 'Net investment in finance leases' are treated in accordance with the Company's policy on finance lease agreements

Loans and receivables are initially ecognised at fair value including direct and incremental transaction costs. They are subsequently valued at amortised cost using the effective interest rate method, less any impairment. Interest calculated using the effective interest rate method is recognised in the income statement. They are derecognised when the rights to receive cash flows have expired or the Company has transferred substantially all of the risks and rewards of ownership.

Financial liabilities

Financial liabilities are initially recognised when the Company becomes contractually bound to the transfer of economic benefits in the future Financial liabilities are derecognised when extinguished

Non-trading financial liabilities are held at amortised cost. Finance costs are charged to the Income Statement using the effective interest rate method.

Trade and other payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method

Effective interest method

Interest expense on financial assets and liabilities held at amortised cost is measured using the effective interest rate method, which allocates the interest income or interest expense over the expected life of the lease agreements. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to the net carrying amount on initial recognition.

ł

NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES (continued)

Impairment of financial assets

At each balance sheet date the Company assesses whether, as a result of one or more events occurring after initial recognition, there is objective evidence that a financial asset or group of financial assets classified as loans and receivables have become impaired. Evidence of impairment may include indications that the borrower or group of borrowers have defaulted, are experiencing significant financial difficulty, or the debt has been restructured to reduce the burden to the borrower. Objective evidence that a financial asset or group of assets is impaired includes observable data that comes to the attention of the Company about the following loss events.

- a) significant financial difficulty or the issuer or obligor,
- b) a breach of contract, such as default or delinquency in interest or principal payments,
- c) the Company, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the Company would not otherwise consider,
- d) it becoming probable that the borrower will enter bankruptcy or financial re-organisation,
- e) the disappearance of an active market for that financial asset because of financial difficulties, or
- f) observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including
 - i) adverse changes in the payment status of borrowers in the group, or
 - ii) national or local economic conditions that correlate with defaults on the assets in the group

The Company first assesses whet' er objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If there is no objective evidence of impairment for an individually assessed financial asset it is included in a group of financial assets with similar credit risk characteristics and collectively assessed for impairment.

Commercial lending is reviewed for impairment on a case by case basis for individually significant loans. Loans that are not individually significant are assessed for impairment on a portfolio basis.

Impairment is calculated based on the probability of default, exposure at default and the loss given default, using recent data. An adjustment is made for the effect of discounting cash flows

If there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's effective interest rate

Financial assets are written off when it is reasonably certain that receivables are irrecoverable

2. CRITICAL ACCOUNTING ESTIMATES AND AREAS OF SIGNIFICANT MANAGEMENT JUDGEMENT

Some asset and liability amounts reported in the accounts are based on management judgement, estimates and assumptions. There is a risk of significant changes to the carrying amounts for these assets and liabilities within the next financial year.

Residual values

Residual values are estimated at the inception of lease agreements and are subsequently reviewed for impairment during the life of the lease agreements. Appropriate provisions are recognised in the Income Statement.

Impairment Provisions

Individual provisions are made in respect of finance and rental agreements where recovery is considered doubtful, a collective provision is made for losses which, although not individually identified, are known to be inherent in any portfolio of lending. The provisions are deducted from the net investment in finance agreements. The charge in the Income Statement comprises write offs, recoveries and the net movement in provisions in the year.

NOTES TO THE FINANCIAL STATEMENTS

2 CRITICAL ACCOUNTING ESTIMATES AND AREAS OF SIGNIFICANT MANAGEMENT JUDGEMENT(continued)

Effective interest rate calculations

IAS 39 "Financial Instruments Recognition and Measurement" requires certain financial assets and liabilities to be held at amortised cost, with income recognised using the effective interest rate (EIR) methodology. In order to calculate EIR, the contracted repayment profile is used. If customers repay earlier than anticipated, this will generally lead to a reduction in the Balance Sheet carrying value and a gain in the Income Statement.

3 RISK MANAGEMENT POLICY AND CONTROL FRAMEWORK

As a result of its normal business activities, the Company is exposed to a variety of risks, the most significant of which are operational risk, credit risk, market risk, interest rate risk and liquidity risk. The Company manages its risk in line with the central risk management function of the Santander UK Group. Santander UK Group's Risk Framework ensures that risk is managed and controlled on behalf of shareholders, customers, depositors, employees and the Santander UK Group's regulators. Effective and efficient risk governance and oversight provide management with assurance that the Santander UK Group's business activities will not be adversely impacted by risks that could have been reasonably foreseen. This in turn reduces the uncertainty of achieving the Santander UK Group's strategic objectives.

Authority flows from the Santander UK plc Board to the Chief Executive Officer and from her to specific individuals. Formal standing committees are maintained for effective management of oversight. Their authority is derived from the person they are intended to assist. Further information can be found in the Santander UK plc Annual Report which does not form part of this Report.

4 RISK MANAGEMENT DISCLOSURES

Operational risk

Operational risk is defined as 'the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This includes regulatory, legal and compliance risk 'Operational risk is monitored and managed within the Group. An independent central operational risk function (Enterprise and Operational Risk) has responsibility or establishing the framework within which these risks are managed and is aligned to operational risk profess onals within business areas (co-ordinated by IT and Operational Risk) to ensure consistent approaches are applied across the Group. The primary purpose of the framework is to define and articulate the Group-wide policy, processes, roles and responsibilities. The framework incorporates industry practice and regulatory requirements. The day-to-day management of operational risk is the responsibility of business managers who identify, assess and monitor the risks, in line with the processes described in the framework. The operational risk function ensures that all key risks are regularly reported to the Group's risk fora, risk committee and board of directors.

Credit risk

Credit risk is the risk of loss arising from a customer or counterparty failing to meet their financial obligations to the Company as and when they fall due. The credit quality of customer assets is mitigated by the credit approval process in place. Credit risk is mitigated by security taken over the borrower's assets. The Company structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower or group of borrowers. Such risks are monitored on a revolving basis and subject to an annual or more frequent review.

Lending decisions are based on independent credit risk analysis supplemented by the use of internal ratings tools which assess the obligor's likelihood of default. The output of the ratings tools is a borrower grade which maps to a long-run average one year probability of default. Borrower grades are reviewed at least annually, allowing identification of adverse individual and sector trends. The grade is integrated into an overall Credit & Risk evaluation, including wider factors such as transaction and borrower structure (ranking and structural subordination), debt serviceability and security (initial and residual value considerations). Consideration is also given to risk mitigation measures to protect the Company, such as third-party guarantees, supporting collateral and security, robust legal documentation, financial covenants and hedging. Transactions are further assessed using an internal pricing model which measures both the return on equity and the risk adjusted return on capital against a series of benchmarks to ensure risks are appropriately priced.

NOTES TO THE FINANCIAL STATEMENTS

4 RISK MANAGEMENT DISCLOSURES (continued) Credit risk (continued)

Portfolio asset quality monitoring is based on a number of measures, including expected loss, financial covenant monitoring, security revaluations, pricing movements and external input from rating agencies and other organisations. Should particular exposures begin to show adverse features such as payment arrears, covenant breaches or business trading performance that is materially worse than expected at the point of lending, a full risk reappraisal is undertaken. Where appropriate, case management is transferred to a specialist recovery team that works with the customer in an attempt to resolve the situation. If this does not prove possible, cases are classified as being unsatisfactory and are subject to intensive monitoring and management procedures designed to maximise debt recovery.

The class of financial instrument that is most exposed to credit risk in the Company is net investment in finance leases (note 9). The net investment in finance leases at 30 June 2012 was £107,737,008 (2011 £108,378,876).

All company exposures are a corporate customer in the shipping industry

For the Company, 100% (2011 100%) of the balances are secured. The main types of security are charges over assets being financed. In addition £94,795,933(2011 £95,835,268) of finance leases are secured by bank guarantees.

Arrears and impairment

Asset quality remains good with no lending balances in arrears at 30 June 2012 (2011 Nil)

The carrying value of repossessed stock at 30 June 2012 was £Nil (2011 £Nil)

The fair value of collateral on impaired assets at 30 June 2012 was £Nil (2011 £Nil)

Interest accrued on impaired assets at 30 June 2012 was £Nil (2011 £Nil)

The portfolio is subject to regular monitoring for potential impairment under the impairment of financial assets policy set out in note 2

£Nil (2011 £Nil) of lending that would have been past due or impaired, have had their terms renegotiated

Lending up to 3 months past due have a collective provision set aside to cover losses on loans which are in the early stages of arrears

Market risk

Market risk is the potential adverse change in Company income or the value of Company net worth arising from movements in market rates, including interest rates, exchange rates, inflation rates and equity prices. The Company recognises that the effective management of market risk is essential to the maintenance of stable earnings and the preservation of shareholder value, and manages market risk accordingly. Details of the market risk management policy are disclosed in the Risk Management Policy and Control Framework in the Santander UK plc Annual Report which does not form part of this Report.

Interest rate risk

Interest rate risk is the most significant market risk to which the Company is exposed. This risk mainly arises from mismatches between the re-pricing dates of the interest bearing assets and liabilities on the Company's Balance Sheet, and from the investment of the Company's reserves. Interest rate risk primarily arises in the Company's leasing trade. The exposure in this area is hedged with Santander UK plc Treasury function using fixed rate loans and other appropriate instruments.

Changes in interest rates would result in no impact on either the equity of the Company or on the profit before tax as interest is allocated on a lease agreement by lease agreement basis within the Company and all interest rate risk is borne by the ultimate UK parent companySantander UK plc

NOTES TO THE FINANCIAL STATEMENTS

4 RISK MANAGEMENT DISCLOSURES (continued)

Liquidity risk

Liquidity risk is the risk that the Company, though solvent, either does not have sufficient financial resources available to meet its obligations as they fall due, or can only secure them at excessive cost

The Company is dependent on loans from its immediate parent company Santander Asset Finance plc. All liabilities are repayable on demand

The day to day management of liquidity is the responsibility of the Santander UK plc Treasury function, which provides funding to and takes surplus funds from the Company as required

5 PROFIT FROM OPERATIONS

Directors' emoluments

No Directors were remunerated for their services to the Company Directors' emoluments are borne by the ultimate UK parent company, Santander UK plc No emoluments were paid by the Company to the directors during the year (2011 £nil)

Auditors' remuneration

Auditors' remuneration of £5,100 (2011 £5,100)was borne by the ultimate UK parent company Santander UK plc in the current and preceding year

No non-audit fees were borne on the Company's behalf in either the current or preceding year

Particulars of employees

No salaries or wages have been paid to employees, including the directors, during the year or the preceding year. The Company had no employees in either the current or the preceding year.

6 FINANCE COSTS

	Amounts payable to immediate parent undertakings	2012 £ 828,872	2011 £ 656,755
		828,872	656,755
7	TAX		
		2012 £	2011 £
	Current tax UK Corporation Tax on profit for the year Adjustments in respect of prior years	(848,807)	(906,946) 314,851
	Total current tax	(848,807)	(592,095)
	Deferred tax Origination and reversal of temporary differences Change in rate of UK Corporation Tax Adjustments in respect of prior years	737,940 (1,856,534) -	816,173 (1,798,287) (314,851)
	Total deferred tax	(1,118,594)	(1,296,965)
	Tax credit on loss for the year	(1,967,401)	(1,889,060)

NOTES TO THE FINANCIAL STATEMENTS

7.Tax (continued)

Corporation tax is calculated at 25.5% (2011 27.5%) of the estimated assessable profit for the year. The standard rate of UK corporation tax was reduced from 26% to 24% with effect from 1 April 2012.

The Finance Bill 2012, proposed a reduction in the main rate of UK corporation tax from 26% to 24% effective from 1 April 2012. This reduction in the rate to 24% was enacted on 26 March 2012 under the Provisional Collection of Taxes Act 1968. As this change in rate was substantively enacted prior to 30 June 2012, it has been reflected in the deferred tax liability at 30 June 2012.

After the balance sheet date, on 17 July 2012, the Finance Act 2012, which provides for a reduction in the main rate of UK corporation tax to 23% effective from 1 April 2013 was enacted The UK Government has also indicated that it intends to enact a further reduction in the main tax rate down to 21% by 1 April 2014. These changes to the main tax rate have not been substantively enacted at the Balance Sheet date and, therefore, are not included in these financial statements.

The tax on the Company's loss before tax differs from the theoretical amount that would arise using the basic tax rate of the Company as follows

		2012	2011
	Loss before tax	(434,770)	(330,084)
	Tax calculated at a rate of 25 5% (2011 27 5%) Effect of change in tax rate on deferred tax provision	(110,867) (1,856,534)	(90,773) (1,798,287)
	Tax credit for the year	(1,967,401)	(1,889,060)
8	TRADE AND OTHER RECEIVABLES	2012 £	2011 £
	Non current Finance lease receivables	102,411,411	103,210,012
	Current Finance lease receivables	5,325,597	5,168,864
	Total trade and other receivables	107,737,008	108,378,876

9 FINANCE LEASES

The Company enters into finance lease arrangements with customers in the shipping industry

	Gross investment in the lease		Present value of minimum lease payments	
	2012	2011	2012	2011
	£	£	£	£
Less than one year	5,603,741	5,424,660	5,325,597	5,168,864
Later than one year but less than	24,113,229	23,375,595	20,408,262	19,849,711
five years Later than five years	166,039,580	171,747,059	82,003,149	83,360,301
	195,756,550	200,547,314	107,737,008	108,378,876
Less				
Unearned finance income	(88,019,542)	(92,168,438)		
Net investment in finance leases	107,737,008	108,378,876		
Non-current			102,411,411	103,210,012
Current			5,325,597	5,168,864
			107,737,008	108,378,876

Residual values of assets leased under finance leases at 30 June 2012 is £Nil (2011 £Nil). The directors consider that the net investment in finance leases is approximately equal to their fair value.

NOTES TO THE FINANCIAL STATEMENTS

10 CAPITAL

The Company's ultimate UK parent company Santander UK plc adopts a centralised capital management approach based in an assessment of both regulatory requirements and the economic capital impacts of businesses in the Santander UK Group Disclosures relating to the Company's capital management can be found in the Santander UK plc Annual Report which does not form part of this Report

11 RELATED PARTY TRANSACTIONS

Trading activities

Payable to / receivable from related parties

Current tax Group relief	2012 £ (3,837,383)	2011 £ (2,988,575)
Amounts owed to parent undertakings	86,144,945	86,352,042
