Vision

A caring world where the basic requirements of people in need are fulfilled

Mission

Inspired by Islamic humanitarian values, Islamic Relief Worldwide aims to help meet the needs of vulnerable people and empower them to become self-reliant so that they can live with dignity and confidence. We help individuals, groups and institutions to develop safe and caring communities and make it possible for those who wish to support others to reach people in need of their help.

Work

We provide help where it is needed most and wherever we are best placed to assist. We do this regardless of race, colour, political affiliation, gender or belief and without expecting anything in return. We work to mitigate the effects of disasters, preparing for their occurrence where possible and responding with emergency relief and rehabilitation. We promote sustainable development through our work in the sectors of education, health and nutrition, water and sanitation, and livelihoods. We also advocate on behalf of the poor. We hope to contribute to achieving the Millennium Development Goals (MDGs) through raising awareness of the issues that affect poor communities and through our work on the ground.

Message from the Chair of the Board of Trustees

As salamu alaykum Peace be upon you all

Islamic Relief was founded over 26 years ago as a compassionate response to suffering across the globe

Today, by the grace of God, it is the largest independent Muslim charity in the world

We work closely with local communities, governments, the UN and other NGOs to tackle poverty, suffering and social injustice

In 2010, with the support of our generous donors, we were able to care for more than 25,000 orphans and vulnerable children in 22 countries. We helped other children access schooling and championed the rights of girls to equal opportunities in education and future employment

Our innovative projects provided some of the world's poorest communities with vital healthcare, sanitation, and clean water. A strong focus on promoting sustainable livelihoods empowered many with a route out of poverty, and our emergency response programmes relieved the suffering of thousands of people

In addition, our growing advocacy campaigns gave marginalised people a powerful voice in the crucial areas of child rights and peace-building

This report highlights how we used donations and funding to get real help to real people in more than 33 countries during 2010. As you will read in the following pages, our work has improved the lives of thousands but like our donors and supporters, we want to do so much more

The integrated approach of our new four-year strategy will focus our future efforts on creating long-term changes that tackle poverty and suffering at the roots. Alongside this, God-willing, the new governance structure for the global Islamic Relief international partnership will mean even better outcomes for our beneficiaries in future

I, therefore, present to you Islamic Relief's Annual Report and Financial Statements for 2010, as we pray for a peaceful and prosperous year ahead, God willing

Dr Mohammed El-Alfy

Chair of the Board of Trustees

Message from the CEO

As salamu alaykum

Peace be upon you all

Islamic Relief was born out of emergency response programmes and, in 2010, our emergency response included programmes to help communities rebuild their lives and boost their resilience to disasters

We were one of the first agencies distributing aid on the ground in the aftermath of the worst floods to hit Pakistan in living memory. And, in Haiti, we responded soon after the earthquake to provide emergency aid and opened the first tented camp for earthquake survivors

Our field offices tackled malnutrition in Niger and Chad where flash floods exacerbated a chronic food crisis, and in Kenya where successive droughts have contributed to at least 30% of children becoming acutely malnourished

Of course, man-made crises are often just as disastrous and in 2010 we cared for at least 21,000 people affected by conflict in Sudan, and our innovative conflict-resolution work in Yemen continued to empower tribes to resolve their differences and work towards peace

While it is vital that we serve the immediate needs of people in disaster-zones, Islamic Relief is equally determined to help people get back onto their feet

Accordingly, we committed to a multi-million pound reconstruction project in 2010 helping the people of Pakistan to rebuild their homes and communities, and we also continue to help thousands of children back into education with our Haiti Schools Rehabilitation programme

During the year we also worked on making sure communities became less vulnerable to disasters, such as in Bangladesh where we helped 81,000 people in disaster-preparedness programmes. Nearby in China, we supported an entire community to reduce environmental regression and increase their resilience to drought

In this report, you will discover more about how we are transforming lives around the world – none of which would have been possible without the continued support of our donors, beneficiaries, partners and staff

Thank you to one and all

Saleh Saeed

CEO of Islamic Relief Worldwide

Achieving our organisational aims

Islamic Relief is committed to helping achieve the Millennium Development Goals, and ran more than 900 development projects in the last decade alone. In 2010, we worked in more than 33 countries to deliver projects in the following major areas:

Responding to emergencies

Caring for orphans and children in need

Supporting education

Providing access to healthcare and water

Promoting sustainable livelihoods

Campaigning and advocacy on humanitarian issues

This section highlights some examples of how our work made a real difference to some of the poorest and most vulnerable communities in the world, during 2010.

Know your MDGs

Goal One	End poverty and hunger
Goal Two	Universal education
Goal Three	Gender equality
Goal Four	Child health
Goal Five	Maternal health
Goal Six	Combat HIV/Aids
Goal Seven	Environmental sustainability
Goal Eight	Global partnership

Responding to emergencies

- To develop our organisational capacity to respond effectively to emergencies
- To reduce vulnerability via food supply programmes

In 2010, Islamic Relief responded to emergencies and disasters around the world. These included the floods in Pakistan and Niger, an earthquake in Haiti, violence in Yemen, and slow onset food crises in some of the poorest countries in the world.

We also worked to make a long-term difference in disaster-prone areas, by building the capacity of local communities to deal with future emergencies.

Emergency Response 2010

Country	Beneficiaries
Albania	7075
Bangladesh	108942
Haiti	35340
Indonesia	6360
Kenya	2400
Pakistan	143373
Palestine	4357
Russia	85
Somalia	29000
Sudan	24755

Vital aid for earthquake survivors

Haiti

When a massive earthquake struck the Caribbean island of Haiti, we were one of the first humanitarian agencies on the ground, delivering food and aid to survivors

More than 3.8 million people were affected by the disaster, which struck on 12 January 2010. Homes, schools, hospitals, prisons and government buildings were destroyed, in what was already the poorest country in the Western hemisphere. Throughout 2010, survivors endured monsoon rains and cholera as well as violence in the aftermath of the presidential elections.

After setting up the first organised camp eleven days after the earthquake, Islamic Relief continued to provide support throughout the year. We founded another two camps, housing a total of over 5,000 people. Camp residents had access to safe drinking water and access to clean washing areas and toilets. Transitional family shelters gave protection to 1,320 survivors, and our cholera prevention work helped 5,000 people.

As well as taking care of many of their immediate needs, we helped local people rebuild their lives and communities. We rehabilitated three schools, provided 1,820 job opportunities and trained over 180 people in IT. By equipping people with the skills and opportunities to earn a living, we aimed to help them support themselves in the longer-term.

Reducing vulnerability to disasters

Bangladesh

Bangladesh is one of the most disaster-prone countries in the world. The country's extreme weather conditions, natural and man-made disasters have all made life unstable for its people.

In 2010, we implemented a project to reduce the vulnerability of communities to such hazards. We targeted communities in the Netrakona Municipality, which floods almost every year, and Sylhet City Corporation, which is on a major tectonic fault line.

The household of Shefali Begum, in Netrakona, was often flooded. She said, "Since we live very close to the river, often our farmland is inundated with flood water, destroying the harvest upon which our family depends." The floods often forced Shefali, together with her young son and elderly parents, out of their home. "Islamic Relief has raised our home," she said, "We will be less affected by the floods now."

Shefali was one of more than 81,000 people we helped to prepare for disasters and to mitigate their impact. Our work included raising homes above flood-levels and preparing schools to act as

emergency shelters We educated school-children about disaster preparedness and helped communities plan what they will do when an emergency happens

Achievements

Reducing vulnerability to disasters for 81,000 people

164 households made safe from floods

Emergency aid and nutrition Niger

In 2010, nearly half of Niger's population was already food insecure, after a prolonged drought which killed both crops and livestock In August, just two months before communities were due to reap the crops that survived the drought, flash floods swept across the Sahel, making 200,000 Nigeriens homeless

Over three-quarters of the region's population rely on agricultural produce and livestock to make ends meet The floodwaters killed 80,000 animals and destroyed over 37,000 hectares of farmland Floodwater rapidly stagnates and contaminated water carries with it the threat of serious diseases 15,000 cases of cholera followed the floods

Our emergency response concentrated on vulnerable families in the Tillaberi Region 436 households received essential items such as food, blankets, mosquito nets, and soap We contributed to tackling malnutrition, particularly amongst children, with a blanket feeding programme and support for three therapeutic feeding centres and 15 supplementary centres to support this work To further improve healthcare for malnourished children, we also trained local health workers to improve the management of childhood illnesses and reproductive health

Achievements

- Emergency aid delivered to 436 households
- Support for three therapeutic feeding centres and 15 supplementary centres
- Training for more than 60 local health workers

Emergency aid and help to rebuild Pakistan

The worst floods in living memory hit Pakistan in July Over 20 million people were affected by the disaster, which killed 2,000 people and injured thousands more The home of Aameena Bibi, of Nowshera, Khyber Pakhtunkhwa, was one of the two million houses destroyed by the floodwaters "I can't forget the moment when I saw what was left of my house," said Aameena "I lost everything I own There was nothing left where my house used to stand "

Livestock was killed, and over two million acres of crop land lost. A lack of clean drinking water forced many to drink contaminated water and face the threat of deadly waterborne diseases.

Our emergency response met the immediate and critical needs of survivors. We delivered food to over 20,000 families, and provided tents for 10,000 people. 136,000 litres of water a day were distributed in four regions. 40,000 people received essential items such as mattresses, blankets, and mosquito nets, and 80,000 benefitted from family hygiene kits. We provided hygiene promotion sessions aiming to prevent the outbreak of disease, and built 70 latrines and five hand-washing points.

In addition, we provided vehicles and boats to rescue stranded survivors, helped repair damaged roads to get access to villages that had been cut off, and installed five water treatment plants.

Ameena was one of the many pregnant women to receive free treatment at one of our mobile health clinics. She told us, "Within one month, my health had returned and I had given birth to a baby boy, called Salim, on Eid day. Now, by the mercy of God and support from Islamic Relief, my child and I are safe."

We also started our recovery programme to rebuild more than 60 of the most vulnerable villages, and repaired or rebuilt hundreds of houses, including Ameena's, in Khyber.

Achievements

- 20,000 families received food parcels
- 136,000 litres of water distributed, each day
- Programme to rebuild 60 villages

"In every difficulty, Islamic Relief is the first to reach us. Islamic Relief is with us every step of the way."

Mohammed Shafi, Neelum, Pakistan Administered Kashmir

Caring for orphans and children in need

Aim

- To contribute to alleviating child poverty by offering a comprehensive orphan support and child welfare programme

Islamic Relief believes that all children have the right to be clothed, fed, protected and educated

Our projects provide ensure vulnerable children and their families have access to food, clothing, education, healthcare and shelter

We also help keep families together by providing support to vulnerable women - such as widows – so they can earn a decent living and support their families

One-to-one Sponsorship

Kosova

Football-loving Jeton Hyseni, 13, is the only boy in his family. He lives with his mother, Zelihe, a widow, and five sisters in Skenderaj, Kosova.

The family grows vegetables, some fruit, and keeps a cow for milk. Still, it's tough to make ends meet on Zelihe's small social pension. Their three-roomed house was burned during the war and the family doesn't have the means to rebuild it.

Over 10,000 people were killed during the 1996-99 conflict in Kosova and most of these were men. The loss of the family breadwinner has left thousands of orphans and widows destitute. Education has also become more expensive, which has led to huge numbers of children dropping out of school.

Islamic Relief sponsors both Jeton and his 12-year-old sister, Jehona. Our support means they can attend school and they have adequate healthcare and clothing. "Without Islamic Relief's support, I really don't know what I would have done to cover my family's basic needs," said Zelihe, "I know that I would have been forced to stop their education."

Achievements

- Over 25,000 children were sponsored by our donors in more than 22 countries around the world.

"Without Islamic Relief's support, I really don't know what I would have done"

Zelihe Hyseni, Skenderaj, Kosova

Vulnerable children given specialist care

Chechnya in the Russian Federation

More than 300 children live in orphanages in Chechnya, in the Russian Federation. Some of them require special help to overcome the trauma caused by military campaigns, in which over 25,000 children lost one or both their parents.

Islamic Relief's Gvardeyskiy Centre gives support to 90 vulnerable children. Hailed as a flagship initiative in the Chechen Republic, the social rehabilitation centre for children gives individual specialist care to children aged between four and 18 years. Children living in the centre have all their basic needs met and receive an education tailored to their needs.

The centre has been home to Nagejda Ussacheva aged eight and her brother Volodya, aged ten, for two years. The siblings have no living relatives able to look after them, and are now cared for around the clock by a team of staff and teachers. Children from all kinds of ethnic backgrounds live at Gvardeyskiy, including Chechens, Russians, and Tadjiks.

“ and concerning the children who are weak and oppressed (Allah instructs) that you stand firm for justice to orphans ” [Qur'an, 4: 127]

Women empowered to support their families Ethiopia

Islamic Relief has been working in Ethiopia since 2003, providing much-needed emergency relief, development projects, and child welfare work in the country's capital and Somali Region.

We sponsor nearly 900 vulnerable children and their families in Ethiopia. To promote self-reliance in these families, we introduced a livelihood support project in three kebeles, urban villages, in Addis Ababa. The scheme helped 350 female-headed-households to increase their household income and support their families.

Birhane Getachew, 26, is a mother of three and a carpenter. She previously made less than 90 Birr (£3.40) a week making cup boxes for a local company. “I could barely cover household expenses,” said Birhane, who recently re-married. “There were days when we slept without food because I ran out of money.”

Then Birhane received entrepreneurship training and a micro-finance loan to set up her own business through the Islamic Relief scheme. She and her new husband now work together on her business, making cup boxes at a greater profit so that she earns almost as much money in a single day as she previously did in a week.

"I never thought I would earn this income in my life," she said "Our life, my life, and the lives of my family have totally changed I am able to send my children to a good school where they get a quality education Our house is properly furnished, and I can pay for tap water "

Birhane manages to save up to 600 Birr (£22 70) each month, and plans to expand her business She told us, "Thanks to Islamic Relief, I am full of hope and full of enthusiasm "

Achievements

- Support for 350 households
- 1,750 individuals helped
- Women increased their income by an average of 41%

"Our life, my life, and the lives of my family have totally changed " Birhane Getachew, Ethiopia

Supporting education

Aim

- To broaden opportunities for children and communities through improved education

Our Islamic values reinforce that education is both a universal right and an obligation. Learning is the key to a better future and often the only way out of poverty but it is denied to millions of children and adults around the world, particularly girls.

In 2010, our education programmes focused on getting more children into school by rehabilitating school buildings, providing practical support to make attendance a realistic option, and challenging some of the social inequalities that keep girls out of education.

Restoring earthquake-damaged schools

Haiti

Children suffered heavily in the massive earthquake that struck Haiti on 12 January 2010. More than 38,000 students died, over 1.5 million children were affected by the disaster and around 300,000 were forced to leave their homes and live in camps.

Around 4,000 schools were damaged or destroyed, including 80% of the schools in the capital, Port-au-Prince. This left many children without a safe place to learn. Islamic Relief repaired and rebuilt three schools in 2010: Ecole Municipale Pierre Labitrie, Ecole Nationale de Damien, and Ecole Nationale de la Croix des Missions.

Maturin, 13, is one of the 2,200 children that we helped back into school. "After the earthquake we had to study outside in a tent," she explained. "It gets very hot in the daytime and I would become very thirsty. But now our school has been rebuilt. It is colourful and nice. I want to continue to study and become a nurse. I'd like to thank Islamic Relief because they repaired our school and even gave us exercise books."

Achievements

- Three schools repaired and rebuilt
- 2,200 youngsters helped back into school

Better access to education for girls

Uttar Pradesh, India

40% of the 190 million people in India's most populous state, Uttar Pradesh, live below the poverty line. Access to education is extremely difficult for the poorest and most vulnerable people, particularly those from underprivileged minority communities. Economic, social, and cultural barriers make it extremely difficult for schools to attract and retain female students.

Islamic Relief runs 15 alternative education centres in three districts of Uttar Pradesh. The centre serves over 7,600 women and girls, who have never had any form of education, or have dropped out of school. Almost 800 females have already attended bridging classes at the centre and almost 1,500 received literacy and numeracy classes or vocational training. Gender justice, water sanitation and hygiene are key components of the curriculum.

Recognising the positive influence that parents can have in promoting the education of girls, we encourage local mothers to support their children in attending school until they've completed secondary education. 560 mothers were mobilised as community activists pushing for the right of children, especially girls, to improve their life-chances through education. We've now supported over 760 of the girls into mainstream schools.

Young children given safe places to learn West Bank, Occupied Palestinian Territories

Pre-schools give young children valuable access to the world of learning, and can allow a parent to better manage their work and home life. More than 95% of pre-school services in the West Bank, Occupied Palestinian Territories, are provided by the private sector or non-governmental organisations (NGOs). Many of the pre-schools are in poor condition and don't offer a safe, healthy environment for young children.

In 2010, we began upgrading 40 kindergartens. This included installing safe play areas, providing suitable sanitation, and improving the learning environment. Together with the Ministry of Education, we also designed training to enhance the skills of pre-school teachers.

Achievements

- Work to upgrade 40 kindergartens will benefit 2,400 children
- Training designed for 60 pre-school teachers

Providing access to healthcare and water

Aims

- To increase access to clean and sustainable water and sanitation facilities, with a focus on increased knowledge of hygiene practices
- To improve the health of communities

Health is inextricably linked to clean water and sanitation but millions around the world do not have access to these basic facilities. In 2010, Islamic Relief worked with some of the world's most vulnerable communities to establish sustainable water sources, provide access to healthcare, improve sanitation and promote health education. Health services and improve sanitation

Vulnerable people given drug rehabilitation services

Afghanistan

Basic services, including healthcare, are difficult to access for the poorest people in the Shortepa district of Afghanistan. Without proper medical care, some local people have been forced to resort to opium as a painkiller because it is more readily available.

The practice is particularly prevalent amongst those engaged in carpet weaving and broom-making for a living – a traditional source of income for many Shortepa people. Opium provides some relief from the backache and muscle pain caused by long hours crouching over a loom. Mothers also commonly

use the drug to make their young children sleep, so they can continue working undisturbed. As a result, the children often also become addicted.

In 2010, our medical treatment centre provided specialist drug rehabilitation care as well as a range of other health services. More than 250 men received treatment at our discreet residential treatment centre. Almost 50 women and children received confidential care at home, as social practices make it more difficult for women to receive in-patient care. Around 2,100 local people also benefitted from our health education programme and drug awareness campaign, which included motivational counselling.

In 2010, at least, 31,000 people accessed the services of the medical centre. These included gynecological treatment, vaccinations for children, HIV/Aids screening and family planning.

Achievements

- 300 people received community-sensitive drug rehabilitation treatment
- Our health education programme and drug awareness campaign reached 2,100 local people
- 31,000 people accessed the services of our medical centre

Schools and health clinics improved

Gaza

Many schools in Gaza suffer from water shortages. Most are not connected to a water network, and rely on tankers and cisterns instead – an infrastructure that, combined with inadequate sanitation systems, contributes to water-related health risks.

In 2010, we provided 15.5 million litres of clean, safe drinking water to 100 schools. More than 81,000 students and school staff benefitted.

Like schools, healthcare clinics in Gaza have also deteriorated since the 22-day war of 2009. In another project, we renovated eight primary health clinics across the five governorates of the Gaza. This gave at least 125,000 local people access to improved healthcare facilities, and the number of patients accessing treatment increased.

Remote communities gained sustainable water access Ethiopia

In the Somali Region of Ethiopia, many people are faced with a critical shortage of water. For some villagers, a round trip by foot to a river or borehole can take a grueling 12 hours. Since much of their time is spent looking for water, the hours that they can spend earning a living are severely restricted.

The task of fetching water for the household and livestock often falls to women, and the challenging trip presents particular dangers to their wellbeing and safety

In 2010, Islamic Relief worked with local communities to construct two birkas (underground concrete water tanks) The system is designed to help 1,200 villagers in the Hargelle and Chareti districts access water, even if the lack of rain turns into a full-scale drought The water tanks harvest rainwater and provides two villages with water for their families and their animals, which are crucial to their pastoral way of life

We also helped each village to set up a committee to manage the water scheme, providing them with training and equipment to ensure water continues to be clean and ready to drink

Achievements

- Two underground concrete water tanks constructed
- 1,200 villagers benefitted
- Two water management committees formed and trained
- 300 bottles of water-cleaning chemicals distributed

“And We send down from the sky rain chartered with blessing, and We produce therewith gardens and grain for harvests ” [Qur’an, 50 9]

Children provided with water and better healthcare

Kenya

Successive droughts and scarce water, coupled with high food prices, are hitting the poorest communities in the North Eastern Province of Kenya, the hardest At least 30% of all children in the area are acutely malnourished Our project in 2010, delivered an integrated response to the crisis It incorporated access to water, healthcare services, and nutrition for the most vulnerable people in the area, mainly women and children

We employed around 4,000 local people to help us improve five water-supply systems, making sure local people had better and sustainable access to clean, safe drinking water

Almost 3,400 children received de-worming treatment, and nearly as many courses of vitamin supplements were given out More than 3,100 people – over a third of them children – received malaria screening and treatment We also taught more than 3,000 mothers how to prevent their children from becoming malnourished, and how to care for them if they did

Achievements

Almost 50,000 vulnerable people benefitted

- 4,000 local people employed through 'cash-for-work'
- Five water-supply systems rehabilitated
- 3,100 people received malaria screening and treatment
- 3,000 mothers trained on avoiding and treating malnourishment

Achievements

- Free health consultations and treatment for 18,800 people
- 21,279 people also benefited from our sanitation and water project

Healthcare for internally displaced people

Darfur, Sudan

Since the start of the civil conflict in 2003, at least 300,000 people have been killed by violence or disease in Darfur. Millions more have fled from their homes to live in camps. Islamic Relief has been providing outpatient medical care at Kerinding II camp since 2004, serving around 1,500 patients a month from two camps and the nearby village. In 2010, we expanded our healthcare service to include poor people in communities surrounding El Geneina town providing free consultations and treatment to 18,800 people from two additional clinics.

Hundreds of small children were fully immunised, 234 women vaccinated against tetanus and typhoid, and Islamic Relief midwives attended well over a hundred births. 36 patients were taken to hospital in our ambulance. We also worked hard to raise awareness about disease control, as well as other health-related issues such as HIV/Aids, sexual violence and family planning.

Promoting sustainable livelihoods

Aim

- To alleviate poverty by increasing the economic, social and physical capacity of communities to sustain their livelihoods

We are determined to help vulnerable people to break dependency on aid and assistance, wherever possible. That's why our work to empower people in the world's poorest communities to earn a decent living is absolutely crucial.

Our livelihoods projects are designed to give people the skills and support to lift themselves out of poverty and enter the world of work.

Young people helped out of the slums

Bangladesh

Bangladesh is one of the poorest countries in the world. An estimated five million people live in desperate poverty in the slums of its capital city, Dhaka.

Islamic Relief operates two centres in the city that give young people a route out of the slums through vocational skills training. They offer free trade-related courses to more than 300 young people – including those with special needs – every year. Courses last between two and six months and range from tailoring and embroidery to nursing, welding, car maintenance and mobile phone repair. Courses run in morning or afternoon shifts so that students can manage both work and training if they need to. Students are also given 200 Taka (£1.70) for every month of study, which they receive on graduation, and have access to micro-finance loans which they can use to set up small enterprises and earn a decent living.

Masud Hossain, 24, lives in a village near the city. He dropped out of school to support his family's ailing handloom business. "Though my whole family were working hard in the business, we could not earn enough to pay for my younger brother and sister's education, nor was it even enough for our survival."

Then Masud found Islamic Relief's Jatrabari Centre. He enrolled on a free electrical trade course, and our Employment Support Officer helped him get a job in a manufacturing company. Masud, who now earns 5,000 takas (£44) a month, said: "I found a nice working environment and get respect that I never got before. I plan to support the education of my siblings and contribute to my family's income."

Almost 100% of graduates from Islamic Relief's vocational training programme go on to employment or entrepreneurship.

Achievements

- Two vocational centres provided
- Free trade-related courses for 300 young people

Widows supported to generate an income

Mali

Two thirds of the Republic of Mali's population live in extreme poverty, and the availability and affordability of food is a major issue. Women in particular struggle, with high illiteracy rates and social barriers make it extremely difficult to earn a living. It is thought around 90% of women in Mali do not have access to opportunities to generate an income, with un-married or widowed women especially

vulnerable Since 1997, Islamic Relief has been supporting Malian women living in extreme poverty, as part of our sponsorship programme for vulnerable orphans

Fatoumata Guindo, 50, is a mother of six living in Bamako As a widow, she is the breadwinner for her household She was surviving on what she could earn selling juice and the Islamic Relief sponsorship of her youngest son, Moussa "We face big economic issues," Fatoumata said, "I lost my husband and I have to do something in order to be independent "

In 2010, Fatoumata was one of 180 women to join our new Islamic micro-finance scheme where she received training in how to manage a small businesses, as well as the encouragement and support of a 'solidarity group' of local women Fatoumata's group received qard hassan (interest-free) loans, with which they were able to boost their ability to support their families She said "Islamic Relief helped me a lot through the sponsorship of my boy, and also through this micro-finance project "

Vulnerable people helped to earn a living

Pakistan

Poverty continues to be one of Pakistan's most pressing and chronic problems It is thought that the poorest households now need to spend at least 70% of their income on food – having stark consequences for their ability to afford health and education services

A range of conventional micro-finance schemes operate in Pakistan, but many drive poor people further into poverty with their interest charges

We've been helping families in poor urban areas of Punjab and Islamabad for the last ten years Our Islamic micro-finance project provides Shari'ah compliant interest-free loans so that eligible entrepreneurs can earn a living With these small loans, some of Pakistan's most vulnerable people can start on their own small enterprise, or even expand their business This programme has provided close to £0 5m in loans to 3,388 families for micro businesses, benefitting more than 20,300 individuals

Achievements

- Micro-credit scheme has almost £0 5m in loans to 3,388 families
- More than 20,300 individuals benefitted

Campaigning and advocacy on humanitarian issues

Aim

- To work for poor and vulnerable people to ensure that their basic needs are met by conducting a range of activities, including policy-development, awareness-raising, research, lobbying and campaigning

As well as our development work on the ground, we are helping to address and raise awareness of the root causes of poverty and suffering across the world. In 2010, examples of our work to create meaningful change included advocating for child rights in Iraq, peace-building in Yemen, changing attitudes to good nutrition in Niger and supporting ecological management in China.

In 2010, we also continued to increase our advocacy partnership work with other non-governmental organisations, particularly as members of the Muslim Charities Forum (MCF) and the Humanitarian Forum.

Campaigning and Advocacy 2010

Country	Beneficiaries
Bangladesh	81565
China	1670
Iraq	400
Niger	50,759

Civil society supported in peace-building

Yemen

Violent conflicts between government forces and Al Houthi rebels broke out in the north of the country in August 2009, displacing more than a quarter of a million people to camps and makeshift shelters. Violence subsequently spread to the capital and neighbouring governorates. Few humanitarian agencies were able to enter the conflict zones, and people struggled to access food, health services, and fuel.

Islamic Relief's 18-month peace-building project covers four of the most challenging governorates in the country: Marib, Shabwa, Amran and Hadramawt. We're building the capacity of local leaders across sectors from the judiciary, educators, religious, tribal, local government units, civil society (including women and youth) and law enforcers in constructive peace-building.

Promoting conflict-sensitive development, we hope to change behaviour to bring about long-term stability. By using a human rights perspective, conflict resolution ensures social justice is promoted. At the same time, adhering to Islamic values in peace-building, the project is culturally-grounded and offers an alternative way to settle disputes, guided by faith teachings.

Achievements

- 18-month peace-building project in four of the most challenging governorates

“Whoever kills an innocent soul it is as if he killed the whole of Mankind. And whoever saves one, it is as if he saved the whole of Mankind.” [Qur’an, 5:32]

Children educated on good nutrition

Niger

Niger is one of the poorest countries on the planet and has been beset by drought and floods, creating an ongoing food security crisis. In 2010 we contributed to improving the country’s resilience and working to boost food security in the longer-term. Our pragmatic education project worked with five schools in the Tillabéri region, to show children and their families how to grow nutritious food. 125 fruit trees were planted at the schools, and 275 in domestic gardens.

We empowered 50 nutrition promoters to hold 170 community awareness sessions. These promoted nutritious foods that were available locally, and counselled mothers on how to identify and respond to malnutrition in children. 55 teachers were trained, who in turn taught 1,255 children and 1,530 parents in how to plant and grow nutritious food.

In 2010, we also successfully tested the manual digging of 26 shallow water wells in the Salamat region of Chad. This low-cost approach helps to preserve vital groundwater and other natural resources. In Niger, we used the sun to power a system supplying water to 2,000 people in five villages of the Tillabéri Region. Unlike conventional water systems, environmentally-friendly solar power does not require fuel and frequent maintenance. As such, it provides a sustainable and low-cost solution for local communities. We’ll be providing this system to two more villages in 2011.

“Islamic Relief has enabled children to learn how to produce nutritious crops, and improve their diet”

Moustapha Hamidou, Director of Tillabéri Bilingual Primary School, Niger

Achievements

- Improving community awareness of how to choose and nurture nutritious food
- 400 fruit trees planted

- 170 awareness sessions held by 50 community promoters
- 55 teachers, 1,255 children, and 1,530 parents trained

Child rights pushed up the agenda

Iraq

In Islam, children have very clearly defined rights. Parents and guardians are obliged to respect these rights and care for the physical, mental and spiritual wellbeing of children.

In a country that is struggling with violence, insecurity, and deprivation, children are the most vulnerable members of society. The rights of children to education, healthcare and time to play are not being fulfilled and few interventions exist to protect children.

Our 2010 project aimed to help secure safe, violence-free and welfare-enhancing environments for children by promoting the Convention on the Rights of the Child. We worked with more than 23,000 children and their teachers in 60 schools in the capital Baghdad and Erbil, in the northern Kurdistan region.

Features of the project included boosting the ability of teachers and schools to cater for children with special needs, workshops and activities to educate children about their rights, and events to engage parents. Yousif Abdul-Jabbar is the director of one of the Baghdad schools, and he told us about the project's impact on young people: "It has shown them that they have rights like other children. The activities, which the local authorities also participated in, have made them feel positively about their self-esteem."

Achievements

- Promoted child rights through 60 schools
- 23,000 children and their teachers benefitted
- 4,200 children took part in project activities

Communities empowered to manage their environment

China

Around 427,000 people live in Haiyuan county, an arid region in central China. 32,000 farmers struggle on less than £63 a year, and for most, accessing safe drinking water, health services and education is extremely difficult. In a county that receives an annual rainfall of less than 280mm, over-grazing and

over-cropping is creating swathes of barren land. This is one of the environmental factors that exacerbate frequent droughts.

Our project in 2010, helped 240 local people to reduce environmental retrogression and increase their resilience to drought. To restore vegetation, 1,500 sophora japonica trees were planted, as well as 750 Chinese jujube trees – also used for fruit – and alfalfa seed crop.

100 rainwater storage cellars and 50 rainwater catchments were built. 50 households were provided with a sheep and helped to build solar-powered shanties to keep their livestock safe. We also built 50 new houses in partnership with the local government and beneficiaries, complete with solar-heaters for cooking.

At the 2010 European Development Days event, we gave attendees the chance to learn more about achieving the Millennium Development Goals (MDGs). Our televised panel show involved the European Commissioner of International Cooperation, Humanitarian Aid and Crisis Response as well as the Vice-president of European Parliament.

Kristalina Georgieva, Member of the European Commission, said, "It was a privilege to participate in the Islamic Relief TV panel, where I think we had a very interactive and constructive discussion."

Achievements

240 people helped to increase their community's resilience to drought.

- Nearly 2,000 trees planted to restore vegetation and essential greenery
- 50 new houses built, complete with solar-heaters for cooking
- 50 households supported to generate an income from livestock

Making a difference, the Islamic way

With more than 26 years of experience in serving humanity, Islamic Relief is the largest independent Muslim charity in the world. As such, we are able to provide special services to millions of donors who want to discharge their Islamic obligation to help those in need and make the maximum impact.

Waqf

A real and lasting impact

Our Waqf programme allows donors to make a real, long-term impact. Waqf refers to the gift of money, property, or other items to charity. The original gift is used to bring a return, but it cannot be sold. It is a form of continuous charity, sadaqah janyah, and the rewards for the donor continue for as long as poor people continue to benefit from the Waqf. For example, if a field is given as a Waqf, the crops and benefits derived from it can be used by the charity, while the field is held intact as the original investment.

In 2010, Islamic Relief raised more than 170 new Waqf shares, bringing the total number to almost 3,470. This is invested according to the principles of Islamic Shari'ah, and the return is then invested in projects to help the poor.

The Waqf programme funded nine projects in 2010. These included emergency aid: 560 food parcels for flood-survivors in Pakistan, and a water and hygiene project in two camps in Haiti. 307 poor families in the Gaza Strip and 350 families in Niger, also received food supplies through the Waqf fund.

The fund supported an orphans programme in Somalia, and provided specialist care to Egyptian children with special needs. The facilities of a hospital in Sri Lanka were improved and Waqf also funded a vocational training centre in India.

Waqf funding also rehabilitated a village library in Vinogradnoye, Chechen Republic, Russian Federation. Zhanet Shabueva, 16, is already a fan. "Thanks to the books, people can learn so much," she said. "Children can read literature beyond the school curriculum and further develop themselves."

Ramadan and Qurbani

Food for the most vulnerable

Muslims with sufficient wealth (money or assets) celebrate the holy month of Ramadan and Eid al-Adha with charitable giving.

Saida Mas'oud, a widow and mother of five, lives in Beidef village in Egypt. She was one of the 639,000 people to receive a Ramadan food parcel in 2010. "It is the first time I received a Ramadan package," said Saida, "It helps me in cooking for my children, more than the very basic items we usually survive on."

As well as providing Ramadan food for poor people, around 3.5 million people in 28 countries benefitted from fresh, canned or frozen Qurbani meat distributed by Islamic Relief.

12 months in Islamic Relief News from around the world

January We launched our Haiti emergency appeal, in the UK alongside other members of the Disasters Emergency Committee. At the European Parliament we presented a photography exhibition highlighting our work in the field.

February Islamic Relief secured more than £309,000 from UNHCR to fund its work with displaced people in northern Yemen.

March The UK Prime Minister visited our international office and the clothes recycling depot in Birmingham, and later said "We should remember the huge contribution that Muslim charities like Islamic Relief make to the relief of suffering around the world – their amazing work on the ground."

April We signed a new agreement with the United Nations Refugee Agency (UNHCR) worth over £5.2 million. This money will be used to provide humanitarian assistance to displaced people in Iraq, with particular focus on emergency shelters for returnees.

May Islamic Relief ambassadors headlined a series of events, festivals and carnivals in Italy, Egypt and the USA to raise awareness of poverty and suffering as well as funding for our work. One of the festivals set a new record by raising 500,000 Euros – the largest amount of money Islamic Relief Italy has raised in a single day.

June Islamic Relief USA launched Day of Dignity, a six-month campaign mobilising volunteers in 22 cities in North America to provide food, clothing, blankets and medical care to people in need.

July Islamic Relief South Africa commemorated Mandela Day with a series of activities at their Johannesburg community centre. Our emergency appeal for flood-hit Pakistan was launched. In the UK, HRH The Prince of Wales gave his support, and live telethons raised nearly £1 million, a record from British donors.

August The UK Deputy Prime Minister joined us to mark the launch of our 2010 Ramadan campaign. Nick Clegg said "I come here full of admiration for what Islamic Relief does. What you are doing is an example to us all. You are responding with the morale and organisational leadership which I think, frankly, has been lacking from the international community as a whole."

September Our Indonesia office signed a contract worth nearly £3 million with the Government of Indonesia and the World Bank. It will be used to strengthen the sustainability and productivity of the fisheries sector in the province of Aceh, Sumatra.

October As guest speaker at the UK Conservative Party Conference, Islamic Relief addressed an international audience to talk about tackling global poverty, and spoke at the UN Faith and Development Nexus on the relationship between Islamic teachings and humanitarianism.

November We hosted the visit of the Chairman of DEC to Pakistan. In Mike Walsh's visit to our projects in Khyber Pakhtunkhwa (KPK), he saw real progress on the ground in how the people of Pakistan were being helped to rebuild their lives. "I came back from my visit to KPK full of admiration for Islamic Relief and felt a real pride during the work that they are doing," he said.

December Islamic Relief's USA office sent clothes to survivors of the floods in Colombia, in partnership with the Church of Jesus Christ of Latter-day Saints. The shipment, valued at over £464,000, was distributed to Colombians who have survived the heaviest rains to hit the South.

American country since records began We also took part in the European Development Days event, in Brussels, where we engaged with influential decision-makers on humanitarian issues

Investing in people

Our dedicated staff are our biggest asset in getting real help to poor people In 2010, we created a new learning and development department to develop and support staff right across the Islamic Relief family

Future Plans

A new strategic direction 2011 - 2015

For Islamic Relief there is no greater priority than ensuring what we do has the greatest positive impact on the people we serve. In 2010 we undertook a comprehensive review of our organisational strategy, examining the values, motivation and approach we base our work on.

Changing our understanding of poverty

Our understanding of humanitarianism and development in the future will resonate much more directly with the 'principles' behind faith teaching. In 2011, we will be moving away from a 'needs based' approach to poverty and development, and towards a 'rights based' approach which recognises that poor and suffering people have rights over us, as defined in the Qur'an and Sunnah.

Leading the way in Islamic humanitarianism

Our new strategy for 2011-2015 provides the potential for crucial leadership in three vital areas:

Understanding the threats to our world and preparing people for them

Addressing the underlying causes of poverty through our programmes and policies

Developing a deeper faith-based framework for humanitarianism and development that offers leadership and guidance on issues affecting the developing world

Key strategic areas 2011-2015

Protecting life and dignity

Enabling communities to reduce the risks and effects of disasters by preparing for their occurrence, hazard mitigation and timely response through providing effective relief, protection and recovery

The increasing risks presented by climate change, conflict and other natural disasters means that disaster preparedness and response remains a leading priority for Islamic Relief's work over the next five years. We will build the capacity of local communities, partner organisations, local governments and our field offices to withstand, mitigate and respond to disasters.

Empowering communities

Enabling the sustainable development of the communities we work with through an integrated approach that includes promoting sustainable livelihoods, social justice and environmental custodianship.

Our Islamic faith values give the poor rights over our wealth and require us to tackle poverty where we become aware of it. Over the last few decades our greater understanding of the causes and nature of poverty has led Islamic Relief to focus on a strategy that will enable sustainable development and the fulfilment of rights.

Through a Sustainable Livelihoods approach we will map and analyse the nature and causes of poverty and the opportunities that are present to create sustainable development. Our programmes will

be planned with an understanding of the multi-dimensional nature of poverty so that our work complements an overall plan for developing sustainable development with local stakeholders

Mobilising for change

Supporting the marginalised and vulnerable to voice their needs and address the root causes of poverty and suffering

Islamic Relief will empower every layer of society to fulfil their social justice obligations through engagement, education and empowerment. We will create a mass movement of individuals and communities to effect positive change in relation to poverty eradication and international development, focusing on those issues and themes affecting the most needy and destitute

4. Strengthening the IR partnership

Building a governance system and infrastructure for the growing IR global partnership that will maximise the size, efficiency and effectiveness of our operations to alleviate poverty and suffering

Islamic Relief has an obligation to both our donors and beneficiaries to create the most effective and efficient organisational structure and systems that will deliver the best impact in our mission. Over the next five years we will develop a more effective global organisation that will provide leadership in addressing the grave issues that affect the human race

The Newsroom

Award-winning charity

The Institute of Chartered Accountants in England and Wales (ICAEW) awarded Islamic Relief with second place in an award which recognises outstanding financial transparency and communication

We received accreditation from People in Aid for promoting good practice in the management and support of aid personnel

Islamic Relief USA made the Philanthropy 400 list for the first time ever. The Chronicle of Philanthropy, a US-based newspaper, ranked Islamic Relief at position 131.

Our project to improve access to education in India won the UNESCO-Wenhui Honourable Commendation award for educational innovation.

Volunteers and fundraising in the UK

2010 was a record year for online giving in the UK, and the generous British public responded to the flooding in Pakistan to boost our annual Ramadan appeal to a staggering £11 million.

Many people gave up their time too. Schoolchildren raised money through non-uniform days. A team of 15 UK volunteers trekked two weeks through the Himalayas, ascending to the Everest Base camp, to raise money for our programmes in Pakistan. University Islamic Societies raised over £420,000 and HRH The Prince of Wales made a personal donation to support our work in Pakistan. Radio appeals were held from mosque radios, and fundraising dinners also generated much-needed money. Many people undertook sponsored fasts, held cake bakes, and pounded pavements, all to raise much-needed money.

Volunteers and fundraising in the Middle East and Emerging Markets

Middle East institutions donated more than £3.4 million to our programmes to build or rehabilitate schools and hospitals in Gaza and more than £2 million for micro-credit programmes in Kosovo and Chechnya in the Russian Federation.

More than £1.3 million was raised for emergency aid and reconstruction in Pakistan, and a fantastic £3 million to help survivors of the Haiti earthquake. Institutional donors also supplied meat worth upwards of £2.1 million to be distributed to some of the poorest people in the world.

In 2010, Islamic Relief began the process of registering new offices in both Ireland and Australia.

In-kind Donations

UK high-street retailer Mothercare donated 100 pallets of clothing for children and women. The clothes, with a retail value of £450,000, were provided to survivors of the Pakistan floods.

International Health Partners (IHP) also responded generously, providing £2.5 million in medicines and medical supplies to help the people of Pakistan, while Islamic Relief gave £100,000 towards IHP's operational costs.

Constitution

Islamic Relief Worldwide (IRW) is constituted as a company limited by guarantee (number 2365572) and registered charity (number 328158). It was formed on 13 February 1984 as a charitable organisation, incorporated under the Companies Act 1985 on 28 March 1989 and registered with the Charity Commission on 24 April 1989. It is an organisation that is governed by its Memorandum and Articles of Association. In the event of winding up, members are required to contribute £1.

Board of Trustees

The Governance of IRW is the responsibility of the Company Directors, also known as Trustees for the purposes of charity law and which currently comprise six in number. They are collectively referred to

as the Board of Trustees. The Board of Trustees' obligation is to direct and control the organisation through the process of governance. It plans future aims and priorities, monitors current performance and measures progress. The Board of Trustees also appoint, appraise and dismiss the Executive management team and the CEO, collectively known as the 'Board of Directors' and individually known as 'Directors' and 'CEO'.

The Board of Trustees' focus is primarily on strategic planning and governance, which includes measuring strategic results achieved by management, satisfying the regulatory requirements of the charity, and fulfilling the Board of Trustees' responsibilities to all stakeholders.

Recruitment and appointment of trustees

Members of the Board of Trustees devote their time voluntarily. When appointing trustees, emphasis is placed on the diversity of skills and knowledge that is required for a board to be effective. The selection process involves determining the necessary skills, knowledge and experience (given the operational climate and needs), identifying potential trustees, and promoting and explaining the activities of the board to potential trustees. Nominations for potential board members come from the various stakeholders and partners of Islamic Relief. The process may include personal approaches to potential candidates.

Induction and training of trustees

The induction process for new trustees includes an explanation regarding the function of the Board of Trustees and could include appointing a mentor for the new board member. A full overview of the organisation and its activities is provided, and the contributions the new member will be able to make are explored. Trustees are given a welcome pack, which includes a copy of the Memorandum and Articles of Association, the financial statements, board minutes and the Charity Commission guidance 'The Essential Trustee', as well as recent publications.

IRW encourages ongoing training to fulfil the development needs of the trustees. This is achieved by encouraging trustees to identify personal training needs, and by providing training in new or emerging areas of responsibility. The Chief Executive Officer (CEO) keeps the trustees informed of changes in regulatory standards and training possibilities. Training is treated as an essential and regular board activity, ensuring it is professional, appropriate and evaluated.

Management restructuring

IRW has started the restructuring of its management in-line with its new strategy. The Board of Trustees is directly involved in assessing the progress of this process and implementing the approved strategy. The trustees are currently consulting with partners to ensure that future governance structures are fit for the purpose of the organisation.

The Board of Trustees receives regular reports on the performance of the organisation and the annual financial reports, along with plans and budgets. The Board of Trustees also approves any new policies and procedures. The Board of Trustees also approves key new policies and procedures.

Key personnel

The CEO, along with other senior staff, is responsible for the day-to-day management of the organisation. The CEO is accountable to the Board of Trustees. The CEO chairs the Board of

Directors, which is made up of the division directors and which supervises the daily activities of Islamic Relief

Division directors oversee the implementation of the policies laid down by the Board of Trustees and support the work of other staff and volunteers. All major humanitarian campaigns are co-ordinated from IRW, International Office

TIC International is a trading subsidiary and supports the fundraising activities of IRW by managing the clothes recycling operation, the charity shops and procurement of certain food supplies

A new governance model for the global Islamic Relief family
- How we're improving the impact of our work

Islamic Relief family is a global partnership with an annual income of in excess of £100 million. We continually seek to improve the impact of the humanitarian help we provide – as we owe nothing less to our beneficiaries, donors, and supporters

In 2010, we continued to develop a new international governance model for the Islamic Relief global family that is designed to maximise the impact we make on the ground. Our objective is to make our valuable resources work harder than ever before - while also strengthening our ability to tackle the root causes of poverty and suffering

An important part of the global partnership will be collaborative structures such as sector-based

Working Groups and a Family Council of CEOs. Some of these collaborative groups were up and running in 2010 and are already improving planning, implementation and impact across the Islamic Relief family

Organisational Structure

The Islamic Relief global family

Islamic Relief Worldwide (IRW) is based in Birmingham, UK, and acts as the global implementing and co-ordinating partner of the Islamic Relief family of national partner offices

These national offices differ in their legal relationships and status with regard to the Islamic Relief family and countries in which they work

In functional terms, national offices include those that are either predominately involved in funding projects overseas or others that implement projects on behalf of the IR family – some of which are referred to as 'Affiliated Implementing Partners'

Listed below are Islamic Relief national offices that are predominately involved in raising funds for overseas projects and which are registered as independent legal entities within their own jurisdiction. Only those funds that are transferred to IRW are included in these accounts

- Belgium
- France
- Germany
- Italy
- Malaysia
- The Netherlands
- South Africa
- Sweden
- Switzerland
- USA

IRW have also registered offices in

- Australia
- Ireland

Affiliated implementing Partners include

- Islamic Relief Pakistan
- Islamic Relief India
- Islamic Relief Kenya
- Islamic Relief Bangladesh

Countries in which IRW carried out humanitarian and development projects through our own offices

- Afghanistan
- Albania
- Bosnia and Herzegovina
- Chad
- Egypt
- Ethiopia

- Indonesia
- Iraq
- Jordan
- Kosovo
- Libya
- Iraq
- Malawi
- Mali
- Niger
- Occupied Palestinian Territories
- Russian Federation
- Somalia
- Sudan
- Tunisia
- Yemen

Countries in which we worked through the offices of local organisations

- India
- China
- Sri Lanka
- Japan

TIC International Ltd

TIC International is a trading subsidiary and supports the fundraising activities of IRW by managing the clothes recycling operation, the charity shops and procurement of certain food supplies

Working with other organisations

Islamic Relief works with other organisations towards realising common goals. These include

- Catholic Agency for Overseas Development (CAFOD)
- Department for International Development (DFID)
- European Commission (EC)
- European Commission Humanitarian Aid Office (ECHO)
- World Food Programme (WFP)

IRW is also a member of the Disasters Emergency Committee (DEC), a body of 14 agencies that co-ordinates emergency relief campaigns in the UK

Risk management

Islamic Relief is dedicated to alleviating the poverty and suffering of the world's poorest people, which often means operating in 'high-risk' countries. To fulfil our vision and mission effectively, to effectively safeguard our staff and beneficiaries, and to meet the obligations to our donors, risks are managed through the following mechanisms

The Board of Trustees constantly reviews the risks the organisation faces and plays an active role in both risk assessment and mitigation. The board also implements a risk management policy relating to risks that IRW faces regarding the provision of humanitarian aid.

The process of identifying risks and developing an ongoing programme to monitor and mitigate against them is undertaken and reviewed by the Board of Directors and the Board of Trustees.

This ongoing programme incorporates all aspects of risk faced by the organisation relating to governance, operations, finances and external obligations. Although responsibility for risk assessment lies with IRW management, the Evaluation and Audit Unit facilitates the assessment process. The current key strategic risks are considered to be

- damage to reputation and public confidence
- the inability to access beneficiaries due to security concerns
- the inability to move funds in a timely fashion to complete projects as planned
- the lack of sustainability of various income streams in order to deliver our strategic objectives

The CEO and the directors are responsible for following up the recommendations of the Evaluation and Audit Unit. The Audit Committee, chaired by Dr Mohamed El-Alfy of the Board of Trustees, monitors the implementation of these recommendations.

Corporate governance

Internal controls over all forms of commitment and expenditure continue to be refined in order to improve efficiency. Processes are in place to ensure that performance is monitored and that appropriate management information is reviewed by the Evaluation and Audit Unit.

The systems of internal control are designed to provide reasonable but not absolute assurance against material mismanagement or loss. They include

- a strategic plan – which includes an annual operating plan and annual budget approved by the Board of Trustees
- regular analysis by the Board of Trustees and Board of Directors of the results and variances from budgets
- delegation of day-to-day management authority, including segregation of duties
- the identification and management of risks

The Evaluation and Audit Unit is integral to the internal control processes.

The Evaluation and Audit Unit

The Evaluation and Audit Unit's objective is to carry out a programme of regular, risk-based cyclical audits across Islamic Relief's operations, with all reports directly addressed to the CEO. The Internal Audit Committee, which is a part of the Board of Trustees, reviews these reports. The audit programme includes risk-based audits of overseas projects and UK-based functions.

The Evaluation and Audit Unit's function is

- 1 To maintain and promote quality standards within the organisation
- 2 To review and improve operating systems
- 3 To evaluate and analyse Islamic Relief's humanitarian programmes

IRW aims to ensure quality assurance by following a systematic approach to identifying and responding to the needs of those who use Islamic Relief's services, whether beneficiaries or donors.

During 2010, the Evaluation and Audit Unit was set up, and undertook appraisals of humanitarian programmes to ensure that quality assurance systems were being used effectively. The unit has also carried out evaluations of partners and affiliates against quality standards and has assisted in the production of relevant action plans. It has also introduced a lessons learned register.

Grant-making policies

Islamic Relief provides grants to organisations and individuals if the request meets the charitable objectives and criteria set by IRW. After initial approval, applications are reviewed by a committee of senior personnel. Islamic Relief aims to ensure that all grant applications are treated equally and fairly. It remains at the discretion of IRW to make the final decision as to who is eligible to receive a grant.

Public benefit

Islamic Relief's strategic plans are developed to ensure that we provide maximum public benefit and achieve our objectives as set out in the Islamic Relief Strategy. These objectives fall under purposes defined by the Charities Act 2006.

Employees

IRW supports and develops the skills of its employees. All employees are encouraged to engage with the strategy and objectives, and to give their suggestions and views on performance and strategy. Islamic Relief is committed to the People in Aid (PIA) code of good practice.

We are an equal opportunities employer and have a policy of recruitment and promotion based on aptitude and ability without discrimination in any way or form. The policies at IRW are set to focus on training and career development for the majority of employees. For this reason, employees are assessed with supervision and an annual appraisal.

Help from volunteers gifts in-kind

Islamic Relief considers volunteers as the heart and soul of its operations and relies on them to be able to deliver its services. IRW undertakes the management of all its volunteers.

During 2010, volunteers in the UK alone contributed substantial hours of work to IRW operations by donating their time in the shops, through administration and by being involved in fundraising activities

Directors' and trustees' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law, the directors have elected to prepare the group and parent company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom accounting standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and company, and of the profit or loss of the group for that period.

In preparing those financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently
- make judgements and accounting estimates that are reasonable and prudent
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements
- prepare the financial statements on the going-concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and the group and enable them to ensure that the financial statements comply with the Companies Act 2006 and the Charity Commission Statement of Recommended Practice (SORP) 2005. They are also responsible for safeguarding the assets of the company and the group and hence taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Statement on disclosure of information to the auditors

In accordance with Section 418, directors' reports shall include a statement, in the case of each director in office at the date the directors' report is approved, that

- So far as the director/trustee is aware, there is no relevant audit information of which the company's auditors are unaware, and
- He has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Trustee responsibilities in relation to the financial statements

Company and charity law require the trustees to prepare financial statements for each financial year that give a true and fair view of the state of affairs of the charity and the group, and of the surplus or deficit of the group for that period. In preparing those financial statements, the trustees confirm that they have

- selected suitable accounting policies and applied them consistently
- made judgements and estimates that are reasonable and prudent

stated whether applicable accounting standards have been followed
disclosed and explained any material departures in the financial statements
prepared the financial statements on a going-concern basis

The trustees are responsible for ensuring that proper accounting records are kept, which disclose with reasonable accuracy at any time the financial position of the charity and the group, and enable the trustees to ensure that the financial statements comply with the Companies Act 2006 and the Charity Commission SORP 2005. They are also responsible for safeguarding the charity's and the group's assets and therefore for taking reasonable steps to prevent and detect fraud and breaches of law and regulations.

Website

The maintenance and integrity of the Islamic Relief Worldwide website is the responsibility of the trustees; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.

Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Financial and business review

We are a non-governmental, non-political humanitarian aid organisation with operations in more than 25 countries. We are dedicated to helping people in need and are accountable to our donors, supporters, beneficiaries, partners and all our stakeholders. Our activities in 2010 consisted of responding to humanitarian emergencies, addressing the long-term requirements of people in need, attempting to address the underlying causes of poverty, and promoting sustainable development.

Environment

We are among the Top 100 charities in the UK. Islamic Relief Worldwide (IRW) does not view itself as having competitors in the corporate sense but rather fellow organisations operating in the same sector, working towards the common goal of providing humanitarian relief and alleviating suffering. This is illustrated, for example, by the joint working partnership of the leading charities through the Disasters Emergency Committee (DEC).

We are committed to ensuring that Islamic Relief meets all regulations and laws governing charities and has the appropriate technology and systems in place to meet the requirements of the donor, beneficiary and regulatory bodies.

With the downturn in the global economy we are taking measures to manage our cash-flow carefully, strengthen our reserves and provide a greater service to our individual donors through whom IRW receives the majority of its funding.

Ethos

We combine honesty and transparency with Islamic values. Accountability before the Creator and our stakeholders are at the core of our ethos.

Income and funding

Our growth in voluntary income continued to grow steadily on average. The five-year trend shows an increase from £26.4 million in 2006 to £50 million in 2010.

Aims

To increase our voluntary income to £45 Million in 2010

2010 was a successful year due to the generosity of our donors and this saw our total income reach £64 million. This enabled Islamic Relief to continue and expand its charitable activities in both disaster-response and sustainable development programmes.

	2010	2009	2008	2007	2006
Voluntary income	£50.1m	£41.2m	£33.8m	£28.9m	£26.4m
Increase %	22%	22%	17%	9%	-25%

Funding from Institutional donors

Aims.

To work in partnership with numerous humanitarian organisations to facilitate cooperation, coordination and communication in delivering effective programmes

We continued our commitment to the Millennium Development Goals through the Partnership Programme Agreement with the Department for International Development (DfID) in the UK, and the aims of our strategy reflect our contribution to achieving these essential global targets

	2010	2009	2008	2007	2006
Grants	£9 6m	£14 4m	£11 4m	£8 7m	£7 7m
% of total Income	15%	26%	24%	22%	21%

Note 5 to the financial statements (lists the names of organisations that have made charitable donations, and further details of donations to individual projects are shown in Notes 35 and 36

Islamic Relief Global Family

Aims:

To work in partnership with Islamic Relief Global Family, thereby maximising our ability to effectively deliver to our beneficiaries

Refer to Section who we are/what we do – to see the Islamic Relief Global Family

Islamic Relief partners fund humanitarian programmes in advance of IRW's commitment to incur the expenditure, thereby reducing the need to use unrestricted funds

The Islamic Relief Global Family continued to increase of funding for Islamic Relief humanitarian programmes

Note 9 to the Financial Statements shows total funds received by Partner

Note 37 to the Financial Statements shows funds received by Partner by project funded

	2010	2009	2008	2007	2006
Donations from overseas partners	£22 2m	£18 4m	£17 2m	£11 4m	£13 4m
% of total Income	34%	31%	36%	28%	36%

Expenditure

Note the increase in the expenditure of the trading subsidiary relates to TIC International commencing the management of the Qurbani canning programme previously undertaken by IRW,

Aims:

To maintain our expenditure within our projected income of £46 million

Utilising our reserves we were able to increase our charitable expenditure from £43 million to £49 million during 2010

An overview of the expenditure by category shows how the expenditure has always been in line with the previous year This ensures sustainable development of our charitable activities

Charitable Expenditure

The fact that our charitable expenditure remains in line with the previous year indicates our commitment to ensuring and delivering long-term sustainable development to beneficiaries, long after the emergency phase is over and the media attention has faded

	2010	2009	2008	2007	2006
Charitable expenditure	£48.7m	£42.5m	£33.8m	£31.7m	£34.0m
% increase	15%	26%	7%	-7%	9%

Fundraising

Aims

To increase our marketing and fundraising activity in the UK to raise £17.5 million Refer to Section who we are/what we do – to see the Islamic Relief Global Family

We exceeded this target by raising £21 million voluntary income in the UK (Note 2)

The growth of income in the five-year period shown is an indication of increased donations, as a result of fundraising activities in the UK, the Middle East, other regions and by our overseas partners, through community-based and other initiatives

	2010	2009	2008	2007	2006
Return on fundraising	£50.1m	£41.2m	£33.8m	£28.8m	£27.1m
Cost of fundraising	£5.8m	£5.0m	£4.5m	£4.8m	£5.0m
Cost %	8.6	8.3	7.5	6.0	5.4

Fundraising expenditure includes amounts related to specific campaigns during 2010 (£2.9 million or 51% of the fundraising expenditure), 2009 (£2.5 million or 46% of the fundraising expenditure)

Note 17 to the Financial Statements shows fundraising expenditure by category

Reserves

We are undergoing a major restructuring. Reserves are held by Islamic Relief to ensure that adequate funds are available to meet obligations in emergencies, and that operations are not affected due to an absence of funds. Sufficient protection is built in to ensure there is no disruption of our global operations.

Performance of the trading subsidiary

TIC International Ltd performance in 2010 has exceeded the Directors' estimated profitability. This was achieved by efficiency measures and the support and commitment of our dedication from our staff.

The programme to improve the look and feel of the charity shops continued and several shops have been refurbished with more planned in 2011.

TIC International Ltd continues to improve its performance year by year. Total turnover amounted to over £4.4m in 2010. The operating profits, before gift aid of £319k, an increase of 89% on previous year's operating profits before gift aid.

A two-year programme to improve the look and feel of the charity shops has started and several shops have been refurbished with more planned in 2010.

TIC International Ltd donates profits generated to IRW. During 2010, TIC made a gift aid payment of £219,446 (2009: £100,000).

Challenges

We are working towards formulating the strategy for the period 2011-2015, which provides the strategic direction for an ongoing commitment to ensure our humanitarian operations are contributing to a fairer, kinder world. The current strategy document is available on our website at www.islamic-relief.com/Whoweare/PartnershipNewslettersMain.aspx?depID=2

The strategy will allow us to improve how we evaluate Islamic Relief's performance and measure the impact of our work. The purpose and rationale behind the strategy is to ensure that IRW is adequately positioned to meet any challenges and ensure that

the needs of beneficiaries are adequately and effectively met

communication with donors is effective

there is greater awareness of IRW's humanitarian programmes

continuous improvement is made to the delivery and quality of the service

To ensure that any challenges are overcome, IRW

set out its strategy for 2011–2015, and this is reviewed and used to monitor the achievements of deliverables

has invested in developing strong teams that ensure effective delivery of humanitarian programmes, fundraising, awareness raising and providing support activities

has enhanced performance monitoring through the Performance Improvement Unit and Internal Audit Unit has trained staff prepared for immediate mobilisation in the event of an emergency

Financial risk management

The following statements summarise our policy in managing identified forms of risk

Price risk

Salary costs are communicated to staff based on the assessment of each individual position by a job evaluation group. Prices of materials and supplies bought are subject to contracts with suppliers based on current market prices and, where applicable, tendering processes

Credit risk

Credit risk on amounts owed is low as the majority of debtors are institutional donors with whom there are signed agreements

Foreign exchange risk

The fluctuations in foreign exchange during the current economic climate is being carefully managed by ensuring that, where feasible, income and expenditure is in the same currencies

Liquidity risk

We have an interest-free bank loan that was taken out to buy our premises in London. We have arrangements to ensure that appropriate balances are maintained in line with the loan arrangement

We have commitments of funding from our partner offices, which have agreed to provide funds for the humanitarian programmes we implement

To ensure that there are sufficient funds for ongoing humanitarian programmes, we have made arrangements with our partners to ensure that there are specific funding agreements for all programmes. Arrangements have also been made to receive funds from partners before a programme starts, this reduces the impact of unfounded programmes on unrestricted reserves and ensures sufficient funds are available to respond to emergencies.

Interest rate cash-flow risk

We have favourable arrangements with our bankers whereby we neither pay nor receive interest, and the bankers refund all bank charges.

Reputation risk

We ensure that IRW abides by local laws and regulations and undertakes thorough screening processes of any partners it may work with, in accordance with money laundering regulations. Furthermore, we are committed to the People in Aid Code of Good Practice and have formal recognition from People In Aid.

Reserves

Reserves are held by Islamic Relief to ensure that adequate funds are available to meet obligations in emergencies, and that operations are not affected due to an absence of funds. Sufficient protection is built in to ensure there is no disruption of our global operations.

Aims.

To discharge funds received as donations for our humanitarian programmes as quickly and as practically as possible.

The current target range is seven months reserves of the core operational budget plus an appropriate amount for emergencies. These funds are held in current and medium-term cash forms.

The general rule is that the amount of reserves held in current accounts should be 25% of the net reserves or 25% of the operational budget – whichever is greater. Fifty-five percent of net reserves are to be maintained in medium-term investments, with the possibility of converting such investments into funds within a maximum period of three months. The remaining 20% of net reserves, as well as endowments and other long-term reserve contributions to IRW, can be maintained in fixed investments that would take longer to convert to funds. The table below and charts overleaf illustrate this policy for 2010 and 2009.

Post balance sheet, the Board of Trustees has reviewed the reserves policy and this incorporates an evaluation of risk. The Board of Trustees has proposed to amend the reserves policy, setting a limit on the use of unrestricted reserves over and above which approval would be needed from the board. Reserves are monitored and amendments are proposed to both the policy and the level of reserves held.

Aims:

To increase our unrestricted funds by 10%.

Islamic Relief reserves increased by 14% these are made up of £22 million restricted reserves and £6.4 million unrestricted reserves

Note 33 to the Financial Statements shows restricted funds held by Country

Restricted reserves increased by 11%, reflecting income received during the year primarily for Palestine and Pakistan

Unrestricted reserves remained at the same level as we ensured more targeted funding for projects, reducing the need to use unrestricted funds

Most donors giving to Islamic Relief specify how they expect their donation to be used. Some funds are only restricted by country, which enables us to carry out projects required in that specific country. Other restrictions relate to sector of work, for example, water and sanitation or education.

Investment policy and performance

Ethical investment policy

Our investment policy is based on Islamic finance principles. Our investments will not be made in companies engaged in promoting, producing or trading in any of the following: weapons, pornography, alcoholic beverages, gambling, usury or any other areas deemed as inappropriate to the vision, mission and values of Islamic Relief, as stated by the Board of Trustees.

Investment properties

Islamic Relief holds an investment property in Paris through SIF Invest that has been rented to Secours Islamique, our partner in France. SIF Invest is incorporated in France and effectively owns the investment property. IRW owns 99% of the share capital of SIF Invest. SIF Invest's sole function is managing the property rented out to Secours Islamique. It does not engage in any other trading activities.

Islamic Relief has an investment in TIC International Ltd, which is a wholly owned trading subsidiary of IRW.

Note 25 to the Financial Statements shows the details of the investment held in SIF Invest and TIC International Ltd.

Endowment (Waqf) investments

Waqf is the Islamic concept of endowment where the capital is invested and either the returns spent on charitable purposes, or the expenditure is incurred on Waqf projects that are long term in nature.

The history of Waqf

From the early days of Islam, Waqf generally took the form of a donated property or an institution to help others. For example, houses were converted to inns for travellers and waterways were built to bring water to villages.

Waqf played a key role in the development of Islamic civilisations as Muslims began to donate their pieces of land for mosques. As mosques provide the main logistic for the teachings of Islamic knowledge and culture, the Waqf tradition was then expanded into buildings of centres of education, hospitals, public facilities and residential areas, some of which are still used today.

Waqf today

Today, Islamic Relief has the inspiration to continue to build this important branch of Islamic charity. IRW invests the Waqf capital it receives and uses 80% of the returns on charitable projects. The remaining 20% is used to reinvest in the capital amount and to cover administrative costs.

Waqf funds are invested in properties used by Islamic Relief that would otherwise have to be rented.

The various sections of the organisation that use the premises pay the rent for it, including the UK operation (Lower Marsh, London), international operations (Rea Street, Birmingham) and the subsidiary companies TIC International (Landor Street, Birmingham) and SIF Invest (Paris, France).

Waqf funds are endowments held to generate further funds. Currently, IRW has invested these funds in properties. The yield of investment is 7% for 2010, which amounted to £203,751 for 2010 (2009: £182,933).

Our Waqf programme has been a success because, every year, as well as providing Islamic Relief with premises to continue providing valuable services to humanity, the return on the Waqf investments allow us to implement charitable projects to help the poor and needy. These include projects relating to Qurbani, Feed the Needy, and focusing on our key aims of responding to emergencies, caring for orphans, supporting education and promoting sustainable livelihoods.

The charity's assets

The fixed assets held by the charity include the properties held for its own use at 19 Rea Street South, and Sampson House, Sampson Road North in Birmingham. These properties comprise offices and were bought in 1992 and 2005 respectively. The value included in the balance sheet comprises the original cost of the properties in 1992 and 2005, plus the cost of major improvements since their purchase. In 2002, we bought a second property in Birmingham, which comprises a large warehouse and small offices. It is used by the trading subsidiary TIC International Ltd for additional warehouse space. In 2008, IRW acquired 16 Lower Marsh, London SE1, which comprises offices, for its own use.

Supplier payment policy and practice

It is the policy of Islamic Relief that payments are made to suppliers in accordance with those terms and conditions agreed between IRW and its suppliers, provided that the supplier is also complying with relevant trading terms and conditions.

Note 28 to the Financial Statements shows the amount of trade creditors outstanding at the year end.

Auditors

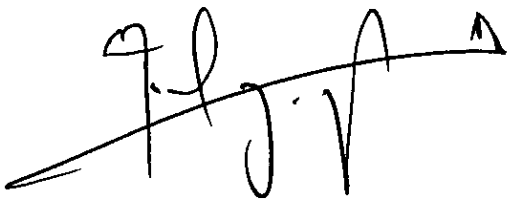

A resolution to re-appoint PricewaterhouseCoopers LLP as auditors will be put to the members at the Annual General Meeting

By the order of the board

Mr Ibrahim El-Zayat

Vice Chairman

07 October 2011

A handwritten signature in black ink, appearing to be 'I. El-Zayat', with a long horizontal stroke extending to the right.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF ISLAMIC RELIEF WORLDWIDE

We have audited the financial statements of Islamic Relief Worldwide for the year ended 31 December 2010 which comprise the Group Statement of Financial Activities and Income and Expenditure Account, the Group and Charity Balance Sheets, the Group Cash Flow Statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Respective responsibilities of trustees and auditors

As explained more fully in the Directors' and Trustees' Responsibilities Statement set out on page 44, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

We have been appointed as auditors under section 44(1)(c) of the Charities and Trustee Investment (Scotland) Act 2005 and under the Companies Act 2006 and report in accordance with regulations made under those Acts.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the charity's members and trustees as a body in accordance with section 44(1)(c) of the Charities and Trustee Investment (Scotland) Act 2005 and regulation 10 of the Charities Accounts (Scotland) Regulations 2006 (as amended) and Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the group's and the charity's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the trustees, and the overall presentation of the financial statements.

Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the group's and the parent charitable company's affairs as at 31 December 2010 and of the group's incoming resources and application of resources, including the group's income and expenditure and cash flows, for the year then ended,
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the Companies Act 2006, the Charities and Trustee Investment (Scotland) Act 2005 and regulations 6 and 8 of the Charities Accounts (Scotland) Regulations 2006 (as amended).

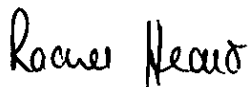

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Trustees' Annual Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 and the Charities Accounts (Scotland) Regulations 2006 (as amended) require us to report to you if, in our opinion:

- the parent charitable company has not kept proper and adequate accounting records or returns adequate for our audit have not been received from branches not visited by us, or
- the parent charitable company's financial statements are not in agreement with the accounting records or returns, or
- certain disclosures of trustees' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit.

NOTES TO THE FINANCIAL STATEMENTS

1 Principal accounting policies

a. Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards, the Companies Act 2006 and adhering to the Revised Statement of Recommended Practice Accounting and Reporting by Charities (SORP 2005) effective since April 2005. The financial statements are prepared on the accruals concepts and going-concern basis thus presuming that the company will continue in business and the accounting policies mentioned have been consistently applied.

b. Consolidation and group financial statements

Islamic Relief Worldwide (IRW) is a charitable company limited by guarantee. Its main activities are delivering emergency aid to parts of the world affected by natural or unnatural disasters and setting up various development projects that help empower people in need.

The group financial statements consolidate those of Islamic Relief Worldwide and its trading subsidiary TIC International Limited and its property investment company SIF Invest. The results of TIC International Limited and SIF Invest have been incorporated on a line-by-line basis, in accordance with current legislation.

Islamic Relief Worldwide has taken advantage of section 399–402 of the Companies Act 2006 and paragraph 397 of the SORP and has not included its own income and expenditure account in the financial statements.

Note 10 gives the full details of the income and expenditure of the trading subsidiary TIC International Limited is considered to be an intrinsic part of the charity's programme to relieve poverty in any part of the world. The donated items are a constant source of relief supplies.

Note 10 also gives the full details of the income and expenditure of the French subsidiary company SIF Invest, a company incorporated in France. Islamic Relief Worldwide owns 99% of the share capital of SIF Invest. The results have been consolidated within these financial statements.

The charity's overseas fundraising offices and field offices are established as separate independent legal entities in their own jurisdictions and, consequently, their results are not included within these consolidated financial statements.

c. Fund accounting

Islamic Relief Worldwide has various types of funds for which it is responsible, and which require separate disclosure.

Unrestricted funds All donations are considered unrestricted unless specifically stated by the donor. Unrestricted funds comprise the accumulated surplus or deficit on the statement of financial activities which are available for use at the discretion of the trustees of Islamic Relief Worldwide in furtherance of the objectives of the charity. Islamic Relief Worldwide may incur costs on projects before the relevant restricted income is received. Therefore, income generated from restricted funds in this scenario is treated as unrestricted funds to cover the pre-financing costs of the project incurred.

Designated funds The trustees may at their discretion set aside unrestricted funds for specific purposes. Refer to Note 31. The designated fund for fixed assets is that part of unrestricted funds that represent fixed assets held. Refer to Note 31.

Restricted funds These are assigned by the donor, or the terms of the appeal, specified by a particular country or project. The donation and income deriving from them will be used in accordance with the specific purposes.

Endowment (waqf) funds These are funds that have been given to Islamic Relief Worldwide subject to the restriction that they are to be held as capital or spent on a long-term charitable asset. Waqf is employed to generate a return while the original investment remains intact. Waqf returns are used to cater for long-term projects. The Waqf is the Islamic equivalent of endowments.

d. Incoming resources and investment income

All incoming resources are included in the Statement of Financial Activities (SOFA) when the charity is legally entitled to the income and the amount can be quantified with reasonable accuracy and there is certainty of receipt.

Voluntary income Comprises all incoming resources from donations and income from fundraising partners on the basis of that which is remitted to Islamic Relief Worldwide in the United Kingdom. Where a claim for repayment of income tax has been or will be made, such income is included in the debtors' amount if still not received by the year end.

Grants Where related to performance and specific deliverables these are accounted for, as the charity earns the right to consideration by its performance.

Activities for generating funds Comprise income generated by TIC International Limited, from its trading activities and its charity shops and the sale of merchandise.

Investment income Comprises income generated by waqf investment and rents receivable. Income generated from Waqf forms part of the endowment funds.

Gifts in kind Where donated for distribution these are included at the value to the charity, having regard to the costs of bringing the goods to a suitable state for distribution in the field and recognised as income and expenditure at the same value and time.

Gifts in kind include food, clothing, medical supplies and office equipment received from United Kingdom donors. Gifts in kind sent to Islamic Relief offices in other countries directly from the donor are not included in these financial statements. For example, the World Food Programme supplies Islamic Relief Russia with essential food supplies for distribution to Chechens. These goods are received directly into the Islamic Relief warehouses in Russia and are not included in our United Kingdom accounts.

Donated services No amounts are included in the financial statements for services donated by volunteers because these amounts cannot be quantified with reasonable accuracy. For further details see the trustees' report.

e. Recognition of liabilities

Liabilities are recognised on the accruals basis in accordance with normal accounting principles, modified where necessary in accordance with the guidance given in the Statement of Recommended Practice for Accounting and Reporting (effective since April 2005) issued by the Charity Commission.

NOTES TO THE FINANCIAL STATEMENTS

f. Resources expended

All expenditure is accounted for on an accruals basis and is recognised where there is a legal or constructive obligation to pay. Expenditure has been classified under headings that aggregate all costs related to that category.

Costs of generating funds are costs incurred in attracting voluntary income, and those as stated below under the headings Costs of generating voluntary income, Fundraising trading and Awareness-raising.

Costs of generating voluntary income The costs incurred in seeking voluntary contributions.

Fundraising trading Comprises the group's trading activities, namely the costs associated with the trading activities of TIC International Limited.

Awareness-raising Those costs associated with disseminating information and raising the profile of the charitable activities of Islamic Relief Worldwide.

Investment management cost This incorporates costs related to the administration of waqf and costs relating to the promotion of the concept of waqf from unrestricted funds, therefore this element is not charged to capital.

Charitable activities Costs associated with the provision of emergency relief and development humanitarian programmes as elaborated on in the trustees report section, Activities, Achievements and Performance. These include both the direct costs and support costs relating to these activities.

Governance costs The costs associated with the governance arrangements of Islamic Relief Worldwide, included within this category are costs associated with the strategic as opposed to day-to-day management of Islamic Relief Worldwide's activities. This includes such items as internal and external audit, legal advice, and costs associated with constitutional and statutory requirements.

Support costs Support costs to a single activity are allocated directly to that activity. Where support costs relate to several activities, support costs have been allocated to each of the activities (stated in Note 18) on the basis of the number of direct staff supported during the period in the relevant activity. Governance support costs are allocated on the basis of support activities provided on clearly interpreted governance matters.

The number of staff involved in an activity is deemed to be the appropriate basis for allocating support costs as it closely reflects the resource usage of the support functions of the core activities. The number of staff working on a particular activity is determined by the estimated equivalent time devoted by a full-time member of staff to perform the task. Support costs that represent the support functions of management, finance and accounts, human resources, IT and offices facilities are allocated to each activity, based on the number of staff performing a particular activity in relation to the total number of staff performing all core activities.

Grants are charged to the SOFA when a constructive obligation exists, notwithstanding that they may be paid in future accounting periods.

g. Operating leases

Rentals applicable to operating leases (where substantially all of the benefits and risks of ownership remain with the lessor) are charged against income as incurred. Rental costs under operating leases are charged to the profit and loss account in equal annual amounts over the period of the lease.

h. Foreign currencies

Transactions in foreign currencies are recorded at the rate of exchange ruling at the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the exchange-rate ruling at the balance-sheet date, and the gains or losses are included in the income and expenditure account.

i. Fixed assets and depreciation

All expenditure of a capital nature is capitalised at cost as fixed assets with items costing below £500 being fully depreciated during the year of purchase. Assets that are subject to amortisation are tested for impairment whenever events or changes in circumstance indicate that the carrying amount may not be recoverable. Intangible assets represent the organisation's registered trade marks.

Tangible fixed assets are stated at historic purchase cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Depreciation is calculated to write off the cost of tangible fixed assets, less their residual values, over their expected useful lives using the straight-line basis. The expected useful lives of the assets to the business are reassessed periodically in the light of experience.

Freehold land and buildings	Over 50 years straight-line basis
Fixtures and fittings	Over 8 years straight-line basis
Office equipment	Over 4 years straight-line basis
Motor vehicles	Over 5 years straight-line basis
Plant and machinery	Over 8 years straight-line basis

j. Intangibles

Trademarks are stated at cost less any impairment loss. The useful life of the trademarks is estimated to be 10 years, based on the life of trademarks. They are amortised and tested for impairment annually where indicators of impairment are identified.

k. Stocks

Stocks and work in progress are stated at the lower of cost and net realisable value. Net realisable value is based upon estimated selling prices less further costs expected to be incurred for completion and disposal.

l. Investments

Long-term investments are classified as fixed assets and stated at current value. They consist of subsidiary undertakings, unlisted investments and property. Short-term investments are classified as current assets. Provision is made for any impairment in the value of fixed-asset investments.

m. Provisions

Provisions are recognised when the charity has a present legal or constructive obligation as a result of a past event, where it is probable that a transfer of economic benefit will be incurred and this transfer can be reliably estimated.

n. Pension costs

The charity operates a group personal pension scheme, which effectively means that all employees who join the scheme have their own pension plan. The contributions made by the charity are charged as expenditure in the year.

o. Taxation

As a registered charity, the company is exempt from income and corporation tax to the extent that its income and gains are applicable to charitable purposes only. Value added tax (VAT) is not recoverable by the company, and is therefore included in the relevant costs in the statement of financial activities.

*Funding for humanitarian core aim programmes are donations that do not specify restriction by sector or country and facilitate us to deliver emergency and development assistance to beneficiaries across the globe, especially in those countries that no longer receive media attention

**A term in Islam to refer to the obligation that an individual has to donate a certain proportion of wealth each year to charitable causes. Zakat has an important social aspect, because it helps the needy and creates a fairer society

Islamic Relief Worldwide applies the Zakat in accordance with the legislative usage as specified in the Qur'an. Thus it is primarily applied to humanitarian programmes that benefit poor and needy beneficiaries with basic needs

7 Total income generated in the United Kingdom

NOTES TO THE FINANCIAL STATEMENTS

33 Restricted income funds

Restricted funds are funds subject to specific trusts which have been declared by the donors at the time of donation or created through legal process. All restricted funds of Islamic Relief Worldwide have been used to implement specific humanitarian projects in particular areas of the world stated above. Projects implemented include emergency response intervention development programmes to help vulnerable people restart their lives and to provide long-term sustainable benefits for a community including orphan sponsorship, health and nutrition, water supply and sanitation projects, agricultural projects, income generation, and educational projects.

Inter-funds transfers of £4,092,251 from unrestricted funds have been made to restricted funds to cover deficit on various projects. Zakat funds (annual religious payments by able Muslims to help the poor) have been used to cover shortfalls in emergency health, sustainable livelihood and water and sanitation projects implemented in various countries including Bangladesh, Kenya, Niger, Sudan and Yemen.

Funds held for specific countries may have further restrictions on the type of fund, thus the transfer from unrestricted funds covers the shortfall in category-specific funds. This was the case in Bangladesh, Kenya, Niger and Pakistan, which were allocated unrestricted funds to cater for the shortfall in the specific category of fund.

Negative funds balances are only carried forward when there is a reasonable expectation that funds will be received from donors for costs already incurred as detailed overleaf.

A. AFRICA Funds are raised under an Africa appeal to be applied to projects within African countries. The transfer out of the Africa funds has been used to cover health projects in Ethiopia.

B. ASIA Funds are raised under an Asia appeal to be applied to projects within Asian countries. The transfer out of the Asia funds has been used to cover emergency projects in Bangladesh.

C. BANGLADESH Expenditure has been incurred in the Health, Education and Livelihood project, funded by EC in 2010.

D. BOSNIA-HERZEGOVINA Expenditure has been incurred in the Well drilling and Water project, funded by IR Switzerland and One Dream in 2010.

E. EASTERN EUROPEAN Funds are raised under a Eastern Europe appeal to be applied to projects in Eastern European countries. The transfer out of Eastern Europe funds was used to cover a health project in Kosovo.

F. SOMALIA Expenditure has been incurred in the Emergency support project, funded by ECHO in 2010.

G. SOUTH EAST ASIA The Southeast Asia fund was accumulated as a result of the Tsunami response appeal. The transfer out of Southeast Asia fund indicates funds used to cover Tsunami emergency projects in Indonesia.

H. YEMEN Expenditure has been incurred in the health, water and environment project, funded by Islamic Relief USA in 2010.

I. QURBANI The Qurbani projects involve the distribution of meat as a result of the Eid Al Adha celebration (the celebration of sacrifice).

J. RAMADAN The Ramadan projects relate to a programme of feeding the needy during the Muslim month of Ramadan.

K. WATER AND SANITATION The funds raised under Water and Sanitation have been utilised to under water and sanitation projects within the countries listed on the previous page.

Funders' key:

DEC Disasters Emergency Committee

DFID United Kingdom Department for International Development

EC European Commission

ECHO European Commission Humanitarian Aid Office

IDRF International Development and Relief Foundation

UNDP United Nations Development Programme

Total	2,954,408	602,732	59,752	158,829	3,338,559

Waqf funds are permanent endowment funds that are held within the charity to generate further funds. These are currently invested in the properties of Islamic Relief Worldwide. Waqf investments give a 7% annual return on capital from which projects are implemented for the purpose of waqf shares. A proportion of the return is also added back to the capital to ensure growth for reinvestment in future years. In 2010 income from these waqf investments amounting to £ will finance future long-term sustainable humanitarian development projects.

NOTES TO THE FINANCIAL STATEMENTS

38 United Kingdom donations

We would like to sincerely express our gratitude to our donors in the United Kingdom – individuals, corporations, institutions and others who have generously donated, which has enabled us to deliver the emergency and development assistance to beneficiaries across the globe. While emergencies may receive more media attention the assistance and support of our donors means we continue to deliver humanitarian programmes in countries that are out of the media spotlight. Our sincere thanks to all our donors who facilitate us to reach beneficiaries in need. Thank you.

This note highlights some of the projects that have been made possible through your support and donations.
