Yorkshire Electricity Group plc Strategic Report for the Year Ended 31 December 2018

The directors present their their strategic report for the year ended 31 December 2018 for Yorkshire Electricity Group plc (the "Company").

BUSINESS REVIEW

The Company is part of the Northern Powergrid Holdings Company group of companies (the "Northern Powergrid Group") and acts as an investment company, maintaining its investments in Yorkshire Power Finance Limited and Northern Powergrid (Yorkshire) plc ("NPg Yorkshire").

The profit after tax for the financial year ended 31 December 2018 was £37.2 million (2017: £35.4 million). The favourable variance was mainly due to a higher interim dividend of £31.2 million from NPg Yorkshire (2017: £29.8 million) and an interim dividend of £0.1 million from Yorkshire Power Finance Limited (2017: £nil).

KEY PERFORMANCE INDICATORS -

The directors manage the Company's operations on a group basis. The development, performance and position of the Northern Powergrid Group, which include those of the Company, are discussed in the annual report and financial statements of Northern Powergrid Holdings Company.

PRINCIPAL RISKS AND UNCERTAINTIES

The principal risks and uncertainties of the Company are integrated with the principal risks of the Northern Powergrid Group and are not managed separately. Accordingly, the principal risks and uncertainties, which include those of the Company, are discussed in the annual report and financial statements of Northern Powergrid Holdings Company.

Approved by the Board on 15 April 2019 and signed on its behalf by:

P A Jones Director

Yorkshire Electricity Group plc Directors' Report for the Year Ended 31 December 2018

The directors present their report with the audited financial statements of the Company for the year ended 31 December 2018.

Dividends

During the year, interim dividends of £198.0 million were paid (2017: £23.0 million). The directors recommend that no final dividend be paid in respect of the year (2017: £nil).

Directors of the Company

The directors shown below have held office during the year from 1 January 2018 and up to the date of signing:

T E Fielden

J M France (resigned 5 April 2018)

T H France

P A Jones

During and as at the end of the year, none of the directors had any interest in any contract which was significant in relation to the business of the Company.

During the year an indemnity contained in the Company's Articles of Association was in force for the benefit of the directors of the Company and as directors of associated companies, which was a qualifying third party indemnity provision for the purposes of the Companies Act 2006.

Future developments and future outlook

There have been no significant events since the year end. The Company will continue to act as an investment company. There are no plans to change the existing business model.

Financial risk management

Details of financial risks are covered in note 16, within the notes to the financial statements.

Brexi

The Brexit negogiations are not considered a principal risk to the Company.

CORPORATE GOVERNANCE STATEMENT

The directors have elected to apply the exception set out in Section 1B.1.6R of the Disclosure and Transparency Rules ("DTR").

Audit committee

The board of Northern Powergrid Holdings Company has established an audit committee for the Northern Powergrid Group under delegated terms of reference which carries out the functions required by DTR 7.1.3 R.

Committee members:

- J Reynolds Non-executive Director Northern Powergrid Holdings Company (Chairman)
- * TE Fielden Finance Director
- M Knowles Independent member Northern Powergrid Holdings Company (appointed 17 July 2018)

Yorkshire Electricity Group plc Directors' Report for the Year Ended 31 December 2018 (continued)

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, International Accounting Standard 1 requires the directors to:

- · Properly select and apply accounting policies;
- Present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- Provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to
 enable users to understand the impact of particular transactions, other events and conditions on the Company's
 financial position and financial performance; and
- Make an assessment of the Company's ability to continue as a going concern.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Going Concern

The financial statements have been prepared on the going concern basis which takes into account that the Company's wholly-owned subsidiary, NPg Yorkshire, is a stable electricity distribution business operating an essential public service, regulated by the Gas and Electricity Markets Authority. In addition, the Company has access to short-term borrowing facilities made available by other companies in the Northern Powergrid Group. There is no uncertainty in the financial statements that would affect the director's judgements. Accordingly the directors continue to prepare the accounts on the going concern basis.

Statement as to disclosure of information to auditor

Each of the directors, who is a director of the Company as at the date of this report, confirms that:

- · so far as he is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- he has taken all the steps he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of Section 418 of the Companies Act 2006.

Yorkshire Electricity Group plc Directors' Report for the Year Ended 31 December 2018 (continued)

Reappointment of auditor

Deloitte LLP will continue in office in accordance with the provisions in Section 487 of the Companies Act 2006 and has indicated its willingness to do so.

Approved by the Board on 15 April 2019 and signed on its behalf by:

P A Jones

Director

Yorkshire Electricity Group plc Independent Auditor's Report to the Members of Yorkshire Electricity Group plc

Report on the audit of the financial statements

-Opinion

In our opinion the financial statements of Yorkshire Electricity Group plc (the 'company'):

- give a true and fair view of the state of the company's affairs as at 31 December 2018 and of its profit for the
 year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the statement of profit or loss;
- the statement of comprehensive income;
- the statement of financial position;
- the statement of changes in equity;
- the statement of cash flows; and
- · the related notes 1 to 21

The financial reporting framework that has been applied in their preparation is applicable law and IFRS as adopted by the European Union.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the FRC's) Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast
 significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a
 period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

Yorkshire Electricity Group plc Independent Auditor's Report to the Members of Yorkshire Electricity Group plc (continued)

Other information

The directors are responsible for the other information. The other information comprises the information included in the Strategic Report and Directors' Report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this respect of these matters.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on other legal and regulatory requirements

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of our knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the director's report.

Yorkshire Electricity Group plc Independent Auditor's Report to the Members of Yorkshire Electricity Group plc (continued)

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- · the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1 General information

The Company is a public company limited by share capital, incorporated and domiciled in England and Wales and is part of the Northern Powergrid Holdings Company group of companies (the "Northern Powergrid Group").

The address of its registered office is Lloyds Court, 78 Grey Street, Newcastle upon Tyne, NE1 6AF.

2 Accounting policies

Statement of compliance

The Company's financial statements have been prepared in accordance with International Financial Reporting Standards and its interpretations adopted by the EU ("adopted IFRS's").

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

The financial statements have been prepared in accordance with adopted IFRSs and under historical cost accounting rules.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies.

The Company is exempt from preparing group financial statements as it is a wholly owned subsidiary of a parent undertaking preparing group financial statements. Further details of the registered address and parent company are available in note 21. Further details on the Company's accounting policies in relation to investments are available on page 16.

The nature of the Company's business model, strategic objectives, operations and activities are set out in the Strategic Report.

Going concern

The financial statements have been prepared on the going concern basis which takes into account that the Company's wholly-owned subsidiary, NPg Yorkshire, is a stable electricity distribution business operating an essential public service, regulated by the Gas and Electricity Markets Authority. In addition, the Company has access to short-term borrowing facilities made available by other companies in the Northern Powergrid Group. There is no uncertainty in the financial statements that would affect the director's judgements. Accordingly the directors continue to prepare the accounts on the going concern basis.

Changes in accounting policy

New standards, interpretations and amendments effective

The following have been applied for the first time from 1 January 2018 and have had an effect on the financial statements:

2 Accounting policies (continued)

IFRS 9 - Financial Instruments

A revised version of IFRS 9, Financial Instruments, was issued in July 2014 mainly to include: a) impairment requirements for financial assets; and b) limited amendments to the classification and measurement requirements by introducing a 'fair value through other comprehensive income' ("FVTOCI") measurement category for certain simple debt instruments. IFRS 9 has not had a material impact on amounts reported in respect of the Company's financial assets and financial liabilities.

IFRS 15 - Revenue from contracts with customers

In May 2014, IFRS 15, Revenue from Contracts with Customers, was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 11 Construction Contracts, IAS 18 Revenue and the related interpretations. The core principle of IFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Under IFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15. The application of IFRS 15 has not had a material impact on the Company's financial statements.

None of the other standards, interpretations and amendments effective for the first time from 1 January 2018 have had a material effect on the financial statements.

New standards, interpretations and amendments not yet effective

The following newly issued but not yet effective standards, interpretations and amendments, which have not been applied in these financial statements, will or may have an effect on the Company's financial statements in future:

IFRS 16 - Leases (1 January 2019)

IFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. IFRS 16 will supersede the current lease guidance including IAS 17 Leases and the related interpretations when it becomes effective. IFRS 16 distinguishes between leases and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions between operating leases and finance leases are removed for lessee accounting, and are replaced by a model where right-of-use asset and a corresponding liability have to be recognised for all leases by lessees except for short term leases and leases of low-value assets. As of 31 December 2018, the Company has no non-cancellable operating leases.

None of the other standards, interpretations and amendments which are effective for periods beginning after I January 2018 and which have not been adopted early, are expected to have a material effect on the financial statements.

21 Accounting policies (continued)

Revenue recognition

Revenue, which arises wholly in the United Kingdom, relates to an income stream in respect of the ownership of telecommunication assets. Applicable rental income regarding telecommunication masts is initially accounted for in the financial statements of Northern Powergrid (Yorkshire) plc along with their own masts but is transferred at the end of each quarter to the Company.

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established.

Finance income and costs policy .

All borrowing costs are recognised in profit or loss in the period which they are incurred.

Tax

The tax expense for the period comprises current tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the Company operates and generates taxable income.

Property, plant and equipment

Property, plant and equipment is stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Depreciation

Depreciation is charged so as to write off the cost of the assets to their residual values over their estimated useful lives of 10 years on a straight-line basis.

Investments

Investments in securities are classified on initial recognition as available-for-sale and are carried at fair value, except where their fair value cannot be measured reliably, in which case they are carried at cost, less any impairment.

Unrealised holding gains and losses other than impairments are recognised in other comprehensive income. On maturity or disposal, net gains and losses previously deferred in accumulated other comprehensive income are recognised in income.

Interest income on debt securities, where applicable, is recognised in income using the effective interest method. Dividends on equity securities are recognised in income when receivable.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

2 Accounting policies (continued)

Trade receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

Borrowings

All borrowings are initially recorded at the amount of proceeds received, net of transaction costs. Borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the income statement over the period of the relevant borrowing.

Interest expense is recognised on the basis of the effective interest method and is included in finance costs.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Dividends

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders.

2 Accounting policies (continued)

Financial instruments

Initial recognition

Financial assets and financial liabilities comprise all assets and liabilities reflected in the statement of financial position, although excluding property, plant and equipment, investment properties, intangible assets, deferred tax assets, prepayments, deferred tax liabilities and employee benefits plan.

The Company recognises financial assets and financial liabilities in the statement of financial position when, and only when, the Company becomes party to the contractual provisions of the financial instrument.

Financial assets are initially recognised at fair value. Financial liabilities are initially recognised at fair value, representing the proceeds received net of premiums, discounts and transaction costs that are directly attributable to the financial liability.

All regular way purchases and sales of financial assets and financial liabilities classified as fair value through profit or loss (FVTPL) are recognised on the trade date, i.e. the date on which the Company commits to purchase or sell the financial assets or financial liabilities. All regular way purchases and sales of other financial assets and financial liabilities are recognised on the settlement date, i.e. the date on which the asset or liability is received from or delivered to the counterparty. Regular way purchases or sales are purchases or sales of financial assets that require delivery within the time frame generally established by regulation or convention in the market place.

Subsequent to initial measurement, financial assets and financial liabilities are measured at either amortised cost or fair value.

Classification and measurement

Financial instruments are classified at inception into one of the following categories, which then determine the subsequent measurement methodology:

Financial assets are classified into one of the following three categories:

- · financial assets at amortised cost;
- · financial assets at fair value through other comprehensive income (FVTOCI); or
- · financial assets at fair value through the profit or loss (FVTPL).

Financial liabilities are classified into one of the following two categories:

- · financial liabilities at amortised cost; or
- · financial liabilities at fair value through the profit or loss (FVTPL).

The classification and the basis for measurement are subject to the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets, as detailed below:

2 Accounting policies (continued)

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

If either of the above two criteria is not met, the financial assets are classified and measured at fair value through the profit or loss (FVTPL).

If a financial asset meets the amortised cost criteria, the Company may choose to designate the financial asset at FVTPL. Such an election is irrevocable and applicable only if the FVTPL classification significantly reduces a measurement or recognition inconsistency.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- · the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investments that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

If an equity investment is designated as FVTOCI, all gains and losses, except for dividend income, are recognised in other comprehensive income and are not subsequently included in the statement of income.

Financial assets at fair value through the profit or loss (FVTPL)

Financial assets not otherwise classified above are classified and measured as FVTPL.

Financial liabilities at amortised cost

All financial liabilities, other than those classified as financial liabilities at FVTPL, are measured at amortised cost using the effective interest rate method.

Financial liabilities at fair value through the profit or loss

Financial liabilities not measured at amortised cost are classified and measured at FVTPL. This classification includes derivative liabilities.

2 Accounting policies (continued)

Derecognition

Financial assets

The Company derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire;
- it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred; or
- the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset and the sum of the consideration received is recognised as a gain or loss in the profit or loss.

Any cumulative gain or loss recognised in OCI in respect of equity investment securities designated as FVTOCI is not recognised in profit or loss on derecognition of such securities. Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Company is recognised as a separate asset or liability.

The Company enters into transactions whereby it transfers assets recognised on its statement of financial position, but retains either all or substantially all of risks and rewards of the transferred assets or a portion of them. In such cases, the transferred assets are not derecognised.

When the Company derecognises transferred financial assets in their entirety, but has continuing involvement in them then the entity should disclose for each type of continuing involvement at the reporting date:

- (a) The carrying amount of the assets and liabilities that are recognised in the entity's statement of financial position and represent the entity's continuing involvement in the derecognised financial assets, and the line items in which those assets and liabilities are recognised;
- (b) The fair value of the assets and liabilities that represent the entity's continuing involvement in the derecognised financial assets;
- (c) The amount that best represents the entity's maximum exposure to loss from its continuing involvement in the derecognised financial assets, and how the maximum exposure to loss is determined; and
- (d) The undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee for the transferred assets.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled, or expire.

2 Accounting policies (continued)

Modification of financial assets and financial liabilities

Financial assets

If the terms of a financial asset are modified, the Company evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to the cash flows from the original financial asset are deemed to expire. In this case the original financial asset is derecognised and a new financial asset is recognised at either amortised cost or fair value.

If the cash flows are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Company recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in the statement of income.

Financial liabilities

If the terms of a financial liabilities are modified, the Company evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual obligations from the cash flows from the original financial liabilities are deemed to expire. In this case the original financial liabilities are derecognised and new financial liabilities are recognised at either amortised cost or fair value.

If the cash flows are not substantially different, then the modification does not result in derecognition of the financial liabilities. In this case, the Company recalculates the gross carrying amount of the financial liabilities and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in the statement of income.

Accounting estimates and assumptions

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of certain financial assets, liabilities, income and expenses.

The use of estimates and assumptions is principally limited to the determination of provisions for impairment and the valuation of financial instruments as explained in more detail below:

Provisions for impairment

In determining impairment of financial assets, judgement is required in the estimation of the amount and timing of future cash flows as well as an assessment of whether the credit risk on the financial asset has increased significantly since initial recognition and incorporation of forward-looking information in the measurement of ECL.

Fair value of financial assets and liabilities

Where the fair value of financial assets and liabilities cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is derived from observable markets where available, but where this is not feasible, a degree of judgement is required in determining assumptions used in the models. Changes in assumptions used in the models could affect the reported fair value of financial assets and liabilities.

3 Critical accounting judgements and key sources of estimation uncertainty

In the preparation of financial statements in conformity with IFRS the directors did not identify any critical accounting judgements or key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

4 Revenue

The analysis of the Company's revenue for the year from continuing operations is as follows:

Rental income from telecommunication assets	2018 £ 000 659	2017 £ 000 610
5 Finance income and costs		
•	2018 £000	£ 000
Finance income		
Interest income on bank deposits	17	80
Dividend income	31,319	29,800
Interest receivable on Inter Company Loans	10,822	9,299
Total finance income .	42,158	39,179
Finance costs		
Interest on bank overdrafts and borrowings	-	(1)
Interest paid to group undertakings	(4,171)	(3,022)
Total finance costs	(4,171)	(3,023)
Net finance income	37,987	36,156

6 Employees and directors

No directors' or key personnel remuneration was charged for the year (2017: £nil). There were no employees during the year (2017: £nil).

At 31 December 2018 no directors accrued benefits under a defined benefit scheme (2017: one).

Auditor's remuneration 2018 2017 £ 000 £ 000 Audit of the financial statements 8 Income tax Tax charged in the income statement 2018 2017 £ 000 £ 000 Current taxation 1,391 1,340 UK corporation tax The tax on profit before tax for the year is the same as the standard rate of corporation tax in the UK (2017 - the

The tax on profit before tax for the year is the same as the standard rate of corporation tax in the UK (2017 - the same as the standard rate of corporation tax in the UK) of 19% (2017 - 19.25%).

The differences are reconciled below:

	2018 £ 000	2017 £ 000
Profit before tax	38,639	36,759
Corporation tax at standard rate Increase in current tax from adjustment for prior periods	7,341 1	7,076
Decrease from effect dividends from UK companies	(5,951)	(5,736)
Total tax charge	1,391	1,340

Finance Act No.2 2015 included provisions to reduce the corporation tax from 20% to 19% with effect from 1 April 2017 and Finance Act 2016 introduced a further reduction in the main rate of corporation tax to 17% from 1 April 2020.

Deferred Taxation

The Company has no deductible temporary differences, unused tax losses nor unused tax credits for which no deferred tax asset is recognised in the Statement of Financial Position.

Yorkshire Power Finance Limited	Finance company	PO Box 309, Ugland House, South Church Street, George Town, Grand Cayman Cayman Islands	1%	1%

10 Investments (continued)

The Company's financial statements are separate financial statements in that it has elected not to prepare consolidated financial statements, as entitled under IAS 27 and Section 400 of the Companies Act 2006 as it is included in the consolidated accounts for a larger group with accounts drawn up to the same date. Northern Powergrid Holdings Company, a company incorporated in England and Wales and whose address is Lloyds Court, 78 Grey Street, Newcastle upon Tyne, NE1 6AF, is the entity where the consolidated accounts including those of the Company are available for public view.

The Company's investments listed above are accounted for at cost less provision for any impairment in value.

Investments are held in the form of ordinary shares.

There have been no movements in investments during the year.

11 Trade and other receivables

•	31 December	31 December
	2018	2017
Current trade receivables	£ 000	£ 000
Interest receivable from Group undertakings	-	16
Amounts owed by Group undertakings	49,834	44,425
Accrued income	3	16
	49,837	44,457
Non-current trade receivables		
Amounts owed by Group undertakings		100,000
	49,837	144,457

Trade and receivables are carried at the lower of fair value and carrying amount, which the directors consider to be substantially the same at the statement of financial position date as there is limited exposure risk for the book value to be impaired. The maximum exposure to risk to the Company is the book value of these receivables less any provisions for impairment.

Amounts owed by Group undertakings of £49.8 million reflect amounts loaned to CalEnergy Gas (Holdings) Limited, a company within the Northern Powergrid Group, repayable on demand and at the variable base interest rate

The £100.0 million loan to Northern Powergrid (Northeast) Limited was reassigned to eventually reside with Northern Powergrid Holdings Company in December 2018.

Accrued income reflects accrued interest on short term deposits as reported in cash and cash equivalents on page 12 of these financial statements.

The liquidity risk, credit risk, and market risk associated with these borrowings, and the management thereof, is covered in the Financial Risk Review section in note 19 of these financial statements. The maximum exposure to risk to the Company is the book value of these loans.

12 Cash and cash equivalents

	31 December 2018 £ 000	31 December 2017 £ 000
Cash at bank	(202)	, =
Short-term deposits	2	21,227
Other cash and cash equivalents	77,063	121,760
•	76,863	142,987

Cash and cash equivalents have a maturity of less than three months, are readily convertible to cash and are subject to an insignificant risk of changes in value. The carrying amount of these assets approximates their fair value.

13 Share capital

Allotted, authorised, called up and fully paid shares

	31 December 2018		31 December 2017		
•	No.	£	No.	£	
Ordinary Share Capital of 68 2/11p each	159,270,954	108,593,832	159,270,954	108,593,832	
The Company has one class of ordinary shares which carries no right to fixed income.					

14 Reserves

	Capital redemption reserve £ 000	Retained earnings £ 000
At 1 January 2018	72	406,743
Profit for the year		37,248
Total comprehensive income	-	37,248
Dividends		(198,000)
At 31 December 2018	72	245,991

14 Reserves (continued)

At 1 January 2017			Capital redemption reserve £ 000	Retained earnings £ 000 394,324
Profit for the year			, -	35,419
Total comprehensive income Dividends	-		<u>.</u>	35,419 (23,000)
At 31 December 2017			72	406,743
15 Loans and borrowings				
			31 December 2018 £ 000	31 December 2017 £ 000
Non-current borrowings Other borrowings			50,000	50,000
Current borrowings				
Bank borrowings			340	340
			50,340	50,340
	Book	value	Fair	value .
	31 December 2018 £ 000	31 December 2017 £ 000	31 December 2018 £ 000	31 December 2017 £ 000
2026 - Northern Powergrid Limited 3.6% 2026 - Northern Powergrid Holdings	-	50,340	-	55,766
Company 3.6%	50,340		54,462	-
	50,340	50,340	54,462	55,766

15 Loans and borrowings (continued)

The fair valuation of the borrowings is based on Level 3 inputs. The directors' estimates of the fair value of these internal borrowings are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions or dealer quotes for similar instruments. There has been no change in valuation technique in the current year.

The fair value of short-term borrowings is equal to their book value. All loans are non-secured and are denominated in sterling.

At 31 December 2018, the Company had no undrawn committed borrowing facilities.

Interest on the fixed interest rate loan above exposes the Company to fair value interest rate risk.

The liquidity risk, credit risk, and market risk associated with these borrowings, and the management thereof, is covered within Financial Risk Review in note 19 of these financial statements.

16 Dividends

•	31 December 2018 £ 000	31 December 2017 £ 000
Interim dividend of 124.3p (2017 - 14.4p) per ordinary share	198,000	23,000

17 Reconciliation of liabilities arising from financing activities

There has been no change in the opening and closing values of long and short term borrowings regarding the £50 million loan from Northern Powergrid Holdings Company and accrued interest thereon at 31 December of the respective years. The only change that did occur in December 2018 was the reassignment of the loan from Northern Powergrid Limited to Northern Powergrid Holdings Company.

18 Classification of financial and non-financial assets and financial and non-financial liabilities

The classification of financial assets and financial liabilities by accounting categorisation for the period ending 31 December 2018 was as follows:

	Financial assets at amortised cost £ 000	Financial assets & liabilities at FVTPL £ 000	Financial liabilities at amortised cost £ 000	Non-financial assets & liabilities £ 000

19 Financial risk review

This note presents information about the Company's exposure to financial risks and the Company's management of capital.

19 Financial risk review (continued)

Capital management

The Northern Powergrid Group manages its capital centrally to ensure that entities in the Northern Powergrid Group will be able to continue as going concerns while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Northern Powergrid Group's overall strategy remains unchanged from 2017.

The capital structure of the Company consists of net debt (borrowings as detailed in note 15) offset by cash and cash equivalents (detailed in note 12) and equity of the Company (comprising issued capital, reserves and retained earnings as detailed in note 13 and in the statement of financial position on page 11). The Company has no externally imposed capital requirements.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. The carrying amount of financial assets recorded in the financial statements, which is net of impairment losses, represents the Company's maximum exposure to credit risk as no collateral or other credit enhancements are held.

There is no expected credit loss as the receivables are with a related party, CalEnergy Gas (Holdings) Limited, a company within the Northern Powergrid Group.

Liquidity risk

Ultimate responsibility of liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium, and long-term funding and liquidity management requirements. The Company manages liquidity by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Maturity analysis for financial liabilities and financial assets

The following tables set out the remaining contractual maturities of the Company's financial assets and financial liabilities by type.

2018 Non-derivative liabilities Fixed interest rate liabilities	Total outflow £ 000 64,400	3 months - 1 year £ 000 1,800	1-5 years £ 000 7,200	More than 5 years £ 000 55,400
2017 Non-derivative liabilities Fixed interest rate liabilities	Total outflow £ 000 66,200	3 months - 1 year £ 000 1,800	1-5 years £ 000 7,200	More than 5 years £ 000 57,200

19 Financial risk review (continued)

Market risk

The Company's activities do not expose it to significant financial risks of changes in foregin currency exchange rates and interest rates. Materially all income and expenses are denominated in pound sterling. All loans are at fixed interest rates and expose the Company to fair value interest rate risk.

20 Related party transactions

Summary of transactions with joint ventures

Vehicle Lease and Service Limited (VLS) is a joint venture of Northern Electric plc and provides vehicle fleet and servicing for other members of the Northern Powergrid Group. As the Company provides the intercompany treasury function for the Northern Powergrid Group, in the past liabilities owed to VLS have been transferred to it internittently. In 2018 VLS moved to their own ledger and now Northern Powergrid businesses settle invoices via bank payments rather than through the intercompany account. The Company has no liability at the end of 2018 as these have been settled.

Summary of transactions with other related parties

The Company provides the intercompany treasury account to the Northern Powergrid Group.
