DIRECTORS' RESPONSIBILITIES IN THE PREPARATION OF FINANCIAL STATEMENTS

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing those financial statements, the directors are required to:

- a. select suitable accounting policies and then apply them consistently;
- b. make judgements and estimates that are reasonable and prudent;
- c. prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

AUDITORS' REPORT TO THE SHAREHOLDERS OF WYN-RO DEVELOPMENTS LIMITED

We have audited the financial statements on pages 6 to 13.

Respective responsibilities of directors and auditors

As described on page 4 the company's directors are responsible for the preparation of financial statements. It is our responsibility to form an independent opinion, based on our audit, on those statements and to report our opinion to you.

Basis of opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion the financial statements give a true and fair view of the state of the company's affairs as at 31 May 2001 and of its result for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared in accordance with applicable accounting standards.

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements.

The financial statements have been prepared under the historical cost convention with the exception of land and buildings which are stated at revalued amounts.

INVESTMENT PROPERTIES

In accordance with Statement of Standard Accounting Practice No. 19, investment properties are revalued annually on an open market basis and the aggregate surplus or deficit is transferred to a revaluation reserve. No depreciation or amortisation is provided in respect of freehold investment properties and leasehold investment properties with over 20 years to run.

This treatment may be a departure from the requirements of the Companies Act concerning depreciation of fixed assets.

However, these properties are not held for consumption but for investment and the directors consider that systematic annual depreciation would be inappropriate. The accounting policy adopted is therefore necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

DEFERRED TAXATION

Deferred taxation is calculated on the liability method. It is provided to the extent that it is considered, with reasonable probability, that a material liability will become payable within the foreseeable future.

No provision is made for any liability to tax that would arise in the event of the sale of the investment property at the value at which it is stated in the financial statements. However, an estimate of this liability is disclosed in note 10.

CASH FLOW STATEMENT

The company is exempt from the requirement to prepare a cash flow statement as it is a wholly owned subsidiary undertaking.
