Strategic report for the year ended 31 December 2018

The Directors present their strategic report on Shell Trinidad and Tobago Limited (also referred to as the "Company") for the year ended 31 December 2018.

The Company is one of the entities within the "Shell Group". In this context the term "Shell Group" and "Companies of the Shell Group" or "Group companies" means companies where Royal Dutch Shell plc, either directly or indirectly, is exposed to, or has rights to, variable returns from its involvement with the Company and has the ability to affect those returns through its power over the Company. Companies in which Group companies have significant influence but not control are classified as "Associated companies". Royal Dutch Shell plc, a company incorporated in England and Wales, is known as the "Parent Company" of the Shell Group. In this report "Shell", "Shell Group" and "Royal Dutch Shell" are sometimes used for convenience where references are made to Royal Dutch Shell and its subsidiaries in general. These expressions are also used where no useful purpose is served by identifying the particular company or companies.

Business review

Shell Trinidad and Tobago Limited (the "Company") was incorporated on 19 May 1989 and is a wholly owned subsidiary of BG North Sea Holdings Limited.

The Company retains interests in two operating blocks, both held under separate Production Sharing Contracts. These interests comprise (i) 63.1875% interest in the NCMA (North Coast Marine Area) 1 block, located off the north coast of Trinidad and Tobago which contains the Hibiscus, Poinsettia, Chaconia, Ixora, Heliconia and Bougainvillea Field; and (ii) 50% interest in Block 6, located off the east coast of Trinidad and Tobago, which includes the Dolphin Field. During 2018, the Company continued to supply both the domestic and export markets.

On 30 August 2018, the Company acquired 100% shares of Eni Trinidad and Tobago Limited making it a wholly owned subsidiary. Eni Trinidad and Tobago Limited retained an interest of 17.3075% in the NCMA 1 block. This acquisition raises the Group's overall interest in the Block to 80.5%.

Production volumes from the Dolphin field were 0.94 mmboe (million barrels of oil equivalent) in 2018 (2017: 1.24 mmboe), whereas production from the NCMA 1 block reached 6.74 mmboe (2017: 8.03 mmboe).

The Company's loss for the financial year decreased from \$313,290,000 to \$49,741,000. This was principally due to increase in revenue on account of new wells coming online during the current year in Dolphin field, an impairment charge and recognition of onerous contract provision in the previous year.

The Directors consider that the year end financial position of the Company was satisfactory.

Strategic report for the year ended 31 December 2018 (continued)

Principal risks and uncertainties

The Company is subject to a broad range of risks such as political, commodity prices, reserves replacement, people resource and project delivery risks. The Company's revenues are dependent upon the performance of its working interest in the Block 6 and NCMA 1 fields. The integrity of the Company's assets can be affected by a number of factors including unplanned shutdowns and equipment failure. The Company has a continuing monitoring and maintenance programme to reduce the risk of failure.

The Shell Group has a single risk based control framework - The Shell Control Framework - to identify and manage risks. The Shell Control Framework applies to all wholly owned Shell companies and to those ventures and other companies in which Royal Dutch Shell has directly or indirectly a controlling interest. From the perspective of the Company, the principal risks and uncertainties affecting the Company are considered to be those that affect the Shell Group. Accordingly, the principal risks and uncertainties of the Shell Group, which are discussed on pages 15 to 20 of Royal Dutch Shell's Annual Report and Form 20-F for the year ended 31 December 2018 (the "Group Report"), include those of the Company. (The Group Report does not form part of this report).

Key Performance Indicators

Companies of the Shell Group comprise the Upstream businesses of Exploration and Production, Integrated Gas and New Energies, Oil Sands, and the Downstream businesses of Oil Products and Chemicals. The Company's key performance indicators, that give an understanding of the development, performance and position of the business, are aligned with those of the Shell Group. The development, performance and position of the various businesses is discussed on pages 29 to 61 of the Group Report and the key performance indicators through which the Group's performance is measured are as set out on pages 27 to 28 of the Group Report.

Director

Directors' report for the year ended 31 December 2018

The Directors present their report and the financial statements for the year ended 31 December 2018.

The Directors' report and audited financial statements of the Company have been prepared in accordance with the Companies Act 2006.

Dividends

No dividends were paid during the year (2017: \$nil).

Future Outlook

No significant change in the business of the Company has taken place during the year or is expected in the immediately foreseeable future.

Directors of the company

The Directors, who held office during the year, and to the date of this report (except as noted) were as follows:

M J Ashworth

N W H Blaker

D Hudson

R W J Driessen

Shell Corporate Director Limited (appointed 3 July 2018)

The following directors were appointed after the year end:

T J K Clarke (appointed 5 July 2019)

E C Okpere (appointed 1 July 2019)

Financial risk management

The Company's Directors are required to follow the requirements of Shell Group risk management policies, which include specific guidelines on the management of market, credit and liquidity risk, and advice on the use of financial instruments to manage them. Shell Group risk management policies can be found in the Group Report (see pages 103 to 104 and note 19).

Directors' report for the year ended 31 December 2018 (continued)

Employee involvement

The Company has a comprehensive policy concerning information provision and consultation with employees. Its objective is to meet their needs for information and involvement in issues affecting them, and to contribute to the management of change in the organisation.

The primary responsibility for information and consultation rests with management. It is supplemented by representative bodies at some employment locations. In addition, there is a well-established system by which the senior management in the Company makes presentations to employees on business results and plans. This is in turn supplemented by in-house journals, briefing papers, management letters and video presentations.

All of the formal employee representative bodies held regular meetings throughout the year.

Equal opportunities

Shell Trinidad and Tobago Limited aims to have leading equal opportunities policies and practices. The Company has a published equal opportunities policy and a detailed code of practice in support of this. Progress is regularly monitored. The Company's policy continues to be the application of equal opportunity principles to the selection, training and career development of all applicants and employees, irrespective of gender, race, ethnic origin, marital status, religion or disability.

With respect to disabled people, the Company's medical officers provide appropriate advice to help with the successful achievement of these objectives, particularly regarding physical facilities, which need to be made available at the workplace. Shell Group is part of the Business Disability Forum, which promotes best practice among private sector employers. The Company is also committed to providing continuing employment of employees who become disabled whilst working for the Company.

The Company offers a range of flexible working conditions to assist employees in balancing work and outside commitments. There are also schemes such as career breaks, six months paid parental leave and a range of childcare support initiatives to support employees with families.

Directors' report for the year ended 31 December 2018 (continued)

Statement of Directors' responsibilities

The Directors acknowledge their responsibilities for preparing the Strategic report, Directors' report and the Company's financial statements in accordance with applicable laws and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 101 'Reduced Disclosure Framework' ('FRS 101'). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and apply them consistently;
- · make judgements and accounting estimates that are reasonable and prudent;
- state whether United Kingdom accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Disclosure of information to the auditor

Each Director has taken steps that they ought to have taken as a Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information. The Directors confirm that there is no relevant information that they know of and of which they know the auditor is unaware.

N W H Blaker Director

Independent Auditor's report to the Member of Shell Trinidad and Tobago Limited

Opinion

We have audited the financial statements of Shell Trinidad and Tobago Limited (the "Company") for the year ended 31 December 2018, which comprise the Profit and loss account, Statement of comprehensive income, Balance sheet, Statement of changes in equity, and the related notes 1 to 23, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2018 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Independent Auditor's report to the Member of Shell Trinidad and Tobago Limited (continued)

Other information

The other information comprises the information included in the annual report set out on pages 1 to 5, other than the financial statements and our auditor's report thereon. The Directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and Directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report and the Directors' report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- · the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Independent Auditor's report to the Member of Shell Trinidad and Tobago Limited (continued)

Responsibilities of Directors

As explained more fully in the Statement of Directors' responsibilities set out on page 5, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the Company's member, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's member those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's member as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the financial statements for the year ended 31 December 2018

General information

The Company is a private company limited by share capital incorporated in England and Wales. The address of its registered office is: Shell Centre, London, SE1 7NA, United Kingdom.

1 Accounting policies

Basis of preparation

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework, which involves the application of International Financial Reporting Standards ("IFRS") with a reduced level of disclosure. The financial statements have been prepared under the historical cost convention, except for certain items measured at fair value, and in accordance with the Companies Act 2006.

As applied to the Company, there are no material differences between EU endorsed IFRS and IFRS as issued by the International Accounting Standards Board.

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, except for the adoption of IFRS 9 and IFRS 15.

New standards applied

The adoption of IFRS 9 and IFRS 15 has had no material impact on the Company's retained earnings or balance sheet as at 1 January 2018.

Standards issued but not yet effective

IFRS 16 Leases was issued in 2016 to replace IAS 17 Leases and is required to be adopted by 2019. Under the new standard all lease contracts, with limited exceptions, are recognised in financial statements by way of right-of-use assets and corresponding lease liabilities. The company will apply the modified retrospective approach, which means that the cumulative effect of initially applying the standard is recognised at the date of initial application and there is no restatement of comparative information. Compared with the existing accounting for operating leases, application of the standard will have a significant impact on the classification of expenditures and consequently the classification of cash flow from operating activities, cash flow from investing activities and cash flow from financing activities. It will also impact the timing of expenses recognised in the statement of income. No impact is expected in relation to lease contracts previously classified as finance leases. The adoption of the new standard at January 1, 2019, is expected to have a negligible impact on equity following the recognition of lease liabilities.

Notes to the financial statements for the year ended 31 December 2018 (continued)

1 Accounting policies (continued)

The preparation of financial statements in conformity with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 2.

The following exemptions from the disclosure requirements of IFRS have been applied in the preparation of these financial statements, in accordance with FRS 101:

- Paragraphs 45(b) and 46 to 52 of IFRS 2, 'Share-based payment' (details of the number and weighted-average exercise prices of share options, and how the fair value of goods or services received was determined);
- IFRS 7, 'Financial Instruments: Disclosures';
- Paragraphs 91 to 99 of IFRS 13, 'Fair value measurement' (disclosure of valuation techniques and inputs used for fair value measurement of assets and liabilities);
- Paragraph 38 of IAS 1, 'Presentation of financial statements' comparative information requirements in respect of:
 - (i) paragraph 79(a)(iv) of IAS 1 'Presentation of financial statements';
 - (ii) paragraph 73(e) of IAS 16 'Property, plant and equipment';
 - (iii) paragraph 118(e) of IAS 38 'Intangible assets' (reconciliation between the carrying amount at the beginning and end of the period);
 - (i) the requirements of the second sentence of paragraph 110 (qualitative and quantitative information about contracts with customers, significant judgements, changes in judgements in applying this standard to those contracts, and assets recognised from the costs to obtain or fulfil a contract);
 - (ii) paragraph 113(a) (revenue recognised from contracts with customers);
 - (iii) paragraphs 114 and 115 (disaggregation of revenue);
 - (iv) paragraph 118 (changes in contract asset and liability);
 - (v) paragraphs 119(a) to (c) and 120 to 127 (performance obligations); and
 - (vi) paragraph 129 (practical expedients);
- The following paragraphs of IAS 1, 'Presentation of financial statements':
 - (i) 10(d), (statement of cash flows);
 - (ii) 10(f) (a balance sheet as at the beginning of the preceding period when an entity applies an accounting policy retrospectively or makes a retrospective restatement of items in its financial statements, or when it reclassifies items in its financial statements);
 - (iii) 16 (statement of compliance with all IFRS);
 - (iv) 38A (requirement to present a minimum of two statements for each of the primary financial statements, including cash flow statements and related notes);
 - (v) 38B-D (additional comparative information);
 - (vi) 40A-D (requirements for a third balance sheet);
 - (vii) 111 (cash flow statement information); and
 - (viii) 134-136 (capital management disclosures)
- The following paragraphs of IFRS 15, 'Revenue from Contracts with Customers';

Notes to the financial statements for the year ended 31 December 2018 (continued)

1 Accounting policies (continued)

- IAS 7, 'Statement of cash flows';
- Paragraph 30 and 31 of IAS 8 'Accounting policies, changes in accounting estimates and errors' (requirement for the disclosure of information when an entity has not applied a new IFRS that has been issued but is not yet effective);
- Paragraph 17 and 18A of IAS 24, 'Related party disclosures' (key management compensation);
- The requirements in IAS 24, 'Related party disclosures' to disclose related party transactions entered into between two or more wholly owned members of a group.

Consolidation

The immediate parent company is BG North Sea Holdings Limited.

The ultimate parent company and controlling party is Royal Dutch Shell plc, which is incorporated in England and Wales. Royal Dutch Shell plc is the parent undertaking of the smallest and largest group to consolidate these accounts.

The consolidated accounts of Royal Dutch Shell plc are available from:

Royal Dutch Shell plc Tel: +31 888 800 844 email: order@shell.com

Registered office: Shell Centre, London, SE1 7NA

Taxation

Tax is recognised in profit or loss, except that tax attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income or directly in equity.

Current tax

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date for tax payable to HM Revenue and Customs, or for group relief to surrender to or to be received from other Group undertakings, and for which payment may be requested.

Notes to the financial statements for the year ended 31 December 2018 (continued)

1 Accounting policies (continued)

Deferred tax

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised when, on the basis of the most recent available evidence, it is regarded as probable that there will be suitable taxable profits from which the future reversal of the underlying temporary differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the temporary differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset deferred tax assets against deferred tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Amounts relating to deferred tax are undiscounted.

Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in US Dollars (\$), which is also the Company's functional currency.

(ii) Transaction and balances

Income and expense items denominated in foreign currencies are translated into \$ at the rate ruling on their transaction date.

Monetary assets and liabilities recorded in foreign currencies have been expressed in \$ at the rates of exchange ruling at the year end. Differences on translation are included in the profit and loss account. Non-monetary assets and liabilities denominated in a foreign currency are translated using exchange rates at the date of the transaction. No subsequent translations are made once this has occurred.

Notes to the financial statements for the year ended 31 December 2018 (continued)

1 Accounting policies (continued)

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation and provision for impairment. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. A review for the potential impairment of a fixed asset is carried out if events or changes in circumstances indicate that the carrying amount of a fixed asset may not be recoverable. If assets are determined to be impaired, the carrying amounts of those assets are written down to their recoverable amount, which is the higher of fair value less costs to sell and value in use. Value in use in determined as the amount of estimated risk-adjusted discounted future cash flows. For this purpose, assets are grouped into cash-generating units based on separately identifiable and largely independent cash inflows. Any impairments are recorded in the profit and loss account.

If, after an impairment loss has been recognised, the recoverable amount of a fixed asset increases because of a change in economic conditions or in the expected use of the asset, the resulting reversal of the impairment loss is recognised in the current year to the extent that it increases the carrying amount of the fixed asset up to the amount it would have been had the original impairment not occurred.

Depreciation and impairment are not normally charged on assets under construction or on freehold land. In the case of these assets, an impairment review would only be undertaken if, and only if, there was a change in circumstances indicating that the carrying amount of the asset may not be recoverable.

Depreciation is charged so as to write off the cost of assets on a straight line basis, other than land and properties under construction over their estimated useful lives, as follows:

Asset class

Depreciation method and rate

Motor vehicles and office equipment

up to 10 years

The cost of licences is carried forward either until a licence is relinquished or the associated costs written off, or until production of oil or gas starts, when the cost is depleted on a unit-of-production basis related to total proved reserves.

Platforms and infield pipelines are depleted from the date field production commences on a unit-of-production basis over the proved developed reserves of the field concerned. Successful exploration, appraisal, production and injection wells are depleted on a unit-of-production basis over the proved developed reserves of the field concerned.

Changes in estimates are accounted for prospectively over the remaining reserves of the field.

Notes to the financial statements for the year ended 31 December 2018 (continued)

1 Accounting policies (continued)

Decommissioning and restoration costs

The Company follows the requirements of IAS 37 "Provisions, Contingent Liabilities and Contingent Assets". The total estimated cost of decommissioning and restoration, discounted to its net present value, is provided for and also recognised as a cost of each field, onshore terminal or main trunkline and capitalised within tangible fixed assets. The capitalised cost is amortised over the life of the field on a unit-of-production basis for offshore facilities and on a straight-line basis for onshore terminals and main trunklines. The unwinding of the discount in the net present value of the total expected cost is treated as an interest expense. Changes in estimates result in an equal and opposite movement in the provision and the associated asset. If a decrease in the provision exceeds the asset's carrying amount, the excess is recognised in the profit and loss account. Changes in estimates of assets are depreciated prospectively over the remaining reserves of the field or the remaining life of the onshore terminal or pipeline as appropriate.

Intangible fixed assets

Intangible fixed assets are valued at cost less accumulated amortisation less any impairment applicable. The cost price of these assets are amortised on a straight-line basis over its estimated useful economic life.

Financial instruments

Financial assets

Financial assets are classified at initial recognition and subsequently measured at amortised cost, fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVTPL). The classification of financial assets is determined by the contractual cash flows and where applicable the business model for managing the financial assets.

A financial asset is measured at amortised cost if the objective of the business model is to hold the financial asset in order to collect contractual cash flows and the contractual terms give rise to cash flows that are solely payments of principal and interest. Financial assets at amortised cost are initially recognised at fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the financial asset. Subsequently the financial asset is measured using the effective interest method less any impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired. All equity instruments and other debt instruments are recognised at fair value. For equity instruments, on initial recognition, an irrevocable election (on an instrument-by-instrument basis) can be made to designate these as at FVOCI (without recycling to profit and loss) instead of FVTPL. Dividends received on equity instruments are recognised as other income in profit or loss when the right of payment has been established, except when the company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income.

Notes to the financial statements for the year ended 31 December 2018 (continued)

1 Accounting policies (continued)

Investments in securities

Investments in securities (also referred to as "securities") comprise equity and debt securities. Equity securities are recognised at FVOCI (without recycling). On sale, net gains and losses previously accumulated in other comprehensive income are transferred to retained earnings. Debt securities are recognised at fair value with unrealised holding gains and losses recognised in OCI. On sale, net gains and losses previously accumulated in OCI are recognised in income.

Impairment of financial assets

The impairment requirements for expected credit losses are applied to financial assets measured at amortised cost, financial assets measured at FVOCI and financial guarantees contracts to which IFRS 9 is applied and that are not accounted for at FVTPL and lease receivables under IFRS 15 that give rise to a conditional right to consideration. If the credit risk on the financial asset has increased significantly since initial recognition, the loss allowance for the financial asset is measured at an amount equal to the lifetime expected credit losses. In other instances, the loss allowance for the financial asset is measured at an amount equal to the twelve month expected credit losses (ECLs). Changes in loss allowances are recognised in profit and loss. For trade debtors that do not contain a significant financing component, the simplified approach is applied recognising expected lifetime credit losses from initial recognition.

Financial liabilities

Financial liabilities are measured at amortised cost, unless they are required to be measured at FVTPL, such as instruments held for trading, or the Company has opted to measure them at FVTPL. Debt and trade creditors are recognised initially at fair value based on amounts exchanged, net of transaction costs, and subsequently at amortised cost. Interest expense on debt is accounted for using the effective interest method and is recognised in income.

Investment in subsidiaries and participating undertakings

These comprise investments in shares and loans that the Company intends to hold on a continuing basis. The investments in subsidiaries and participating undertakings are stated at cost, less provisions for impairment. The Company carries out a review for the potential impairment of an investment if events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. Such impairment reviews are performed in accordance with IAS 36. Any impairments are recorded in the profit and loss account.

If, after an impairment loss has been recognised, the recoverable amount of a fixed asset increases because of a change in economic conditions or in the expected use of the asset, the resulting reversal of the impairment loss is recognised in the current year to the extent that it increases the carrying amount of the fixed asset up to the amount it would have been had the original impairment not occurred.

Notes to the financial statements for the year ended 31 December 2018 (continued)

1 Accounting policies (continued)

Stock

Stocks are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method. Provision is made for obsolete, slow moving and defective stocks to write stocks now to their net realisable value, wherever necessary.

Underlift and overlift of oil

Underlift and overlift of crude oil is valued at market prices. The resulting impact is recognised within cost of sales in the profit and loss account.

Turnover

Recognition

Turnover from contracts with customers is recognised over time, or at a point in time, when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

For contracts that contain separate performance obligations the transaction price is allocated to those separate performance obligations by reference to their relative standalone selling prices. Turnover is recognised as the performance obligations are fulfilled.

Turnover from sales of oil, natural gas, chemicals and other products is recognised at the price at which the Company is expected to be entitled to, after deducting sales taxes, excise duties and similar levies, and when the control of the products have been transferred, which is when the customer has the ability to direct the use of the products and obtain substantially all of the remaining benefits from the products. For turnover from refining operations, it is either when product is placed onboard a vessel or offloaded from the vessel, depending on the contractually agreed terms; and for sales of oil products and chemicals, it is either at the point of delivery or the point of receipt, depending on contractual conditions. Turnover from sales of oil and natural gas generally occurs when product is physically transferred into a vessel, pipe or other delivery mechanism. For turnover resulting from arrangements that do not meet the revenue from contract with customer criteria, turnover is classified as from other sources.

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the reporting date and are discounted to present value at a rate intended to reflect the time value of money where the effect of time value of money is material.

Notes to the financial statements for the year ended 31 December 2018 (continued)

1 Accounting policies (continued)

Defined benefit pension obligation

Typically defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the reporting date minus the fair value of plan assets. The defined benefit obligation is measured using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future payments by reference to market yields at the reporting date on Government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains and losses are charged or credited to other comprehensive income in the period in which they arise.

Past-service costs are recognised immediately in profit or loss.

Netting off policy

Balances with other companies of the Shell Group are stated gross, unless both of the following conditions are met:

- · Currently there is a legally enforceable right to set off the recognised amounts; and
- There is intent either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Share based payments

The fair value of share-based compensation for performance share plans is estimated using a Monte Carlo pricing model.

The fair value of the performance share plans is recognised in the profit and loss account from the date of grant over the vesting period, with a corresponding increase recognised directly in equity. At each subsequent balance sheet date, the Company revises its estimate of the number of awards that are expected to vest (in relation to non-market based performance conditions) and recognises the impact of the revision to original estimates, if any, in the profit and loss account, with a corresponding adjustment to equity.

The market value of vested schemes is subsequently invoiced to employing entities in the year of delivery. This is treated as a distribution and is deducted from equity.

Notes to the financial statements for the year ended 31 December 2018 (continued)

1 Accounting policies (continued)

Joint arrangements

The Company's exploration, development and production activities are generally conducted in joint arrangements with other companies. The Company recognises its assets and liabilities relating to its interests in joint operations, including its share of assets held jointly and liabilities incurred jointly with other parties. Investments in joint ventures and associates are accounted for using the equity method, under which the investment is initially recognised at cost and subsequently adjusted for the Shell share of the post acquisition income less dividends received.

2 Critical accounting judgements and key sources of estimation uncertainty

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Useful economic life of tangible fixed assets

Depreciation of tangible fixed assets is calculated using management's assessment of the useful economic lives of the underlying assets. Upon purchase or construction of an asset, useful economic life is assessed by reference to a number of underlying assumptions, including the economic lives of other similar assets. As the economic benefit of the assets is consumed over the course of its life, revisions to the useful life of the asset may be made upon assessment of changes in the operating environment or the condition of the asset itself.

Notes to the financial statements for the year ended 31 December 2018 (continued)

2 Critical accounting judgements and key sources of estimation uncertainty (continued)

Impairment of tangible fixed assets and intangible fixed assets

For the purposes of determining whether impairment of tangible fixed assets and intangible fixed assets has occurred, and the extent of any impairment or its reversal, the key assumptions management uses in estimating risk-adjusted future cash flows for value-in-use measures are future oil and gas prices, expected production volumes and refining margins where appropriate to the local circumstances and environment. These assumptions and the judgements of management that are based on them are subject to change as new information becomes available. Changes in economic conditions can also affect the rate used to discount future cash flow estimates.

Future price assumptions tend to be stable because management does not consider short-term increases or decreases in prices as being indicative of long-term levels, but they are nonetheless subject to change. Expected production volumes, which comprise proved reserves and unproved volumes, are used for impairment testing because management believes this to be the most appropriate indicator of expected future cash flows. As discussed in "Estimation of proved oil and gas reserves", reserves estimates are inherently imprecise. Furthermore, projections about unproved volumes are based on information that is necessarily less robust than that available for mature reservoirs. Due to the nature and geographical spread of the business activity in which those assets are used, it is typically not practicable to estimate the likelihood or extent of impairments under different sets of assumptions. The discount rate applied is reviewed annually.

Changes in assumptions could affect the carrying amounts of assets, and impairment charges and reversals will affect income.

Impairment of investments

Investments are tested for impairment whenever events or changes in circumstances indicate that the carrying amounts for those assets may not be recoverable. For the purposes of determining whether impairment of investments has occurred, and the extent of any impairment or its reversal, management review a range of measures relating to the underlying entity's performance, including the net present value of future cash flows. In assessing these measures, management make a number of assumptions relating (but not restricted) to future oil and gas prices, expected production volumes and refining margins appropriate to the local circumstances and environment. These assumptions and the judgements of management that are based on them are subject to change as new information becomes available. Changes in economic conditions can also affect the rate used to discount future cash flow estimates.

Group defined benefit pension scheme

Certain employees participate in a group defined benefit pension scheme with other companies in the region. Under the terms of the scheme, there is no policy for allocating the net defined benefit obligation amongst the participating members.

The scheme is therefore accounted for as a defined contribution scheme, see note 18.

Notes to the financial statements for the year ended 31 December 2018 (continued)

2 Critical accounting judgements and key sources of estimation uncertainty (continued)

Estimation of proved oil and gas reserves

Unit-of-production depreciation, depletion and amortisation charges are principally measured based on management's estimates of proved developed oil and gas reserves. Also, exploration drilling costs are capitalised pending the results of further exploration or appraisal activity, which may take several years to complete and before any related proved reserves can be booked.

Proved reserves are estimated by reference to available geological and engineering data and only include volumes for which access to market is assured with reasonable certainty. Estimates of proved reserves are inherently imprecise, require the application of judgement and are subject to regular revision, either upward or downward, based on new information such as from the drilling of additional wells, observation of long-term reservoir performance under producing conditions and changes in economic factors, including product prices, contract terms or development plans.

Changes to estimates of proved developed reserves affect prospectively the amounts of depreciation, depletion and amortisation charged and, consequently, the carrying amounts of exploration and production assets. It is expected, however, that in the normal course of business the diversity of the asset portfolio will limit the effect of such revisions. The outcome of, or assessment of plans for, exploration or appraisal activity may result in the related capitalised exploration drilling costs being recognised in income in that period.

Stock provision

In the course of management's assessment of the recoverability of stock balances, assumptions are made over the expected economic benefit to be derived from stock assets. These include, but are not limited to, future oil and gas prices; exchange rates and other economic indices. Provisions are made where management do not believe that the book value of the stock will be recovered through sale or use, the value of which will change in line with the underlying economic indicators that influence the market for such goods.

Provision for expected credit losses of trade debtors

The Company computes probability of default rates for third party trade debtors based on historical loss experience adjusted for current and forward looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. For intra-group trade debtors, the Company uses an internal credit rating to determine the probability of default. Internal credit ratings are based on methodologies adopted by independent credit rating agencies.

Notes to the financial statements for the year ended 31 December 2018 (continued)

2 Critical accounting judgements and key sources of estimation uncertainty (continued)

Decommissioning and restoration provisions

Provisions are recognised for the future decommissioning and restoration of hydrocarbon production facilities and pipelines at the end of their economic lives. The estimated cost is recognised in income over the life of the proved developed reserves on a unit-of-production basis or on a straight-line basis, as applicable. Changes in the estimates of costs to be incurred, proved developed reserves, or in the rate of production will therefore impact income, generally over the remaining economic life of the related assets.

Estimates of the amounts of provisions recognised are based on current legal and constructive requirements, technology and price levels. Because actual outflows can differ from estimates due to changes in laws, regulations, public expectations, technology, prices and conditions, and can take place many years in the future, the carrying amounts of provisions are regularly reviewed and adjusted to take account of such changes. The discount rate applied is reviewed annually.

Fair value of financial assets and liabilities

Where the fair value of financial assets and liabilities cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is derived from observable markets where available, but where this is not feasible, a degree of judgement is required in determining assumptions used in the models. Changes in assumptions used in the models could affect the reported fair value of financial assets and liabilities.

Notes to the financial statements for the year ended 31 December 2018 (continued)

3 Prior period adjustments

Comparative figures of the prior year have been restated and reclassified to reflect the correct presentation of the financial statements following the write off of irrecoverable receivable balances. Amounts of Debtors have been restated to correct Trade debtors (\$2,284,000) and Amounts owed by fellow subsidiary undertakings (\$188,498,000). Amounts of Creditors have been restated to correct Amounts owed to fellow subsidiary undertakings (\$335,103,000). Amounts of Other expenses have been restated to correct Other expense (\$130,657,000) with respect of write off of Chevron balance (\$46,367,000) in 2017.

Amounts of tax on loss has been restated to correct deferred taxation (\$10,125,000) with the corresponding restatement to Deferred tax assets (\$50,242,000).

			Restated balance
	Balance as at 31 December 2017	Restatement as at 2017	as at 31 December 2017
	\$000	\$000	\$000
Statement of financial position			
Deferred tax	79,759	(29,517)	50,242
Debtors			
Trade debtors	12,141	(9,857)	2,284
Amounts owed by Fellow subsidiary undertakings	215,671	(27,173)	188,498
Creditors: amounts falling due within one year

4 Turnover

The analysis of the Company's turnover for the year from operations in Trinidad and Tobago is as follows:

	2018 \$ 000	2017 \$ 000
Sale of goods	105,858	38,401
	105,858	38,401
5 Interest receivable and similar income		
	2018 \$ 000	2017 \$ 000
Interest from banks and similar income	49	97
Profit on currency translation - financial items	-	9,556
Other finance income (refer to note 18)	109	58
	158	9,711
6 Interest payable and similar charges		
Lateratura have Correct destablished	2018 \$ 000	2017 \$ 000
Interest on loans from Group undertakings:		
Fellow subsidiary undertakings	3,661	1,280
Loss on currency translation - financial items	5,188	-
Unwinding of discount on long term provisions (note 19)	12,040	10,681
	20,889	11,961

Notes to the financial statements for the year ended 31 December 2018 (continued)

7 Operating loss

Arrived at after charging:

	2018	2017
	\$ 000	\$ 000
Operating lease rental charged:		
Hire of plant and machinery	1,063	3,245
Other operating lease expense - property	2,503	2,409
Depreciation:		
On owned assets	463	429
Amortisation expense	-	683
Provision for onerous contracts	· <u>-</u>	121,649

None of the Directors received any emoluments (2017: none) in respect of their services to the Company.

8 Staff costs

The aggregate payroll costs were as follows:

	2018 \$ 000	2017 \$ 000
Wages and salaries	71,239	54,998
Social security costs	852	623
Pension costs	3,889	2,335
Share-based payment expenses (note 21)	1,386	611
	77,366	58,567

The average number of persons employed by the Company during the year, analysed by category was as follows:

	2018 No.	2017 No.
Oil and gas exploration	457	422

Notes to the financial statements for the year ended 31 December 2018 (continued)

9 Auditor's remuneration

The Auditor's remuneration of \$31,363 (2017: \$26,832) in respect of the statutory audit was borne by another group company for both the current and preceding years.

Fees paid to the Company's auditor and its associates for non-audit services to the Company itself are not disclosed in the individual financial statements of the Company because the Royal Dutch Shell plc consolidated financial statements are required to disclose such fees on a consolidated basis.

10 Tax on loss

Tax (credit) in the profit and loss account

The tax credit for the year of \$839,000 (2017: \$10,125,000) is made up as follows

	2018	Restated* 2017
	\$ 000	\$ 000
Current taxation		
UK corporation tax	(5,597)	(9,852)
UK corporation tax adjustment to prior periods	(771)	185
Foreign tax	5,440	-
Foreign tax adjustment to prior periods		281
Total current tax credit	(928)	(9,386)
Deferred taxation		
Arising from origination and reversal of temporary differences	(19,426)	(5,976)
Arising from previously unrecognised temporary difference	19,515	5,237
Total deferred tax charge/(credit)	89	(739)
Tax credit in the profit and loss account	(839)	(10,125)

Notes to the financial statements for the year ended 31 December 2018 (continued)

10 Tax on loss (continued)

Reconciliation of total tax (credit)

The tax on loss before tax for the year differs from the standard rate of corporation tax in the UK of 19.00% (2017:19.25%).

The differences are reconciled below:

	2018 \$ 000	Restated* 2017 \$ 000
Loss before tax	50,580	323,415
Tax on loss calculated at standard rate (2018: 19.00%) (2017: 19.25%)	(9,610)	(62,570)
Effects of:		
Expenses not deductible	3,305	10,032
Adjustments in respect of prior periods	(771)	466
Currency translation adjustments	630	(1,094)
Tax imposed outside the UK	5,440	-
Differential deferred tax charge over UK deferred tax	(1,313)	42,866
Other items	-	41
Tax on imputed interest	1,480	134
Total tax credit	(839)	(10,125)

UK Finance Act (No 2) Act 2015 which introduced reductions in the UK corporation tax rate to 19% effective from 1 April 2017 and to 18% effective from 1 April 2020 was enacted on 15 November 2015.

UK Finance Act 2016 which introduced further reductions in the UK corporation tax rate to 17% effective 1 April 2020 was enacted on 15 September 2016.

The relevant deferred tax balances have been re-measured to 17%, the rate enacted by the balance sheet date.

Notes to the financial statements for the year ended 31 December 2018 (continued)

10 Tax on loss (continued)

17 Obligations under leases and hire purchase contracts

Operating leases

As at 31 December, the Company was committed to making future minimum lease payments under non-cancellable operating leases.

The total future value of minimum lease payments is as follows:

	2018 \$ 000	2017 \$ 000
Within one year	14,116	21,702
In two to five years	15,648	27,170
In over five years	6,692	8,553
	36,456	57,425

Notes to the financial statements for the year ended 31 December 2018 (continued)

18 Pension and other schemes

Defined benefit pension schemes

British Gas Trinidad Limited Pension Fund Plan

A number of the Company's employees participate in the British Gas Trinidad Limited Pension Fund Plan (the "Plan"), a defined benefit registered pension plan established under trust. The plan is funded to cover future pension liabilities in respect of service up to the balance sheet date. It is subject to an independent valuation at least every three years, on the basis of which the independent qualified actuary certifies the rate of employer contributions that, together with the specified contributions payable by employees and returns on the Plan's assets, are expected to be sufficient to fund the benefits payable.

Employees contribute to the Plan at a rate of 4% of National Insurance System (NIS) salary and 6% of salary in excess of this amount. For the year ended 31 December 2018, the employer's contribution rate was 18.6% of members' salaries. A rate of 18.6% has been confirmed as sufficient contribution until the next full actuarial valuation is performed as at 31 December 2019.

The figures below in relation to the year ended 31 December 2018 are based on a valuation of the Plan's assets and expected liabilities as at 31 December 2018 carried out by independent actuaries in accordance with the requirements of IAS 19.

The last independent valuation showed that the value of the Plan's assets as at 31 December 2018 was \$29,874,000 (2017: \$27,904,000).

The scheme was most recently valued on 1 March 2018. For the defined benefit elements of the retirement benefit scheme and the provident fund, a full actuarial valuation was carried out using the projected unit method at 31 December 2018 by a qualified independent actuary.

The BG Supplementary Benefits Scheme (BGSBS) provides benefits broadly in excess of the 'lifetime allowance'. This defined benefit plan is an unfunded, non-registered arrangement. The BGSBS was closed to future accrual of benefits on 31 December 2013, the same date as benefit accrual ceased in the BGPS.

Principal actuarial assumptions

The significant actuarial assumptions used to determine the present value of the defined benefit obligation at the balance sheet date are as follows:

	2018	2017
	%	%
Discount rate	5.5	5.5
Future salary increases	6	6

Notes to the financial statements for the year ended 31 December 2018 (continued)

18 Pension and other schemes (continued)

The fair value of plan assets, the present value of plan liabilities and the net balance sheet surplus were as follows:

	2018 \$,000	2017 \$,000
Fair value of plan assets	29,875	27,904
Present value of liabilities	(28,270)	(26,757)
Net balance sheet surplus	1,605	1,147
Scheme liabilities		
Changes in the present value of scheme liabilities are as follows:		
	2018 \$ 000	2017 \$ 000
Present value at start of year	(26,757)	(24,978)
Current service cost	(1,050)	(1,061)
Actuarial gains and losses arising from experience adjustments	910	541
Foreign exchange differences	73	(2)
Interest cost	(1,456)	(1,360)
Benefits paid	410	506
Contributions by scheme participants	(400)	(403)
Present value at end of year	(28,270)	(26,757)
Scheme assets		
Changes in the fair value of scheme assets are as follows:		
	2018 \$ 000	2017 \$ 000
Fair value at start of year	27,904	25,182
Interest income	1,565	1,418
Return on plan assets, excluding amounts included in interest income/(expense)	(814)	69
Foreign exchange differences	(76)	2
Employer contributions	1,380	1,411
Contributions by scheme participants	400	403
Benefits paid	(410)	(507)
Administrative expenses paid	(74)	(74)
Fair value at end of year	29,875	27,904

Analysis of assets

The major categories of scheme assets are as follows:		
	2018 \$ 000	2017 \$ 000
Cash and cash equivalents	2,398	3,753
Equity instruments	9,421	8,707
Government and Corporate bonds	18,056	15,444
	29,875	27,904
Actual return on scheme's assets		
	2018	2017
	\$ 000	\$ 000
Actual return on scheme assets	<u>751</u>	1,487
Amounts recognised in the profit and loss account		
	2018 \$ 000	2017 \$ 000
	2 000	\$ 000
Amounts recognised in operating profit		
Current service cost	(1,050)	(1,061)
Administrative expenses paid	(74)	(74)
Recognised in arriving at operating profit	(1,124)	(1,135)
Amounts recognised in interest income or costs		
Interest cost on Obligation	(1,456)	(1,360)
Interest Income on Plan assets	1,565	1,418
Recognised in other finance income/(cost)	109	58
Total recognised in the profit or loss account	(1,015)	(1,077)

Notes to the financial statements for the year ended 31 December 2018 (continued)

18 Pension and other schemes (continued)

Amounts taken to the statement of comprehensive income

	2018 \$ 000	2017 \$ 000
Actuarial gains and losses arising from changes in financial assumptions	910	541
Return on plan assets, excluding amounts included in interest (expense)/income	(814)	69
Exchange rate movements	(3)	
Amounts recognised in the Statement of Comprehensive Income	93	<u>610</u>

Sensitivity analysis

A sensitivity analysis for the principal assumptions used to measure scheme liabilities is set out below:

		2018			2017	
Adjustment to discount	+1%	0.0%	- 1%	+ 1%	0.0%	- 1%
rate	\$ 000	\$ 000	\$ 000	\$ 000	\$ 000	\$ 000
Present value of total obligation	(4,423)		5,679	(4,291)	_	5,552
		2018			2017	
Adjustment to rate of	+ 1%	0.0%	- 1%	+ 1%	0.0%	- 1%
salary growth	\$ 000	\$ 000	\$ 000	\$ 000	\$ 000	\$ 000
Present value of total obligation	2,427		(2,110)	2,437	_	(2,105)

Notes to the financial statements for the year ended 31 December 2018 (continued)

19 Provisions

De	commissioning and restoration \$ 000	Onerous contracts \$ 000	Total \$ 000
Balance as at 1 January 2018	330,211	121,648	451,859
Additions	(112,884)	-	(112,884)
Provisions used	-	(13,877)	(13,877)
Increase due to passage of time or unwinding of discount (note 6)	12,040		12,040
Balance as at 31 December 2018	229,367	107,771	337,138

The estimated cost of decommissioning at the end of the producing lives of fields is reviewed at least annually and engineering estimates and reports are updated periodically. Provision is made for the estimated cost of decommissioning at the balance sheet date, to the extent that current circumstances indicate that the Company will ultimately bear this cost.

The payment dates of expected future decommissioning costs are uncertain and are based on economic assumptions surrounding the useful economic lives of the fields concerned. Useful economic lives are affected by the estimation of hydrocarbon reserves and resources, which is in turn impacted by available reservoir data, commodity prices and future costs. Payments are currently anticipated between 2023 and 2032.

The Company has created a provision for obligations to make shortfall payments under gas supply contracts entered into by the Company, that are deemed to be onerous in nature. The shortfall and obligation to make these payments are based on production volumes and market price of the gas supplied. While payment dates are uncertain, these are currently anticipated between 2018 and 2030.

Notes to the financial statements for the year ended 31 December 2018 (continued)

20 Called up share capital

Allotted, called up and fully paid shares

	No.	2018 \$ 000	No.	2017 \$ 000
Ordinary shares of £1 each	531,161,108	700,000	3	

New shares allotted

During the year 531,161,105 Ordinary shares having an aggregate nominal value of \$700,000,000 were allotted for an aggregate consideration of \$700,000,000.

21 Share-based payments

Conditional awards of Royal Dutch Shell plc shares are made under an amended long-term incentive plan (the 'Performance Share Plan') when making awards to employees who are not Executive Directors of Royal Dutch Shell plc. The actual amount of shares that may vest, ranging from 0-200% of the conditional awards, depends on the measurement of the prescribed performance conditions over a three-year period beginning on 1 January of the award year. For the awards granted in 2015 and 2016, half the award is linked to the relative performance compared to four of its main competitors in Total Shareholder Return ('TSR') measure, earnings per share, cash flow from operations and return on actual capital employed over the measurement period. The other half of the award is linked to the Shell scorecard results.

For awards granted in 2018, 37.5% of the award is linked to the relative performance compared to four of its main competitors in TSR, cash flow from operations and return on actual capital employed and 12.5% to a free cash flow factor relative to internal operating plans over the measurement period. The other half of the award is linked to the Shell scorecard results.

The weighted average market price for exercises in 2018 was \$31.14 (2017: \$26.37) for Royal Dutch Shell plc Class A shares, \$31.42 (2017: \$27.51) for Royal Dutch plc Shell Class B shares, and \$63.09 (2017: \$52.69) for Royal Dutch Shell plc Class A ADRs.

For the performance shares which were outstanding as at 31 December 2018, the weighted average remaining contractual life is 0.95 years (2017: 1.33 years).

The profit and loss charge for 2018 is \$1,387,000 (2017: \$611,000).

Notes to the financial statements for the year ended 31 December 2018 (continued)

22 Events after the balance sheet date

The Government of Trinidad and Tobago ('GoRTT') has been in discussions with the management of Shell Trinidad and Tobago including on a package deal which includes supplemental payments to GoRTT to rebalance the government's take from the Shell Trinidad & Tobago integrated value chain with retrospective effect from 2018. A Heads of Agreement was signed in May 2019 and subsequently, a Definitive Agreement was signed in August 2019. The additional costs for STTL for the period 1 January 2018 to 30 June 2019 amount to \$265 million and will be accounted for in the 2019 financial statements. STTL is expected to recover a part of the cost from Shell International Trading Middle East Limited ('SITME'), BG Global Energy Limited ('BGGE') and other Upstream entities but this is still being agreed.

23 Related party transactions
