Severn Trent Services International Limited

Strategic report

Business review and principal activities

The Company is a wholly owned subsidiary of Severn Trent Plc.

The Company does not trade. Its principal activity is to receive finance income from amounts due from other companies in the Severn Trent Group.

Severn Trent Plc manages its operations on a divisional basis and the Company's Directors do not believe that further key performance indicators for the Company are necessary to enhance the understanding of the development, performance or position of the business. The performance of the Business Services segment, which includes this company, is discussed in Severn Trent Plc's Annual Report and Financial Statements (which does not form part of this report).

Results and dividends

The Company's profit for the financial year after taxation was £35,000 (2020: £186,000).

The Directors do not recommend the payment of a dividend (2020: nil)

Principal risks and uncertainties

Treasury management

The Severn Trent Group manages its treasury operations on a group basis. Financial risk management is performed by Severn Trent's Group Treasury department. This includes assessment and mitigation of price risk, credit risk, liquidity risk and interest rate cash flow risk. The Group's treasury management policies and operations are discussed in Severn Trent Plc's Annual Report and Financial Statements (which does not form part of this report).

Financial position and going concern

As at 31 March 2021, the Company had net assets of £3,450,000 (2020: £3,415,000) and net current assets of £232,000 (2020: £191,000).

The Directors have considered the financial position and future prospects of the Company. The Company participates in the Group's pooled banking arrangements and receives funding, when required, from the Severn Trent Group in the form of intra-group loans. When existing loans reach maturity the appropriate funding will be established as required to ensure such obligations can be met. After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources, including financial resources available from other group companies, to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the report and annual financial statements.

Throughout the year and following the year end, the Board has considered and monitored the impact of COVID-19, in particular to evaluate its impact on financing and liquidity. This indicates that, while there has been a financial impact, this has not resulted in a significant impact to the Company's expected liquidity or solvency that cannot be addressed by mitigating actions.

Notes to the financial statements

1. Accounting policies

a) Accounting convention

The financial statements have been prepared on the going concern basis (see Strategic report) under the historical cost convention as modified by the revaluation of certain financial assets and liabilities at fair value, and in accordance with applicable United Kingdom Accounting Standards and comply with the requirements of the Companies Act 2006. The principal accounting policies, which have been applied consistently in the current and preceding year are set out below.

Severn Trent Services International Limited (the Company) is a private company limited by shares incorporated in the United Kingdom under the Companies Act 2006 and is registered in England and Wales.

b) Basis of preparation

The Company is a wholly owned subsidiary of Severn Trent Plc and is included in the consolidated financial statements of Severn Trent Plc.

The Company meets the definition of a qualifying entity under FRS 100 Application of Financial Reporting Requirements. Accordingly, the Company has elected to apply FRS 101 Reduced Disclosure Framework. Therefore the recognition and measurement requirements of International Financial Reporting Standards adopted pursuant to Regulation (EC) No 1606/2002 as it applies in the European Union have been applied, with amendments where necessary in order to comply with the Companies Act 2006 and The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 (SI 2008/410) as these are Companies Act 2006 accounts.

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to share based payment, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash flow statement, standards not yet effective, impairment of assets and related party transactions.

Where required, equivalent disclosures are given in the Group financial statements of Severn Trent Plc which are available to the public and can be obtained as set out in note 14.

c) Finance and similar income

Interest income is accrued on a time basis by reference to the principal outstanding and at the effective interest rate applicable. Interest income is included in finance income.

d) Taxation

Current tax payable is based on taxable profit for the year and is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date. Taxable profit differs from net profit as reported in the income statement because it excludes items of income and expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

Deferred taxation is provided in full on taxable temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred taxation is measured on a non-discounted basis using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

A deferred tax asset is only recognised to the extent it is probable that sufficient taxable profits will be available in the future to utilise it.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities.
