### NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 JANUARY 2013

---

#### 1. ACCOUNTING POLICIES

##### 1.1 Basis of preparation of financial statements

The full financial statements , from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention as modified by the revaluation of the company's investment property and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company is the parent undertaking of a small group and as such is not required by the Companies Act 2006 to prepare group accounts. These financial statements therefore present information about the company as an individual undertaking and not about its group.

##### 1.2 Turnover

Turnover comprises revenue recognised by the company in respect of rents receivable.

##### 1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Freehold buildings	-	2% straight line
Plant and equipment	-	20% reducing balance
Motor vehicles	-	20% reducing balance
Computer equipment	-	33.3% straight line

##### 1.4 Investments

Investments held as fixed assets are shown at cost less provision for impairment.

##### 1.5 Investment properties

Investment properties are included in the Balance sheet at their open market value in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) depreciated. This treatment is contrary to the Companies Act 2006 which states that fixed assets

should be depreciated but is, in the opinion of the directors, necessary in order to give a true and fair view of the financial position of the company.

FOR THE YEAR ENDED 31 JANUARY 2013**

**1. ACCOUNTING POLICIES (continued)**

**1.6 Deferred taxation**

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

Deferred tax is not provided on timing differences arising from the revaluation of fixed assets in the financial statements.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.
