1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005)

Going concern

The validity of the going concern assumption depends on the continued support of the director. The financial statements do not include any adjustments that would arise if this cooperation ceased.

Turnover

Turnover represents the invoiced value of sales of goods, net of value added tax.

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost, less any estimated residual value, over their expected useful economic life as follows:

Plant and machinery	50% reducing balance
---------------------	----------------------

Deferred taxation

Deferred tax is provided in full on timing differences which represent a liability at the balance sheet date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income or expenditure in tax computations in periods different from those in which they are included in the financial statements. Deferred tax assets and liabilities are not discounted.
