NTL MANCHESTER CABLEVISION HOLDING COMPANY

STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2016

Principal activities and business review

The principal activity of the company during the year was, and will continue to be, that of a holding company for ntl CableComms Greater Manchester. The investment in the subsidiary company remains fully impaired due to the company having net liabilities.

The company is a wholly owned subsidiary undertaking of Virgin Media Inc. (Virgin Media) which is itself a wholly owned subsidiary of Liberty Global plc (Liberty Global).

The Virgin Media Inc. consolidated group (the group) operates under the Virgin Media brand in the United Kingdom (UK) and Republic of Ireland (Ireland).

The group provides video, broadband internet, fixed-line telephony and mobile services in the UK and Ireland to both residential and business-to-business (B2B) customers. The group is one of the largest providers of video, broadband internet and fixed-line telephony services in terms of the number of customers in the UK and Ireland. The group believes its advanced, deep-fibre cable access network enables it to offer faster and higher quality broadband services than its digital subscriber line, or DSL, competitors. As a result, it provides its customers with a leading, next-generation broadband service and one of the most advanced interactive television services available in the UK and Irish markets.

The group provides mobile services to its customers using a third-party network through mobile virtual network operators (MVNO) arrangements.

In addition, through the Virgin Media Business brand, the group offers a broad portfolio of B2B voice, data, internet, broadband and managed services solutions to small businesses, medium and large enterprises and public sector organisations in the UK and Ireland.

At 31 December 2016, the group provided services to approximately 5.7 million residential cable customers on its network. The group is also one of the largest MVNO by number of customers, providing mobile telephony services to 2.4 million contract mobile customers and 0.6 million prepay mobile customers over third party networks. At 31 December 2016, 83% of residential customers on the group's cable network received multiple services and 62% were "triple-play" customers, receiving broadband internet, video and fixed-line telephony services from the group.

Liberty Global is the largest international cable company with operations in more than 30 countries and its market-leading triple-play services are provided through next-generation networks and innovative technology platforms that connected 25 million customers subscribing to 50 million television, broadband internet and telephony services. In addition at 31 December 2016, Liberty Global served 10 million mobile subscribers and offered WiFi service across 5 million access points.

The directors do not use key performance indicators (KPI's) to assess the performance of the company as its principal activity is that of a holding company.

The company has not received any dividends from its subsidiary during the year (2015 - £nil).

Principal risks and uncertainties

Financial and operational risk management is undertaken as part of the group operations as a whole. The company's operations expose it to a variety of operational and financial risks. These are considered in more detail in the financial statements of Virgin Media Inc. which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

Future outlook

The directors will continue to review management policies in light of changing trading and market conditions. Further detail of the future outlook of the group, including consideration of the impact of the UK referendum in June 2016 and the withdrawal from the European Union, is provided in Virgin Media Inc.'s financial statements and annual report for 2016, which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

This report was approved by the board on 20 June 2017 and signed on its behalf.

NTL MANCHESTER CABLEVISION HOLDING COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2016

1. Company information

ntl Manchester Cablevision Holding Company (the "company") is a private company incorporated, domiciled and registered in the UK. The registered number is 02455631 and the registered address is Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

The company is exempt by virtue of section 400 of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the company as an individual undertaking and not about its group.

2. Accounting policies

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently unless noted below.

2.1 Basis of accounting

These financial statements have been prepared on a going concern basis, and under the historical cost basis in accordance with the Companies Act 2006 and the Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101"). The amendments to FRS 101 (2014/15 Cycle) issued in July 2015 have been applied.

In preparing these financial statements, the company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions have been taken.

The company's parent undertaking, Virgin Media Finance PLC includes the company in its consolidated financial statements. The consolidated financial statements of Virgin Media Finance PLC are prepared in accordance with International Financial Reporting Standards and are available to the public and may be obtained from Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

In these financial statements, the company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- a cash flow statement and related notes;
- comparative period reconciliations for share capital;
- disclosures in respect of related party transactions with fellow group undertakings;
- disclosures in respect of capital management;
- the effects of new but not yet effective IFRSs;
- disclosures in respect of compensation of key management personnel; and
- disclosures of transactions with a management entity that provides key management personnel services to the company.

2.2 Investments

Investments are recorded at cost, less provision for impairment as appropriate. The company assesses at each reporting date whether there is an indication that an investment may be impaired. If any such indication exists, the company makes an estimate of the investment's recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount. A previously recognised impairment loss is reversed only if there was an event not foreseen in the original impairment calculations, such as a change in use of the investment or a change in economic conditions. The reversal of impairment loss would be to the extent of the lower of the recoverable amount and the carrying amount that would have been determined had no impairment loss been recognised for the investment in prior years.

NTL MANCHESTER CABLEVISION HOLDING COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2016

2. Accounting policies (continued)

2.3 Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside of profit or loss.

Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same tax authority.

NTL MANCHESTER CABLEVISION HOLDING COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2016

2. Accounting policies (continued)

2.4 Trade and other debtors

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the amount is fully written off when the probability for recovery of a balance is assessed as being remote.

2.5 Classification of shares as debt or equity

The company has financial instruments in the form of preference shares. As a condition of the shares there is a contractual obligation to accrue for dividends, regardless of performance. As this condition is potentially unfavourable the preference shares have been classified in the Balance sheet as financial liabilities, rather than equity, in accordance with IAS 32 "Financial Instruments: Disclosure and Presentation".

Finance payments associated with financial liabilities are dealt with as part of interest payable and similar expenses.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In the process of applying the company's accounting policies which are described above, management has not made any critical judgements that have a significant effect on the amounts recognised in the financial statements except for:

Carrying value of investments

Investments are held at cost less any necessary provision for impairment. Where the impairment assessment did not provide any indication of impairment, no provision is required. If any such indications exist, the carrying value of an investment is written down to its recoverable amount.

Recoverability of intercompany debtors

Intercompany debtors are stated at their recoverable amount less any necessary provision. Recoverability of intercompany debtors is assessed annually and a provision is recognised if any indications exist that the debtor is not considered recoverable.

4. Directors' remuneration

The directors received no remuneration for qualifying services as directors of this company. All directors' remuneration is paid by and disclosed in the financial statements of Virgin Media Limited.

5. Staff costs

The company does not have any directly employed staff and is not charged an allocation of staff costs by the group.
