Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under Company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent,

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 September 2012

1 PRINCIPAL ACCOUNTING POLICIES

Basis of accounting

These financial statements have been prepared on a going concern basis, under the historical cost convention and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom. A summary of the principal accounting policies which have been applied consistently is set out below.

Basis of preparation

The Company, as a wholly owned subsidiary of Randall Parker Food Group Limited, has taken advantage of the exemption under Section 400 of the Companies Act 2006 from the obligation to prepare group financial statements. These financial statements therefore present information about the Company as an individual entity and not about its group.

Cash flow statement and related party disclosures

The Company is a wholly owned subsidiary of Randall Parker Food Group Limited and is included in the consolidated financial statements of Randall Parker Food Group Limited, the ultimate parent company, which are publicly available Consequently this Company has taken advantage of the exemption from preparing a cash flow statement under the terms of FRS 1 (revised 1996) The Company is also exempt under the terms of FRS 8 from disclosing related party transactions with entities that are part of the Randall Parker Food Group Limited group

Tangible fixed assets

The cost of tangible fixed assets is their purchase cost, together with any incidental costs of acquisition less any impairment in value. Depreciation is calculated so as to write off the cost of tangible fixed assets by equal annual instalments over their expected useful lives.

The rates applicable are as follows Freehold buildings

50 years

Turnover

Turnover, which excludes value added tax, represents the invoiced value of goods and services provided and is recognised on despatch of goods to customers

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date

A net deferred tax asset is recognised as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on an undiscounted basis
