The company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 December 2014.

The members have not required the company to obtain an audit of its financial statements for the year ended 31 December 2014 in accordance with Section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for:

- (a) ensuring that the company keeps accounting records which comply with Sections 386 and 387 of the Companies Act 2006 and
- preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements of Sections
- (b) 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the company.

ABBREVIATED BALANCE SHEET - continued 31 DECEMBER 2014

The abbreviated accounts have been prepared in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small companies.

relating to small companies.
The financial statements were approved by the Board of Directors on 1 July 2015 and were signed on its behalf by:
Mr DW Purdy - Director
Mr P Dodsworth - Director

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2014

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the value of goods sold during the year and is recognised once goods have either been delivered to, collected by, or allocated as reserved to the customer.

The company has no turnover in respect of long-term contracts and contracts for on-going services.

Tangible fixed assets

All fixed assets are originally recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value over the useful economic life of that asset as follows:

Plant & Machinery - 10% reducing balance
Fixtures & Fittings - 10% reducing balance
Motor Vehicles - 25% reducing balance
Computer Equipment - 25% reducing balance

The directors have agreed to continue to not depreciate freehold land and buildings on the basis that this would not provide a true and fair view of the value of the assets in the company, that the material value lies in the land, that the buildings are continually maintained and that the charge would be immaterial owing to the long useful economic life of the buildings. This is not in accordance with the FRSSE however the directors believe that this provides a true and fair view in light of the useful economic life of the property. Regular revaluations are undertaken and the land and property is shown at current market value.

Hire purchase agreements

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest element is charged to the profit and loss account on a straight line basis.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Operating lease commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
