Notes to the Abbreviated Accounts for the year ended 31st August 2016

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Preparation of consolidated financial statements

The financial statements contain information about Robert Sanderson & Sons (Holdings) Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company has taken the option under Section 398 of the Companies Act 2006 not to prepare consolidated financial statements.

Turnover

Turnover represents rentals received on investment properties

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings - 25% on reducing balance

Freehold buildings and Investment properties are stated at open market value. Contrary to the requirements of FRS 15, no depreciation has been provided on the freehold buildings, because it is the company practice to maintain the assets in a continual state of sound repair. Accordingly, the lives are so long and the residual values are so high that their depreciation is insignificant.

Investment property

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
