### **Chief Executive's Statement**

#### **Formation of Blitz Charter Group**

On 26 February 2004, a new company, Blitz Charter Group Limited acquired Blitz Communications Limited, Charter Broadcast Limited, other holding companies and dormant subsidiaries from Evenser Group Limited to form the Blitz Charter Group. Through its two main 'companies' this group will continue to provide high quality audio visual services to corporate organisations and the hire of television broadcast equipment throughout the world.

Charter also continues to operate through its subsidiary in Singapore supplying equipment to the Far-East market.

During 2003, the operations of Charter GmbH in Germany were terminated and equipment returned to the UK. In a separate transaction in early 2004, the operations of Charter Inc were sold and a Reciprocal Agency Agreement entered into with the acquirer. Certain surplus equipment not required in that transaction was returned to the UK.

#### **Details of Acquisition**

On 26 February 2004, Blitz Charter Group Limited was formed as follows:

- i) Evenser Group's audio visual and broadcast equipment interests were transferred to a new company, Blitz Charter Group Limited ("Blitz Charter") controlled by funds managed by Candover Investments Plc, which are independent of the Company;
- ii) £10,525,000 of the Evenser Group Limited senior debt and £2,800,000 of the Evenser Group Limited revolving credit facility were transferred to Blitz Charter;
- iii) All of the senior unsecured subordinated loan stock in Evenser Group Limited amounting to some £70 million including rolled up interest was converted into deferred ordinary shares in the Evenser Group Limited;
- iv) All of the junior unsecured subordinated loan stock amounting to £224,000 was redeemed by the Evenser Group Limited at a cost of £22,400;
- v) Certain directors, including members of the executive management of Blitz Charter agreed to resign from the Evenser Group Limited Board and relinquish their existing ordinary shares; and
- vi) New incentive arrangements were entered in to with the management teams of both the continuing group and Blitz Charter.

If the results for the year to 31 December 2003 for Blitz Communications and Charter Broadcast are aggregated, they would appear as follows:

## **Notes to the financial statement for the year ended 31 December 2003**

### **1 Principal accounting policies**

#### **Basis of preparation**

These financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards.

The principal accounting policies consistently applied in the preparation of the accounts of the Company are described below.

#### **Adoption of new accounting standards**

The company has adopted Financial Reporting Standard 19 'Deferred Tax'. There has been no effect of this change in accounting policy to the comparative figures.

#### **Basis of consolidation**

The financial statements contain information about Charter Broadcast Limited as an individual Company and do not contain consolidated financial information as the parent of a group. The Company is exempt under Section 228 of the Companies Act 1985 from the requirement to prepare consolidated financial statements as it and its subsidiary undertakings are included by full consolidation in the consolidated financial statements of its parent, Evenser Group Limited, a Company registered in England and Wales.

#### **Tangible fixed assets**

The cost of tangible fixed assets is their purchase cost, together with any incidental expense of acquisition.

Depreciation is calculated so as to write off the cost of tangible fixed assets, less their estimated residual value, by equal annual instalments over their estimated useful lives.

Plant and hire equipment	5 years
Motor vehicles	3 to 4 years
Fixtures and fittings	5 years
Leasehold improvements	Over the unexpired life of the lease

Tangible fixed assets acquired as part of businesses acquired are depreciated over the remaining estimated useful economic lives of those assets.

#### **Leases**

Costs in respect of operating leases are charged to the profit and loss account on a straight-line basis over the life of the lease.

Hire purchase agreements and finance leases which transfer to the Company substantially all the benefits and risks of ownership of an asset are treated as if they had been purchased outright. The assets are included in fixed assets and the capital element of the leasing commitment is shown as obligations under finance leases. The lease rentals are treated as consisting of capital and interest elements. The capital element is applied to reduce the outstanding obligations and the interest element is charged against profit so as to give a constant periodic rate of charge on the remaining balance outstanding at each accounting period. Assets held under hire purchase agreements and finance lease are depreciated over their useful economic lives.

# **Charter Broadcast Limited (formerly Pantherwood Limited)**

## **Notes to the financial statements for the year ended 31 December 2003 (continued)**

### **1 Principal accounting policies (continued)**

#### **Investments**

Fixed asset investments are shown at cost less, where appropriate, provision for impairment.

#### **Turnover**

Turnover during the year represented amounts (excluding value added tax) derived from the provision of management services to group undertakings during the year. The Company only undertakes one class of business and all income originates in the United Kingdom.

#### **Foreign currency**

Trading results denominated in foreign currencies are translated into sterling at average rates of exchange during the year, except for material exceptional items which are translated at the rate on the date of the transaction. Monetary assets and liabilities are translated at the rates of exchange ruling at the year end except where rates of exchange are fixed under contractual arrangements. Non-monetary assets and liabilities are translated at the historic rate.

#### **Stocks and work in progress**

Stocks and work in progress are valued at the lower of cost and net realisable value. Provision is made where necessary for obsolete, slow moving and defective stock.

#### **Taxation including deferred taxation**

The charge for taxation is based on the profit/loss for the period and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred taxation is provided on all timing differences in accordance with FRS19, "Deferred tax". Deferred tax assets are recognised to the extent they are regarded as recoverable. Deferred tax assets and liabilities are not discounted.

#### **Pensions**

The Company operates a defined contribution scheme. The assets of the scheme are held separately from those of the Company in independently administered funds. Contributions to the scheme are charged to the profit and loss account in the year in which accrued.

#### **Cash flow statement and related party disclosures**

The Company is a subsidiary undertaking of Evenser Group Limited, where 90% or more of the voting rights are controlled within the group. The Company is included in the consolidated financial statements of Evenser Group Limited, which are publicly available from Companies House. Consequently, the Company has taken advantage of the exemption from preparing a cash flow statement under the terms of Financial Reporting Standard 1 (revised 1996). The Company is also exempt under the terms of Financial Reporting Standard 8 from disclosing related party transactions with entities that are part of Evenser Group Limited.
