NOTES TO THE FINANCIAL STATEMENTS for the year ended 30 September 2014

1. ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under the historical cost convention.

GOING CONCERN

The company is not a trading company and as such has no working capital requirements. The only transactions in the company in the year are intercompany transactions as a result of a group reorganisation.

The directors have no reason to believe that material uncertainties exist that may cast significant doubt over the ability of the company to continue as a going concern or its ability to continue with the current banking arrangements.

On the basis of the assessment of the company's financial position the directors have reasonable expectation that the company will be able to continue in operational existence for the foreseeable future. Thus the going concern basis of accounting in preparing the annual financial statements has been used.

CASH FLOW STATEMENT

The company has taken advantage of the small company exemption from preparing a cash flow statement under the terms of FRS 1.
