**Abbeydale Homes (Bourne) Limited**  
**Notes to the Abbreviated Accounts**  
**for the year ended 30 September 2013**

**1 Accounting policies**

***Basis of preparation***

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

***Turnover***

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers

***Depreciation***

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives

Plant and machinery	20% straight line
Motor vehicles	25% straight line

***Stocks and work in progress***

Stock and work in progress is valued at the lower of cost and net realisable value

***Deferred taxation***

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

***Investment properties***

In accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) no depreciation is provided in respect of freehold properties held as investments. This is a departure from the requirements of the Companies Act 2006 which requires all properties to be depreciated. Such properties are held for investment and not for consumption and the directors consider that to depreciate them would not give a true and fair view. Depreciation is only one of the many elements reflected in the annual valuation of properties and accordingly the amount of depreciation which might otherwise have been charged cannot be separately identified or quantified. The directors consider that this policy results in the financial statements giving a true and fair view.
