## NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS

## YEAR ENDED 30 JUNE 1999

#### 1. ACCOUNTING POLICIES

#### **Basis of Accounting**

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 1999).

#### Consolidation

In the opinion of the directors, the company and its subsidiary undertakings comprise a small group. The company has therefore taken advantage of the exemption provided by Section 248 of the Companies Act 1985 not to prepare group accounts.

#### Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

#### Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant & Machinery 25% per annum straight line Fixtures & Fittings 20% per annum straight line Motor Vehicles 25% per annum straight line

No depreciation is provided on freehold land. The directors consider that the level of repairs and maintenance on freehold buildings will result in a residual value of this asset exceeding the original cost, and therefore have not provided for any depreciation for the period in respect of this asset.

#### Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

#### **Hire Purchase Agreements**

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the profit and loss account.

#### **Pension Costs**

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

#### Foreign Currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date.
