#### NOTES TO THE FINANCIAL STATEMENTS

#### **FOR THE YEAR ENDED 31ST MAY 1999**

#### 1. Accounting policies

The financial statements are prepared under the historical cost convention and incorporate the results of the principal activity which is described in the directors' report and which is continuing. The accounts have been prepared using the FRSSE (financial reporting standard for smaller entities March 1999).

The financial statements have been prepared on a going concern basis which assumes that the company will continue in operational existence for the forseeable future.

In common with all such facilities the bank overdraft is repayable on demand but the directors maintain a close relationship with the company's bankers which reinforces together with current management information that the company has adequate finance facilities for its operations.

#### Cash flow statement

The Company has taken advantage of the exemption in Financial Reporting Standard No.1 from the requirement to produce a cashflow statement on the grounds that it is a small company.

#### Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax and trade discounts.

#### Depreciation and diminution in value of assets

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant and machinery - 15% on straight line basis

#### Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow moving stocks. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

#### **Deferred taxation**

Deferred taxation is provided on the liability method to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent it is considered that a net liability may crystallise.
