1. Accounting policies

Basis of accounting

These financial statements are prepared on the going concern basis, under the historical cost convention, and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom. The principal accounting policies, which have been applied consistently throughout the year, are set out below.

Investments

Investments are stated at cost. Shares held within trusts are written down to their recoverable amount, being the exercise price of options granted over them. Provision is made where there is an impairment in the value of the investment.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date and that result in an obligation to pay more tax in the future or right to pay less tax in the future. A net deferred tax asset is recognised as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted.

Deferred tax is measured at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

Cash flow statement

The company qualifies as a small company under the terms of Section 381 of the Companies Act 2006. As a consequence it is exempt from the requirement to publish a cash flow statement under Financial Reporting Standard 1 "Cash Flow Statements" (revised 1996).

Pension costs

The company makes contributions to various defined contribution pension schemes. The assets of the schemes are held separately from those of the company in independently administered funds. The pension costs charge represents the contributions payable by the company to the funds.

Employee benefit trust and other intermediate payments

Shares held in trust are included in investments (note 3) and money held in trust is included in cash at bank and in hand on the balance sheet. The net income and expenses of the trusts are reflected in the company's profit and loss account.
