Report of the directors

The directors present their report and the financial statements of the company for the year ended 31 May 2008

Principal activities and business review

The principal activity of the company continues to be the remediation of contaminated sites throughout the UK

This year has seen a significant improvement in the results, with a return to profitability and a net asset cash backed balance sheet. The larger nature and longevity of the contracts secured have assisted the business in returning to profitability. The provision made against future losses on one contract last year was found to be insufficient and unfortunately further losses were incurred this year to complete the contract.

Future developments

The company's breadth of remediation solutions continues to offer considerable potential for development and expansion. However, given the uncertain economic conditions that currently exist, particularly in the construction and housing industry, we expect the 2008 / 2009 results to reflect a lower level of activity.

Results and dividends

The profit for the year, after taxation, amounted to £675,000 The directors have not recommended a dividend

Key performance indicators

		2008	2007	hange in the year
Financial metrics Revenue	£000	11,016	4,948	+123%
Earnings/(loss) before interest, tax, depreciation, amortisation and central management charges	£000	1,004	(177)	+1,181
Average days turnover in amounts recoverable on contracts and trade debtors	Days	70	87	- 17 days
People Staff as at 31 May	No	39	27	+ 44%

Funding and risk management objectives and policies

The main risks arising are liquidity and credit risks. The directors review and agree policies for managing each of these risks and they are summarised below. These policies have remained unchanged from previous years.

Liquidity

The company uses overdraft facilities provided by Lloyds Bank for short-term flexibility. At the year end the company has access to undrawn committed borrowing facilities of £500,000. The maturity profile of committed banking facilities is regularly reviewed and such facilities are extended or replaced well in advance of their expiry. The company does not enter into speculative financial transactions and uses financial instruments (e.g. Trade Credit Insurance) for certain risk management purposes.

Credit risk

The company's principal financial assets are cash, trade debtors and amounts recoverable on contracts. The company limits deposits to short term deposits with its bankers. The principal credit risk arises therefore from its debtors/amounts recoverable on contracts.

In order to manage this risk all jobs and customers are credit checked at contract stage and credit insurance is arranged on the majority of debts

Directors

The directors who served the company during the year were as follows

C A Sillars

J Ridgeway

H J Ventham

R S Pollock

R N Tredwin

B Foley

(Appointed 17 March 2008)

R K McCabe

(Appointed 17 March 2008)

J Ridgeway (Commercial director) resigned as a director on 5 June 2008

Directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom. Accounting Standards (United Kingdom Generally Accepted Accounting Practice). The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the directors are aware

- there is no relevant audit information of which the company's auditor is unaware, and
- the directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information

Auditor

A resolution to re-appoint Grant Thornton UK LLP as auditor for the ensuing year will be proposed at the annual general meeting in accordance with section 385 of the Companies Act 1985

BY ORDER OF THE/BOARD

R N Tredwin Secretary

22 August 2008

Report of the independent auditor to the members of Churngold Remediation Limited

We have audited the financial statements of Churngold Remediation Limited for the year ended 31 May 2008 which comprise the principal accounting policies, profit and loss account, balance sheet and notes 1 to 20 These financial statements have been prepared under the accounting policies set out therein

This report is made solely to the company's members, as a body, in accordance with Section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed

Respective responsibilities of directors and auditor

The directors' responsibilities for preparing the Report of the Directors and the financial statements in accordance with United Kingdom law and Accounting Standards (United Kingdom Generally Accepted Accounting Practice) are set out in the statement of directors' responsibilities

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland)

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you whether in our opinion the information given in the Report of the Directors is consistent with the financial statements.

In addition we report to you if, in our opinion, the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and other transactions is not disclosed

We read the Report of the Directors and consider the implications for our report if we become aware of any apparent misstatements within it

Basis of opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

Report of the independent auditor to the members of Churngold Remediation Limited (continued)

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion

- the financial statements give a true and fair view, in accordance with United Kingdom Generally Accepted Accounting Practice, of the state of the company's affairs as at 31 May 2008 and of its profit for the year then ended,
- the financial statements have been properly prepared in accordance with the Companies Act 1985, and

for The UKCLP

- the information given in the Report of the Directors is consistent with the financial statements

GRANT THORNTON UK LLP REGISTERED AUDITORS CHARTERED ACCOUNTANTS

Bristol 22 August 2008

Principal accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable UK accounting standards

The principal accounting policies of the company have remained unchanged from the previous year

Going concern

The directors consider that the company has sufficient resources available in terms of both bank and related party funding to justify preparing the financial statements on a going concern basis

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the financial statements on the grounds that the company is small

Turnover

Turnover is the total amount receivable for goods and services provided, net of VAT and trade discounts. In the case of long term contracts, turnover represents the sales value of work done in the year

Fixed assets

All fixed assets are initially recorded at cost

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Plant & Machinery

over 3 to 5 years (straight line)

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease

Pension costs

The company contributes to the personal pensions of all employees Contributions are charged to the profit and loss account as incurred

Deferred taxation

Deferred tax is recognised in respect of all timing differences where the transactions or events that give the company an obligation to pay more tax in the future, or a right to pay less tax in the future, have occurred by the balance sheet date. Deferred tax assets are recognised when it is more likely than not that they will be recovered. Deferred tax is measured on an undiscounted basis using rates of tax that have been enacted or substantively enacted by the balance sheet date.

Foreign currencies

Monetary assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity

Long-term contracts

Turnover and related costs on each long-term contract are recorded in the profit and loss account as contract activity progresses. Turnover is calculated on the basis of the value of the work done. Attributable profit is calculated on a prudent basis for each contract by reference to the contract's cumulative turnover, total contract value and total profit estimated for the completed contract. Full provision is made for losses on a contract immediately they can be foreseen. Work in progress is included in amounts recoverable on long-term contracts.

Share-based payment

Equity-settled share-based payment

All material share-based payment arrangements granted after 7 November 2002 that had not vested prior to 1 January 2006 are recognised in the financial statements

All goods and services received in exchange for the grant of any share-based payments are measured at their fair values. Where employees are rewarded using share based payments, the fair values of employees' services are determined indirectly by reference to the fair value of the instrument granted to the employee. This fair value is appraised at the grant date and excludes the impact of non-market vesting conditions (for example, profitability and sales growth targets)

All equity-settled share-based payments are ultimately recognised as an expense in the profit and loss account with a corresponding credit to "other reserve"

If vesting periods or other non-market vesting conditions apply, the expense is allocated over the vesting period, based on the best available estimate of the number of share options expected to vest. Estimates are revised subsequently if there is any indication that the number of share options expected to vest differs from previous estimates. Any cumulative adjustment prior to vesting is recognised in the current period. No adjustment is made to any expense recognised in prior periods if share options that have vested are not exercised.

Upon exercise of share options, the proceeds received net of attributable transaction costs are credited to share capital, and where appropriate share premium

In the opinion of the directors the potential charge arising under FRS 20 is not material to these financial statements and so has not been recognised

Profit and loss account

	Note	2008 £000	2007 £000
Turnover	1	11,016	4,948
