1 Accounting policies

The financial statements have been prepared under the historical cost convention

The following principal accounting policies have been applied

Turnover

Turnover represents sales to external customers at invoiced amounts

Depreciation

Depreciation is provided to write off the cost, less estimated residual values, of all tangible fixed assets, except for investment properties, freehold land and certain buildings, evenly over their expected useful lives. It is calculated at the following rates

Freehold property	- 2% straight line
Motor vehicles	- 20% straight line
Fixtures and fittings	- 20% straight line

Deferred taxation

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that

- deferred tax is not recognised on timing differences arising on revalued properties unless the company has entered into a binding sale agreement and is not proposing to take advantage of rollover relief, and
- the recognition of deferred tax assets is limited to the extent that the company anticipates making sufficient taxable profits in the future to absorb the reversal of the underlying timing differences

Deferred tax balances arising from underlying timing differences in respect of tax allowances on industrial buildings are reversed if and when all conditions for retaining those allowances have been met

Deferred tax balances are not discounted

Leased assets

All leases are treated as operating leases. Their annual rentals are charged to the profit and loss account on a straight-line basis over the term of the lease
